Fireman J. J. McNamara has resigned and gone to Denver.

Fireman J. W. Craig has been sent to Seneca to work on the switch engine.

R. J. Burke and R. E. McKenzie returned Sunday from Lincoln where they had been visiting the State Fair.

Con. U. N. Hoskins who has been laying off, the result of a fall at Edgemont is much better and expects to report for work soon.

Train Master Griggs of Sterling was in Alliance Monday making arrangements to move his family to Sterling.

Brakeman D. B. Carpenter returned Wednesday morning from Loup City where he has been visiting. His wife will stay a week or ten days longer.

Mrs. Dan Wagner left Sunday morning for a three weeks trip to her former home in Indiana. Mr. Wagner expects to go about the 20th and they will return together.

Conductor W. Heisenbuttle has been confined to his home the past ten days with typhoid fever. He was taken sick at Edgemont and had to dead head home. Reports from his home Wednesday say he is slightly better.

Conductor C. E. Calender, extra west run over and killed a man at Mullin Saturday night. It is supposed he was stealing a ride. The body was not found until after the train passed and the train crew knew nothing about it until the agent at Hecla told them.

Brakeman Rhoe who is braking for W. W. Johnson lost the first two joints of his little finger Saturday night at the Alliance stock yards. They were unloading stock, and he went to pull the air and caught his finger. He was taken at once to the doctor and had the finger dressed. He will be on the relief for some time.

Denver passenger men who called on brakeman Hughes at the hospital Tuesday say that he is not yet out of danger. He has a strong, healthy constitution and is making a brave fight for his life. The wound where he was stabbed is just below the ribs on the

left side. The knife had a three and one-half inch blade. The operator is locked up and no charge will be made against him until the result of the wound is learned.

Tuesday morning the body of an unknown man, supposed to be a tramp, was discovered at Ellsworth by the crew of an extra stock train. The body was badly cut up and was probably run over by number forty-one.

To an outsider the life of a passenger brakeman looks to be a snap. Nothing to do but wear a handsome, becoming uniform and make eyes at the ladies. But the one who went from Seneca to Ravenna last Monday on No. 40 can tell a different story. In that distance he helped to load 600 cream cans. Who could keep a uniform presentable after such strenuous labor.

Quite a change was made this week in the east end passenger runs. Mr. Eph Stuart has moved to Ravenna and will run on 39 and 40. Mr. James Gaddis will move back to Alliance and run west out of here. As soon as Col. Betebenner reports for work Col. C. E. Bennett will come back to Alliance. Conductor Cunningham who has been acting as yard master at Seneca has been relieved and will again run on the main line. W. M. Cummings is acting yard master until a new one is appointed.

Brakeman Thomas Hughes with Con. Hackett on No. 303 was stabbed in the back by an ex-operator at Keensburg, Colorado. It seems that some time ago this operator was discharged for neglecting his duty and he blamed this train crew for reporting him as he supposed. He was at once arrested and taken to Hudson, Colo., where he will be held until later. If Hughes does not get well it will be a case of willful murder. At present Hughes is in the St. Lukes hospital in Denver and is slowly improving. Young Hughes has many friends here who are very indignant over him receiving such cowardly cruel treatment.

Engineer E. R. Morrison who has had a passenger run for several years has bid in a Crawford hill job and is now working there. He has one of the Malley compound engines. Mrs.

Morrison went up Sunday to visit and to see about getting a house. The Morrison family will be greatly missed here by their many friends. Mrs. Morrison is a member of the G. I. A. lodge and the R. N. of A. and both orders will lose a good helpful member when she moves away. But such is railroad life. Alliance today, and either Sterling, Crawford or Ravenna tomorrow.

## Preparing for Winter

Now that the vacation days are over, there are numerous fall arrangements to be made. The summer clothes must be packed away, the winter ones made ready to wear, and a hundred little worries come with the change of the season.

All these things are much more easily cared for if help can be summoned at the right moment, and instruction given without a personal visit. The Local and Long Distance lines of the Bell System enables anyone to send the right word to the right place at the right moment.
