The use of glasses as a protection to engineers' eyes is being talked over by officials of roads in the east. It sounds very reasonable that properly fitted glasses would help to relieve the terrible strain to which an engineer's eyes are subjected and to increase the efficiency of men who need glasses with only a slight correction in them.

Among the younger conductors there are several who thank him for their efficient training while on Hamilton's car. Among the trials and tribulations on the road were many that would spoil the temper of a saint, but Billy was always cool and even tempered and willing to "help out" at all times.

## Burglar Is Discovered

The recent attempted and successful burglaries in Alliance have not been very paying to the burglar or burglars but they have put Alliance storekeepers on the watch, so when George Duncan of the Duncan Grocery heard a fearful noise in his basement at 8:30 Wednesday evening, he of course supposed his time had come and as the store is only a block from the police station, he quietly closed the front door and "hiked" for the station.

With the entire police force at his back, including the police judge, he felt braver and with each man carrying a large sixty-six automatic repeating safety revolver they marched back to the store, prepared their dark lanterns, and with quiet cat-like steps, entered the basement.

In an instant the thick darkness was turned into broadest daylight by the dark lanterns and each man called in his loudest voice, "Hands up." Instead of the revolver shot which they were expecting from the midnight (8:30) prowler, from one corner of the room came a loud "Meow, eow" and out darted a big black cat.

The joke was on George and the entire force smoked pure Havanas the rest of the evening.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally, it does from 18 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 71c.
