## Buy Your Shoes at a Shoe Store

THERE is a big difference in shoes. To a shoe man the difference is apparent but to the customer it sometimes is hard to distinguish between the good and the bad. A "Welt" shoe is a good shoe; a "makay" is inferior. We'll be glad to show you the difference.

Our Men's Welts at \$3.50 and \$4.00 are as good as the best shoe made. Let us show you.

FOUNDERS OF RED CROSS DEAD

Henri Dunant Passes Away at Health Resort Near Geneva.

Geneva, Switzerland, Nov. 1.—Henri Dunant, founder of the International Red Cross society, died at Heiden, a health resort.

Henri Dunant was of Swiss birth and lived in Geneva. At the battle of Solferino, June 24, 1859, he witnessed the needless suffering and loss of life resulting from days of neglect to care for the wounded. Realizing that such conditions need not exist, he conceived the idea of pledging the nations to regard and protect as neutral all sick and wounded combatants and all persons giving them succor.

He elaborated his ideas and through the co-operation of the Swiss federal council brought about an international conference at Geneva in October, 1863. Sixteen governments were represented. This was followed by the Geneva convention of Aug. 8, 1864, which adopted nine articles of agreement "for the amelioration of the condition of wounded in armies in the field."

These articles were signed by twelve governments and the signatory powers have since reached forty. A uniform flag, made of a red cross on a white ground, was adopted as a compliment to the Swiss federation, whose national flag is the reverse.

SEVEN THOUSAND BRANDS

South Dakota Herd Owners Take Advantage of Law to Protect Stock.

Pierre, S. D., Nov. 1.—The state brand commission closed its fall meeting, after passing upon 128 brands which had been filed since the last meeting of the commission. The results of this meeting show a record of 7,064 registered brands in use in the state. While the big herds are being broken up the owners of a few head of cattle appear to consider the brand proposition to be the best one for identification of their cattle in case they should stray or be stolen, and the number of brands are more likely to increase instead of diminish by the breaking up of the free range.
