The little daughter of Mr. and Mrs. Frank McFall is on the sick list this week.

Mrs. P. J. Stergeon and children, of Alliance, were visiting at the ranch Saturday and Sunday.

Miss Agnes Wambaugh received word that her father, Martin Hood, had died January 31 at North Platte.

W. G. Wilson is quite sick. We understand he is threatened with pneumonia, but hope for his speedy recovery.

## FOR THE PUBLIC GOOD

One hears a good deal about the power of the press, but the fact is that no newspaper has very much real power over men or events in these days unless it is known to be standing sanely and steadfastly for the welfare of the whole community and nation. The day of party organs is past. Sensational papers appealing to popular passions cannot move thoughtful men—the men who make history. The only kind of newspaper that really has power in these days is the independent, reliable, disinterested journal of wide circulation, whose columns are known to stand always for the general good—for public honesty and a square deal, whatever happens. An excellent example of this sort of journalism is The Chicago Record-Herald. It has the enormous circulation that deservedly goes with the printing of all the news, but its power lies in its wise, conservative, independent editorial policy, which is shaped with one sole end in view—the public good. Its news and critical columns show the same spirit. It is an ideal paper for the home.

## ANOTHER BIG ORDER

Last week mention of the large order for laundry slips given by the Alliance Steam Laundry was made. Another big one of a similar nature was a job of 40,000 sales slips for the resident meat market of Drake & Barb, which was finished this week. The slips were bound in book form, one hundred to each book.

## J. M. HICKS MADE ENOUGH MONEY FROM CABBAGES IN ONE YEAR TO PAY FOR HIS WHOLE FARM.

His address is San Benito, Texas. His story is worth while hearing. If you'll drop him a line, he'll tell you how he has been uniformly successful since he changed his home and his luck.

The Texas Gulf Coast country has made more men rich and contented in less time than any section in America. Its natural advantages are not paralleled.

The soil is not only rich, but so deep that fertilizer will not be needed for years to come. The climate is delightful every month in the twelve—always mild enough to produce some sort of a crop every season.

You raise your own food, including your meat, your butter, your eggs, your milk. The first year generally brings you out even on your investment and often sees you with your land paid for and a profit in the bank.

A thoroughly efficient school system, good stores which not only furnish the necessities and all reasonable luxuries, convenient resorts along the Gulf of Mexico, which offer bathing, boating and fishing, add to the attraction of your new home.

It won't cost you much to visit this country and judge for yourself. Every first and third Tuesday of each month you can purchase a round-trip land-seeker's ticket to any point in the Texas Gulf Coast country, from Kansas City, at \$25.00 via Frisco Lines.

Let me tell you more about this prosperous country.

The Excursion Tickets are good on all Frisco trains leaving Kansas City daily. Booklets and further information will be furnished upon request to J. C. Lovrien, Division Passenger Agent Frisco Lines, Junction Bldg., Kansas City, Mo., or J. Hilton, General Passenger Agent Frisco Lines, Frisco Bldg., St. Louis, Mo.

## SELLING SHERIDAN LOTS

J. A. Handrahan, special representative of the West Sheridan Land Company, Inc., of Sheridan, Wyoming, is in the city selling building lots in Downer addition to Sheridan. There are a total of 1289 pieces of property in the tract, which is being sold on easy payments.

Mr. Handrahan states that several Alliance people have already invested and that some have gone up to Sheridan to look over the addition. He is stopping at Miss Kent's boarding house, his wife and baby accompanying him.

## SHOULD HAVE RETURN CARD

Every envelope sent through the United States mails should have a return card printed in the corner. Last year there were over 12,000,000 pieces of mail sent to the dead letter office in Washington.

To open and sort this mail requires fifteen persons. From this mail last year there was taken \$59,000 in money, of which only \$40,000 could be returned to the owners. The money which could not be returned was turned over to the treasury department after every effort possible was made to discover the owners.

The moral is, have a return card printed on every envelope you send out. It's much cheaper and may save you money.

## ACTION AT AUTO SHOW

Manufacturers of standard makes of automobiles are planning an unusual demonstration in Omaha the week of February 20 to 25 when the sixth annual automobile show will be held in the auditorium.

This demonstration has been arranged to give visitors the most minute knowledge of machines. Cylinders cut in half will be operated by electric motors which will enable visitors to see just what happens in the cylinders; transmission cases will be open and running; their action may be studied; other machines will be taken apart and shown in pieces like holding an autopsy over a motor car.

## LIFE SAVED AT DEATH'S DOOR

"I never felt so near my grave," writes W. R. Patterson, of Wellington, Tex., as when a frightful cough and lung trouble pulled me down to 100 pounds, in spite of doctor's treatment for two years. My father, mother and two sisters died of consumption, and that I am alive today is due solely to Dr. King's New Discovery, which completely cured me. Now I weigh 187 pounds and have been well and strong for years.

Quick, safe, sure, it's the best remedy on earth for coughs, colds, la grippe, asthma, croup and all throat and lung troubles. 50c and \$1.00. Trial bottle free. Guaranteed by F. J. Brennan.

A CLASSIFIED ADVERTISER, who "mans business," will GET BUSINESS. If he has something to sell that is worth while, he will advertise it in a confident and convincing way—and he will sell it!

## Hemingford Department

**CALUMET BAKING POWDER**

The wonder of baking powders—Calumet. Wonderful in its raising powers—its uniformity, its never failing results, its purity.

Wonderful in its economy. It costs less than the high-price trust brands, but it is worth as much. It costs a trifle more than the cheap and big can kinds—it is worth more. But proves its real economy in the baking.

Use CALUMET—the Modern Baking Powder.

At all Grocers.
