CATCHING UP

"Three moves are as bad as a fire," is one of the old Ben Franklin proverbs, but we think it would be a pretty bad fire that would cause as much inconvenience as moving a printing plant once. But we are glad to say that we are catching up on our work and expect by next week to issue The Herald on time and to continue doing so.

We have some especially good news for the friends of this paper. Arrangements have been completed for an addition of two expert printers to our working force. When they arrive, which will be within a few days, The Herald will have the best working force it has ever had, and the best in the state west of Grand Island. By "best working force" we mean the largest number of expert printers.

It will please the many Alliance friends of John K. Adams to learn that he is one of the two printers above mentioned. The other is a gentleman from Indiana who has had many years' experience in local newspaper work and also in some of the large job printing establishments of Chicago.

I wish to thank the 268 men and women who voted for me April 4th. I appreciate it very much.

On Sunday a party consisting of Conductors Tom Cambell, Wm. Eubanks, and Simonson, and brakeman Hoffman, left for Omaha on No. 44 where they were called on a damage suit brought by C. E. Danes, a former brakeman. Danes was badly scalded in a wreck about four years ago when a fast cattle train struck the rear of a sheep train. At the time they struck Danes was in the tender of the cattle train shoveling down coal. He was badly scalded. No one appeared in Omaha to prosecute the case so it was dismissed.
