SUGGESTIVE QUESTIONS

On the Sunday School Lesson by Rev. Dr. Linscott for the International Press Bible Question Club.

(Copyright 1910 by Rev. T. S. Linscott, D.D.)

July 22nd, 1911.
(Copyright, 1910, by Rev. T. S. Linscott, D.D.)
Isaiah's Prophecy Concerning Sennacherib, Isa. xxxvii:14-35.

Golden Text—God is our refuge and strength, a very present help in trouble. Ps. xli:1.

(1.) Verse 14.—What letter was it that Hezekiah spread before the Lord?

(2.) Is it the privilege of every man to spread all his letters, including those which give him trouble, before the Almighty God, and if so, what is the advantage in doing it?

(3.) What if any advantage is there in telling our troubles to God in the house of the Lord, over doing so in our own homes?

(4.) Verses 15-20—Hezekiah tells God in much detail the nature of his troubles. Now what good is it to do that, seeing God knows all about it in any event?

(5.) Why does God not know all about our heartaches and our needs before we tell Him, in the same way as He knows afterward?

(6.) What is the advantage of urging God by all the argument we can think of, as Hezekiah does here, to answer our prayers?

(7.) What effect does the degree of our vehemence, or the extent of our desire, have upon God in answering our prayers?

(8.) Why did not God answer Hezekiah direct, instead of through Isaiah?

(9.) Apparently some men with equal goodness are better able to receive detailed messages from God than others. If this is so, why is it?

(10.) May we rest with absolute certainty in the assurance that having told God our needs, He will supply them? Why?

(11.) What is the reason for believing that no person and nothing can bring ultimate injury to a man, or a cause trusting in God?

(12.) Why are men so foolish as to think they can prevail against God?

(13.) Verse 29—Why does God take injury done to His people as done against Himself?

(14.) Would you go so far as to say that every hurt by word or deed, done against a child of God, is done against God? Give your reasons.

(15.) Give an example of how God restrains the wicked as stated here, "I will put my hook into thy nose, and my bridle in the lips."

(16.) Verses 20-22—As an example of how God rules, and overrules, think of your own blessings, and say how many of them are a result of your own efforts and how many from causes over which you have had no control?

(17.) Verses 33-37—What means did God take to prevent Sennacherib from capturing Jerusalem?

(18.) How did the angels of the Lord slay probably 185,000 of the soldiers of the Assyrian army in one night? (Give some Bible examples of how such things have been done.)

(19.) Verse 38. To what extent is it a rule that men get what they would like to give others and that "They who use the sword perish with the sword?" (This is one of the questions that may be answered in writing by members of the club.)

The Suffering Servant of Jehovah.
Isa. III:13—III:12.

UNIQUE INSURANCE

If there is any conceivable kind of insurance that is practicable and not written by some insurance company, we do not know what it is. One unique feature of insurance now is the insuring of animal life the same as human beings. J. B. Gray made a trip to the Murphy ranch south of Lakeside last week to adjust the loss of a valuable mare that had died in foaling. The loss has already been paid.

Wins Fight For Life

It was a long and bloody battle for life that was waged by James B. Meschon, of Newark, N. J., of which he writes: "I had lost much blood from lung hemorrhages, and was very weak and rundown. For eight months I was unable to work. Death seemed close on my heels, when I began, three weeks ago, to use Dr. King's New Discovery. But it has helped me greatly. It is doing all that you claim." For weak, sore lungs, obstinate coughs, stubborn colds, hoarseness, la grippe, asthma, hay-fever or any throat or lung trouble it's the supreme. 50c & \$1.00. Trial bottle free. Guaranteed by F. J. Brennan.

TO MEMORY OF DEPARTED

Hay Springs Enterprise's Tribute to Memory of Redmond Hand, Jr.

The Herald's account of the death of Redmond Hand, Jr., was written hurriedly, immediately following his death, and did not contain all the information which we wished to give our readers. The following more complete obituary is taken from the Hay Springs Enterprise:

Redmond Hand, Jr., died at the home of his brother, Dr. Geo. Hand, at Alliance, Wednesday evening, June 7th, 1911, age 39 years, 9 months, 21 days.

For six months he has suffered much agony and for the past three months he has been perfectly helpless. The cause of his death was cancer.

He underwent several operations at the hospital in Hot Springs, S. D., and eminent physicians were constantly by his side trying to save his life, but to no avail. This is a sad affair, as he was just in the prime of manhood, and building up a fine home and rearing a fine family, only to be called from the midst of his labors by the hand of death.

Just 14 months ago his loving wife was called to meet her God where she waits the arrival of her dear ones.

He was born at Vermillion, S. D., August 16th, 1871, and moved to Hay Springs with his parents, May 10th, 1885, where he has lived ever since. He was married to Myrtle Campston of Hay Springs, November 20th, 1900. To this union were born three children, one boy and two girls; Remmie, age 9 years, Verona, age 7 years, and Dorothy, age 5 years.

He leaves to mourn his death besides three loving little children, two brothers, Joe Hand of Crawford, Dr. Geo. Hand of Alliance, two sisters, Mrs. O. C. Smith and Mrs. Dan Green, and his parents, Mr. and Mrs. Rem Hand of Hay Springs. The remains were brought over from Alliance Thursday evening and were taken to the home of his brother-in-law, Otto C. Smith. Funeral services were held in the Catholic church last Friday morning at 10 o'clock, Father McNamara of Alliance officiating, assisted by Father Nepper of Rushville. After the funeral services the I. O. O. F. and Royal Highlanders members took charge of the body, of which orders he was a member. The remains were laid to rest in the Hay Springs cemetery by the side of his dear wife.

He was a loving husband and kind father and a good neighbor, always willing and ready to administer to the sick and needy, he will be greatly missed by all who knew him. The Enterprise extends its sympathy to the bereaved ones.

CARD OF THANKS

We desire to express our heartfelt thanks to our many friends who so willingly helped us during the sickness and death of our beloved son and brother.

HAGER'S AUTOMATIC REGULATOR

Irvin U. Hager is the inventor of an automatic regulator to be used on locomotives using oil, steam heating plants, steam propelled automobiles, and all other engines using liquid fuel.

It has been tried out on automobiles and has proved to be such a great improvement over anything else that has been used for the purpose that it will probably supplant all others, and bring the inventor large financial returns. It has been patented in the United States and application for patent has been made in other countries.

WILL NOT GIVE UP SWEATER TILL HE SEES THE OWNER

L. F. McCarthy found a lady's sweater near Bronco lake Monday, and thinking it was a garment for male attire, proceeded to put it on and wear it to town. Some friends in Alliance informed him that it was a lady's garment, so he decided to notify the newspaper and try to find the owner. Evidently Mac is more interested in finding the owner than he is that the owner find the sweater, for he refused to leave it at the printing office, determined that the owner in order to secure the garment shall call on him.

BAND'S REFRESHMENT STAND

The Alliance band will play the three days of the celebration and convention, their contract calling for twenty-five instruments, three days, at \$100.00 per day; but as they will have thirty-two men in the band, they have decided to run a refreshment stand to make up the difference.

HERE IS A REMEDY THAT WILL CURE ECZEMA

"WE PROVE IT"

Why waste time and money experimenting with greasy salves and lotions, trying to drive the eczema germ from underneath the skin when the Holsten Drug Store guarantees ZEMO, a clean liquid preparation for external use to rid the skin of the germ life that causes the trouble? One application will relieve the itching and often times one bottle is sufficient to cure a minor case of eczema.

In over 2,000 towns and cities in America, the leading druggist has the agency for ZEMO and he will tell you of the marvelous cures made by this clean, simple treatment. ZEMO is recognized as the cleanest and most popular treatment for eczema, pimples, dandruff and all other forms of skin or scalp affections whether on infant or grown person. Will you try a bottle on our recommendation? Holsten's Drug Store.

MUSHROOM CORNS

Most Painful of All Foot Ailments.

How to Cure Them.

The Mushroom corn is so called from its puffed cone top, resembling a tiny mushroom. It burrows deep into the toe and gets more inflamed than other corns. For the quick relief and cure of these and all corns and callouses the following is the most effective remedy known to science:

Disinfect with Calocide compound in a basin of hot water. Soak the feet in this for full fifteen minutes, gently massaging the sore parts. (Less time will not give desired results.) All soreness instantly disappears and the corn or callous can be easily peeled off. It may be necessary to repeat this for a number of nights for a complete cure, but if adhered to it will surely succeed. A little olive oil rubbed on the part is very beneficial. This Calocide is a very remarkable preparation for all foot ailments and is no longer confined to doctors' use. Any druggist has it in stock or will quickly get it from his wholesale house. A twenty-five cent package is usually sufficient to put the worst feet in fine condition. Bad smelling feet and tender feet need only a few treatments, likewise with inflamed bunions. This item will be welcomed by persons who have tried ineffectual powders and tablets.

Telephone Talks

Reasonable Rates.

If a company gives good service, earns only enough to maintain its plant up to recognized standards of efficiency, to provide for reconstruction cost when worn out or obsolete, and pays only a fair dividend to its shareholders—then the Company's rates are fair and reasonable.

Rates in many cases may appear unfair because the reasons for various changes are misunderstood. In every case our rates are based on the results of scientific investigation after years of expert study of the various problems entering into rate making.

Telephone Rates in various communities must differ because of the conditions that enter into rate computations varying in given localities. Telephone operation is different from nearly any other in this—the greater the extent of service, the higher the unit cost.

This peculiarity of telephone charges will be discussed in the next article in this paper.
