500 New Subscribers to The Alliance Herald

New Subscribers Coming In and Prospects Good for
Securing the Five Hundred Soon.

NOW IS THE TIME TO JOIN THE BOOSTERS

The Alliance Herald has, we believe, the largest circulation of any newspaper published in Nebraska west of Broken Bow; but it ought to be larger. And we intend that it shall be. With this issue we begin a campaign for five hundred new subscriptions, which will make a nice increase to our present list.

The Alliance Herald stands for:

1. A square deal for all, and special privilege to none.
2. Personal liberty for every one to do as he chooses in matters of personal conduct, with legal restrictions that will conserve the public welfare, including the promotion of common decency, and require of every one to not infringe upon the rights of others.

There are hundreds of people within the patronizing territory of The Herald who heartily endorse the above platform, and yet whose names are not on the subscription books. In fact, there are many who have expressed their approbation of the work of this paper in the interest of the "square deal" and "common decency" who have neglected to subscribe for it yet. These are the people we want to reach and place their names on our subscription list, and in order to do so as quickly as possible make the following

SPECIAL OFFER:

Commencing Saturday, July 1, 1911, and until further notice we will send The Herald to new subscribers one year for one dollar. The price of the paper, which is \$1.50 per year, will remain the same. It is worth that amount, and those who have been subscribers do not ask or expect it for less. The special price of \$1.00 is only to those whose names are not on our list now, and is offered as an inducement for them to subscribe without further delay. The paper will be sent for less than a year to new subscribers, if they so desire, at the same rate, but subscriptions will not be received a longer time than that at the special rate of \$1.00. If persons after trying the paper a year, are not willing to pay the price of \$1.50 thereafter, we will drop their names from the subscription books.

HONOR ROLL FOR BOOSTERS

Now is the time for those who want to help increase the circulation of The Herald to do some good work, and we have decided to publish an "Honor Roll" during this campaign for 500 new subscriptions. The name of every person who secures one or more new subscriptions, or who subscribes for one or more other persons who are not now subscribers, will be entitled to a place on the "Honor Roll". This special offer begins Saturday morning, July 1, 1911. Who'll be the first to accept it, and whose name will be the first to go on the "Honor Roll"?

BEAUMONT WINS

Frenchman Is First to Finish
Half of Big Circuit Race.

UNUSUAL SPECTACLE IN DOVER

Eleven Aeroplanes Cross Channel in
Rapid Succession and All Land at
Dover Within Few Minutes—Gibert
Wins Channel Trophy.

London, July 4.—The first half of the international circuit aviation races was ended at Hendon park aerodrome in Hendon, just outside London. Andrew Beaumont, a Frenchman, made the speediest trip from Paris to Hendon and was awarded the London Standard's prize of \$12,500. M. Gilbert, another Frenchman, won the Dover trophy for the fastest passage across the English channel.

During the morning eleven aviators flew across the channel and alighted in Dover as easily as a flock of birds might have done. One of the eleven, Renaux, carried a passenger in his biplane.

A great crowd had surrounded the landing place in anticipation of the arrival of the aviators. They had but a short wait before Vedrines, consistently the leader in the previous stages of the race, drove his monoplane into view, out of a bank of fleecy clouds that hung low over the channel. He made a circuit of the aerodrome and landed gracefully. The flight from Calais had been accomplished in about half an hour.

The other contestants followed in quick succession. Seven monoplanes were almost bunched, then came two biplanes and then another monoplane brought up the rear. One by one the machines appeared over the trees, swept down to the aerodrome, circled it and landed without a semblance of a mishap.

There was none of the excitement that had characterized the finish of the previous cross-channel flights, nor were the aviators exhausted. Instead, they crawled from the aeroplanes and calmly walked away with friends.

A number of army officers were deeply interested spectators in the flight across the channel. Comments were freely made as to the possibility, granting the continued development of the aeroplane, of landing an invading force on British territory by their use.

MANY WISE MEN TO COME

Specialists Will Be in Kansas City for
Transmississippi Congress.

Enough speakers for the meeting of the Transmississippi congress to be held in Kansas City next November have been secured already to make it certain the gathering will be one of national importance. The speakers will be recognized experts on the subjects they will discuss.

Colonel Fred Fleming of Kansas City wrote Representative Borland what the scope of the congress would be and left to Mr. Borland the inviting of government specialists in the subjects suggested. Colonel Fleming said the congress would take up irrigation, the reclamation of swamp lands, destruction of insects that damage crops, conservation of forests, soil survey and kindred subjects, all of interest to the middle west.

RECORD FOR JERSEY CATTLE

Twenty-Six Thousand Dollars for Two
Bulls and One Cow.

New records for Jersey cattle were made at Kirksville. Two bulls and one cow brought \$26,425 at the annual Kinloch farm sale. Viola's Godden Jolly, a seven-year-old bull, born at St. Queen, Island of Jersey, was sold for \$13,000 to Dr. Scoville of the Ellendorf Farms, Lexington, Ky. He was purchased by Dr. Still and Laughlin of the Kinloch Farms for \$12,000 two years ago, which was the record price at that time. Jolly Royal Sultan, a two-year-old bull, son of the first named and Lady Viola, sold for \$10,000. Majesty's Lady Houbla, six years old, brought \$3,525, said to be the biggest price ever paid for a Jersey cow.

Kilman an Honest Man Now.

Governor Oswald West of Oregon declined to grant the request of Governor Hadley of Missouri for the extradition of Alf Kilman, wanted in Missouri to serve a five-year penitentiary sentence for cattle rustling. Governor West based his refusal on the established good citizenship of Kilman since he went to Portland, six years ago.

Train Held Up in Pennsylvania.

The Philadelphia and Erie fast mail and passenger train was held up about five miles from Erie, Pa., by twelve masked men. The mail and express cars were stripped of their valuables and C. H. Block of Erie, Pa. mail clerk; H. D. Rooney of Erie, conductor, and C. F. Bemis, brakeman, were injured.

Milliners Will Test Game Law.

New York, July 4.—The Eastern Millinery association brought suit here in the United States circuit court to test the constitutionality of the amended forest, fish and game law of this state. The section of the law objected to forbids the sale of any plumage specified in the act, whether imported or not.

FOR PARCELSPOST

Introduction of System Will be
Recommended in Message.

DECLARES SO IN A LETTER.

Secretary to President Says Chief
Executive Is Strongly in Favor of
Establishment of a General Parcels
Post—Has Support of Farmers.

President Taft has pronounced again for the parcels post.

Charles D. Hilles, secretary to the president, has just written a letter to John H. Stahl of Chicago, legislative agent of the Farmers' National congress, giving the views of Mr. Taft and announcing that the president will recommend in his next message not only the adoption of the parcels post on rural free delivery routes, but also the establishment of a general parcels post.

Secretary Hilles' letter follows: "The president is in receipt of your letter in which you call attention to the activities of the Farmers' National congress and the interest of the farmers of the country generally in securing the establishment of a modern parcels post. The president recommended in his annual message of December, 1910, the adoption of the parcels post on all rural delivery routes with a view to its general extension when the income of the postoffice will permit it and the postal savings banks shall be fully established. The conviction he expressed in his message that it is possible to incorporate at inconsiderable expense a parcels post in the rural delivery system has been strengthened by further investigation on the part of the postoffice department.

"That department, as you know, has several times recommended the introduction of a limited parcels post services on rural routes and has asked legislation from congress under which the postmaster general shall be authorized to undertake the experiment. The president is glad to have the continued support and co-operation of the Farmers' National congress and of all farmers in presenting to congress the desirability of this legislation.

"The president is strongly in favor of the establishment of a general parcels post, and will recommend the same, without qualification, in his next message."

BENCH WARRANTS FOR TWO

State Department to Aid Burns in
Bringing Kaplan and Schmidt Back.

Attorney Frederick of Los Angeles was a visitor to the state department and had a conference with Secretary of State Knox.

The object of the conference was to enlist the aid of the state department for Detective W. J. Burns, who went to England a couple of weeks ago on the trail of David H. Kaplan and Milton A. Schmidt, wanted in connection with the Los Angeles dynamite outrages.

Mr. Frederick was assured of the hearty co-operation of government officials and that the assurances were meant in earnest was evidenced by the fact that bench warrants for the arrest of the men wanted were issued by the London authorities and all the resources of the English police will be put to the disposal of Burns in locating and arresting the men he wants.

CRUSADE AGAINST TRUSTS

President Taft Confers With Wickersham on the Situation.

The indictment of wire trust officials is simply the beginning of a crusade on the part of the government law officials which will result in the criminal prosecution not only of the officials of the steel trust and its subdivisions that have violated the law, but of all other trust officials against whom sufficient evidence to warrant criminal proceedings can be secured.

This is the belief of those circles in Washington which are best qualified to know the views of the administration.

It is said on high authority that President Taft before his departure went over the whole situation with Attorney General Wickersham and the two agreed that the only way to enforce adequately the Sherman law was to enforce its criminal provisions.

CROW WHIPS B EAGLES

Monarchs of A Forest in Spokane
Park Make Poor Showing.

Three bold eagles hounded at Manito park in Spokane, were put to flight by a crow in a pitched battle. The crow made the attack by ripping the shingles from the roof of the house where the eagles were. The eagles showed fight, but were routed by the smaller bird pecking their heads. The eagles flew high in the air and swooped down, but the crow dodged cleverly. Attendants at the bird house say that but for their interference there might have been one or more jobs for the taxidermist. The crow escaped without losing a feather, while the so called "monarchs of the air" will be kept busy for some time in getting their plumage in shape.

Bakers to Meet in Kansas City.
Kansas City, July 3.—The International Association of Master Bakers will hold its convention in Kansas City four days, commencing Aug. 23 and closing Aug. 25.
