Ford cars are the most popular car on the market and every piece in them is guaranteed by the company during the life of the car. See us before buying.

Only garage in western Nebraska open day and night

THERE IS PLENTY OF WATER

IN THE

Big Horn Basin and Yellowstone Valley

All of the rivers and irrigation canals are now running bank full.

The writer has just returned from an extended inspection trip thru the Big Horn Basin and Yellowstone Valley, where he found that the farmers have all the water they can use for irrigation; crops are accordingly very fine.

OPPORTUNITY FOR INVESTMENT. Money invested in Government irrigated lands, Carey Act lands, or deeded lands in the Big Horn Basin, at present prices, is sure to bring large returns for the reason that the farmers of this country are beginning to understand that the Basin and Yellowstone Valley have an ample water supply and that the water comes down from the mountains just at the time when it is needed for irrigation.

DRY FARMING CONGRESS AND NATIONAL CONGRESS OF FARM WOMEN, at Colorado Springs; October 16th to 20th.

Special excursion tickets will be sold October 11th to 16th inclusive, from stations in Montana, Wyoming, South Dakota, Colorado and Western Nebraska.

GENERAL G. W. GORDON DEAD

South Mourns Commander-in-Chief of United Confederate Veterans.

Arrangements are being made for the funeral of General George W. Gordon, commander-in-chief of the United Confederate Veterans, who is dead at Memphis, Tenn.

Messages from all parts of the south tell of widespread mourning for the Tennessee veteran, who enlisted in the confederate army as a drillmaster and rose to be a brigadier general. He was captured by the union forces and was held prisoner at Fort Warren, in Boston harbor. After the war he studied law. He went to congress in 1907, remaining there until his death.

ELECTION AROUSES CANADA

Attorney General Withdraws Case After Arresting Clerks.

Attorney General Campbell, after placing two registration clerks under arrest at Winnipeg, Man., for refusing to accept a long list of absentees handed in by hotel men, withdrew the case and in court admitted the right of the Dominion government to go ahead and make the lists.

Following this, the Dominion officials threw out of the registration booths all provincial police who had been sent there by order of Attorney General Campbell and federal authority now reigns unquestioned. Twenty-five thousand votes have already been registered.

Reports are coming in daily that anti-reciprocity candidates in Manitoba are finding difficulty in lining up their old supporters and many are having the fight of their political lives.

Agents of a large milling company with mills in California and Texas, after a tour of Canada, realize that reciprocity will probably carry and the president of the company says he is planning to order this fall, 4,000,000 bushels of No. 1 hard wheat from Canada to mix with the soft wheat of the southern states.

Atwood Flies to Chicago.

Chicago, Aug. 15.—By flying the 286 miles from St. Louis to Chicago with only two intermediate stops and in an actual flying time of five hours and forty three minutes, Harry N. Atwood of Boston believes he has set a pace which will result in his establishing a new record on his flight by aeroplane from St. Louis to New York and Boston.

DUST DEALS IN DEATH

Consumption Spreads in Dust—Government Investigating

A warning against the dangers of dust was issued in a statement made today by the National Association for the Study and Prevention of Tuberculosis, in which it is shown that the percentage of deaths caused by tuberculosis in dusty trades is more than double that for all employed men in the registration area of the United States.

As a result of the dangers from consumption to those exposed to various forms of dust, and at the request of the National Association, the United States government has recently appointed a commission to work in co-operation with state authorities in making an investigation into the conditions of the metal mining industries in the United States, with special reference to diseases of the lungs. The work of the commission engaged in this special task will follow lines somewhat similar to those worked out by the Royal Commission of Australia, whose report was received in this country.

"Dusts are of three kinds," says the National Association; "factory, street and house dusts." The statement refers to the results obtained through investigations made for the Bureau of Labor, by Frederick L. Hoffman. While among males generally in the registration area of the United States 14.5 per cent of all deaths are from consumption, the mortality among grinders from this disease is 49.2 per cent, and in hardly any of the dusty trades is it below 25 per cent. The percentage of deaths from tuberculosis among all those exposed to metallic dust is 36.9 per cent; to mineral dust, 28.6 per cent; to vegetable fiber dust, 28.8 per cent; to mixed animal and other forms of dust, 32.1 per cent; to street dust, 25.5 per cent; and to organic, or dusts coming from the articles being manufactured, 23 per cent.

The statement speaks also of the dangers of house dust, especially in rooms that are not well ventilated. The Association warns against dry sweeping, and against the use of the feather duster, or other devices that scatter, but do not take up the dust.

Since the ordinary dust blown in the streets is impregnated with disease germs, the National Association urges the adoption of methods that will prevent the further dissemination of such bacilli. It also urges for the coming months of fall and winter, more open windows and more fresh air in house, shop and school-room.

DEATH OF INFANT

On Thursday, August 10th, Marvin LeRoy, the infant son of Mr. and Mrs. W. H. Rhoades of 115 Yellowstone Avenue, Alliance, died after a short illness of cholera infantum, age two months, nineteen days. The funeral was held from the home on Friday at 2:30 p. m., burial in Greenwood cemetery. Rev. J. L. B. Jones conducted the funeral services. The little one's stay on earth was brief but long enough to near it to the hearts of its loving parents, three brothers and three sisters, to each of whom The Herald extends its sincere sympathy.

CARD OF THANKS

To the kind friends who assisted and sympathized with us during the sickness and after the death of our darling little boy, and especially to our kind pastor, Rev. J. L. B. Jones, we wish to tender our sincere thanks.

MR. AND MRS. W. H. RHOADES AND FAMILY.

WILMA MAE SHOWERS

Mr. and Mrs. Will Showers' little girl, Wilma Mae, died Monday morning of last week at the residence of her grandparents, Mr. and Mrs. John Snoddy. The previous Saturday the little girl was taken sick on the street, her parents being in from the country that day. Everything was done that loving hands and medical skill could accomplish, but without avail. The funeral was conducted from the United Presbyterian church in Alliance Tuesday by Rev. Godfrey, the pastor, interment being in the Greenwood cemetery. The afflicted parents and other sorrowing relatives have the sincere sympathy of The Herald.

Mr. and Mrs. Chas. Bauer, who have been visiting various points on the coast, returned to Alliance Saturday. They report a very enjoyable time.

Miss Irene Roup spent a few days in Alliance the latter part of the week, the guest of Miss Alice Acheson. She went from here to Sterling where she will visit for a few days. Miss Roup is attending school in Lincoln, where her parents now reside.

EXTENDING IRRIGATION

North Platte Valley Towns Pushing For More Ditches

A movement has recently been set on foot to extensively increase the amount of irrigation that is being done from the government canals. This movement seems to have been started in a very opportune time as the new Secretary of the Interior, Mr. Fisher, in company with other government officials, recently made a tour of inspection of the valley. The following from the Scottsbluff Herald, of August 11th, gives a brief explanation of the work that is being done in this direction:

The meeting of the delegates from the several clubs of the cities of the North Platte Valley was held in the club rooms Monday afternoon. Delegates present were: Dr. Jones and Mr. DeVault of Bayard, Otto Jurgins of Minatare, W. L. Minor, John Boatsman and Mr. Stockwell of Morrill, C. H. Blackburn, C. W. Whitman and M. E. Getter of Mitchell, and Scottsbluff delegates, E. Von Ferrell of Funston was chosen chairman of the meeting and G. L. Shumway, secretary.

An estimate of expenses was made and it was found that it should take something like \$2,000 to properly exhibit the product of the valley at the state fair and the Omaha Land show. This included an item of \$500 for advertising. An apportionment of the expense was made to the various towns of the valley and the following committee appointed to see if the fund could be raised:

Lloyd Thomas, Lingle
T. G. Powers, Torrington
Mr. Gverman, Henry
John Boatsman, Morrill
G. W. Whitman, Mitchell
Frank Sands, Gering
B. G. Ringsby, Minatare
W. P. DeVault, Bayard
B. P. Scott, Bridgeport
B. W. Ringsby, McGrew
H. H. Harper, Northport
G. L. Shumway, Scottsbluff

This committee also has charge of collecting the exhibits, and any one knowing of or having any fine samples of products is requested to present them to the nearest representative, or the one most convenient. Samples of grains in the straw, of grasses, should be in bundles about six inches in diameter, and would like to have the names of the party growing the same, and the number of the section on which grown. Samples of grain are also requested as soon as threshed. A half bushel of each for which price will be paid if the grower will not donate. Would like in each case the name of the grower and the name of the variety of the grain and the yield per acre.

E. VonForell was named as the man to have charge of the exhibit at Omaha, and the matter of the state fair was left open. Mr. VonForell's assistants, numbering three, are to be selected at a meeting to be held here next Monday, at 10 a. m. The president desires to direct that all correspondence and other matters be taken up with the secretary at the club rooms, Scottsbluff, as the telephone to his place is temporarily out of commission.

A KING WHO LEFT HOME

set the world talking, but Paul Mathulka, of Buffalo, N. Y., says he always KEEPS AT HOME the King of all Laxatives—Dr. King's New Life Pills—and that they're a blessing to all his family. Cure constipation, headache, indigestion, dyspepsia. Only 25c at F. J. Brennan's.

COMPOUND CALLOUSES

Tells Splendid Cure for Them and All Foot Troubles.

A compound callous is the secondary stage when it grows inward and presses on the nerves, causing intense pain. Callouses never cure themselves but always get worse, sometimes irritating the whole nervous system. The following is a most effective and speedy cure: "Dissolve two tablespoonfuls of Calocide in a basin of hot water. Soak the feet in this for full fifteen minutes, gently massaging the sore parts. (Less time will not give the desired results.) The soreness will disappear immediately and the callous can be easily peeled off. Repeat this for several nights. A little olive oil rubbed into skin is very beneficial."

This Calocide is a very remarkable preparation for all foot ailments. Bunions, corns and ingrowing nails get instant relief and are soon cured. Bad smelling and sore feet need but a few treatments. Calocide is no longer confined to doctors' use. Any druggist has it in stock or will quickly get it from his wholesale house. A twenty-five cent package is usually enough to put the worst feet in fine condition. It will prove a blessing to persons who have been vainly trying ineffectual tablets and foot powders.

BURLINGTON CROP REPORT

Prospects Continue to Be Bright for a Good Crop.

Omaha, Aug. 15.—The general offices of the Burlington have received its Nebraska crop report for the week. The report covers practically every portion of the state. A summary of the report upon the condition of corn says:

"Prospects are quite as good as when the last report was submitted, one week ago. In the Republican valley on the McCook and Wymore and on the Kansas division much damage was done by the high water. The Omaha division shows indications of having 70 per cent of a full corn crop; the Lincoln division, 78 per cent; the Wymore division, 72, and the McCook division, 60 to 65 per cent. On the Alliance division prospects are good and the crop ought to be up to the average.

"Potatoes in unirrigated sections do not promise better than half a crop."

The report from the several divisions of the road state that the third crop of alfalfa is being cut, and that the yield is heavy. Pastures have been benefited by recent rains and, generally, are in very good condition.

Charged With Obstructing Highway.

Beatrice, Neb., Aug. 15.—John Gerick, a farmer living near Wymore, was arrested on the charge of obstructing the public highway and trespassing. The complaint was filed by John Trauernight, owner of a touring car, who collided with a wagon owned by Gerick after he had signaled him to give part of the road. The car was badly smashed. The complaint was drawn up in Judge Crawford's court under the new law. Gerick was arraigned and pleaded not guilty. The case was set for hearing tomorrow morning and the defendant was released on \$600 bond.

Richards Returns to Jail.

Hastings, Aug. 15.—Bartlett Richards, one of the four ranchmen convicted in the federal court of land frauds and committed to the Adams county jail to serve sentences of from eight months to a year, has returned to the jail here after undergoing a surgical operation at Rochester, Minn., for gallstones. He is much improved in health and believes himself well able to survive the remainder of his sentence.

THIRTY YEARS TOGETHER

Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guesswork in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and it is the best cough and cold cure I ever used." Once it finds entrance in a home, you can't pry it out. Many families have used it forty years. It's the most infallible throat and lung medicine on earth. Unequaled for laryngitis, asthma, hay-fever, croup, quinsy or sore lungs. Price 50c and \$1.00. Trial bottle free. Guaranteed by F. J. Brennan.

YOURS

Yours for uniformity.
Yours for greatest leavening power.
Yours for never failing results.
Yours for purity.
Yours for economy.
Yours for everything that goes to make up a strictly high grade, ever-dependable baking powder.
That is Calumet. Try it once and note the improvement in your baking. See how much more economical over the high-priced trust brands, how much better than the cheap and big-can kinds.
Calumet is highest in quality—moderate in cost.
Received Highest Award—World's Pure Food Exposition.
