GARAGE IN McCORKLE BLOCK
Link Lowry, Supt. of Garage

We handle the **Ford** cars and will sell you one for list price. Will store and keep; furnish gas and lubricating oil; \$15.00 per month; you run as much as you desire. Storage for cars, \$5.00 per month. We sell all best brands of oil from 25 to 50% lower than other places.

Ford cars are the most popular car on the market and every piece in them is guaranteed by the company during the life of the car. See us before buying.

Only garage in western Nebraska
open day and night

Barler Ideal

The Oil Heater without
smoke or odor

Costs less than 2c per hour to operate
and will warm up a good size room
during the fall months.

Prices, \$4.00 up

Newberry's Hardware Co.

September Travel Bulletin

TO THE EAST: The excursion rates to the eastern localities will continue. It is the last chance of the season to make an eastern tour at greatly reduced excursion rates.

THE DRY FARMING CONGRESS will be held at Colorado Springs, October 16-20. Special rates will be made for this event. All dry farmers should make it their business to attend this congress.

THE LOW COLONIST ONE-WAY RATES to the Pacific Coast are in effect September 15th to October 15th.

IRRIGATED LANDS can be secured on extremely reasonable terms; those in the Big Horn Basin present at this time a wholesome example of the value of irrigation where there is ample water. Farmers and prospective home makers from the so called region of rainfall and from dry farming areas are urged to inspect the crops and inquire about the land values in the Big Horn Basin, the North Platte or Yellowstone Valleys before they or their sons consider a home in any other locality.

The Prophet Ezekiel a Watchman, Ezek. III.

Golden Text—Hear the word at my mouth, and give them warning from me, Ezek. III: 17.

(1.) Verses 1-3—What is it that is to the soul like food is to the body?

(2.) Do men get, in these days special messages from God as Ezekiel did? If so specify.

(3.) What is the immediate effect upon us of new knowledge?

(4.) Verses 4-7—Which are most susceptible to the claims of the gospel, a people who have rarely heard it preached, or those who are constantly hearing it? Give your reasons.

(5.) What is the effect of preaching the gospel upon those who reject it?

(6.) Verses 8-11—Is it always true, that we have sufficient strength to do the work to which God appoints us? Give your reasons.

(7.) Does God know in advance, "whether they will hear or whether they will forbear," when he sends a message to a people? Why or why not?

(8.) If our hearts fall us in the difficulties of our God-appointed work, how much are we to be blamed?

(9.) Verses 12-14—When we are "bitter," or angry, or even sorry to carry out the work to which we are appointed, what attitude does God likely take to us?

(10.) May we make every work, no matter how hard or disagreeable, a joy, or does God know and expect that we shall sometimes be sad?

(11.) When we do God's work against our will, or inclination, are we praised or blamed by Him?

(12.) Verses 15-17—Is it either essential or an advantage in order to get best results, for missionaries to dwell among the people to whom sent and become a part and parcel of them?

(13.) When we are appointed by God to do a thing, should we sit around and wait for special inspiration, or start right at the work, and expect all essential help?

(14.) Verses 18-19—How can we justify God in making the salvation of a sinner depend upon the warning of a man?

(15.) What is the guilt, and what will be the punishment of a man whose failure to warn, is the means of a sinner dying in his sins?

(16.) If a Christian refuses, or neglects, to give to his utmost ability, to the missionary cause, will he be adjudged guilty before God for those who could have been converted through the influence of the money he might have given?

(17.) Verses 20-21—To what extent are we guilty for the backslidden state of so many members of the church? (This is one of the questions that may be answered in writing by members of the club.)

(18.) How is it that some who were really earnest Christians, lapse into a sinful life?

(19.) Verses 22-27—Which person gets more revelations from God, the one that gives himself up to contemplation chiefly, or the one who is in the thick of the fight for God?

Lesson for Sunday, Oct. 8th, 1911. The Life Giving Stream. Ezek. xlvii: 1-12.

ROOM AT THE TOP

Any man can get to the top of his trade, secure better work and higher wages, by taking a course from the International Correspondence School, the workman's school. Write to Scranton, Pa., for particulars; or address a postal to Wm. A. Bartlett, Alliance, Nebr. 40-41-666

POST OFFICE DIRECTORY

Mails close at the Alliance post office as follows, Mountain time:

East Bound
11:20 a.m. for train No. 44.
11:00 p.m. for train No. 42.
West Bound
12:30 p.m. for train No. 43.
11:00 p.m. for train No. 41.

South Bound

12:30 p.m. for train No. 303.
11:00 p.m. for train No. 301.
On Sundays and holidays all night mails close at 6:00 p.m. instead of 11:00 p.m. IRA E. TASH, P. M.

TO CURE SORE BUNIONS

Treatment Marvelously Quick for This and All Foot Troubles.

"Dissolve two tablespoonsful of Calocide compound in a basin of hot water; soak the feet in this for full fifteen minutes, gently massaging the sore parts (Least time will not give desired results.) Repeat this each night until cure is permanent." All pain and inflammation is drawn out instantly and the bunion soon is reduced to normal size. Corns and callouses can be peeled right off and will stay off. Sore, tender feet and smelly, sweaty feet need but a few treatments. A twenty-five cent package of Calocide is usually sufficient to put the worst feet in fine condition. Calocide is no longer confined to only the doctors' use. Any druggist has it in stock or will quickly get it from his wholesale house. This will prove a welcome item to persons who have been vainly trying to cure their foot troubles with ineffective tablets and foot powders.

to H. J. Barnum, of Freeville, N. Y., was the fever sore that had plagued his life for years, in spite of many remedies he had tried. At last he used Bucklen's Arnica Salve, and wrote: "It has entirely healed with scarcely a scar left." Heals Burns, Boils, Eczema, Cuts, Bruises, Swellings, Corns and Piles like magic. Only 25c at F. J. Brennan's.

DO NOT FORGET TO ORDER FOR THIS FALL

W. C. T. U. DEPARTMENT

Mrs. J. J. Vance, Press Supt.

Hon. W. A. Johnston, chief justice of the supreme court of Kansas, says: "The closing of the saloons and joints has had an excellent effect upon the morals and material interests of the people of the state of Kansas. Among the consequences of prohibition are better homes, happier families, higher standards of intelligence and education and, of course, a great reduction in crime. No statement of proof is needed to support the claim that these results follow the closing of saloons and the effective enforcement of the prohibitory law. They are the natural and inevitable results, and these have been realized in Kansas."

According to the latest report of the revenue collector for Kansas, only 451 permits to sell liquor have been issued in that state during the current year. In the city of Omaha over 500 such permits have been issued. The Internal Revenue Report for 1909 shows that in the state of New Jersey 11,840 persons paid the internal revenue tax for selling liquor; about 1000 of these are druggists, leaving 10,840. The number of licensed saloons in New Jersey is not quite 8000, which leaves nearly 3000 persons paying the government tax who are not allowed under the laws of the state to sell liquor.

Of all the leading industries of the nation none employs so few men in proportion to the capital invested as the liquor industry. For instance, for each one million dollars invested the iron and steel industries employ 496 wage earners; for the same amount of capital invested the lumber industry employs 726 wage-earners; for the same investment the leather industry employs 580; paper and printing, 439; vehicles for land transportation, 858; while for each one million dollars invested the liquor trade employs only 104 wage-earners.

Whenever a woman's suffrage amendment is soon to be voted on in any state, there will be found the united force of the liquor power waging war against the passage of the law. They know full well that the motherhood of America is aroused against their iniquitous traffic. The liquor paper, "The Beverage Trade News," says that the adoption of complete woman suffrage in Kansas would mean the alignment of the women 10,000 to 1 for prohibition.

The chaplain of the Joliet, Illinois, prison says that ninety per cent of the men imprisoned in that institution are there because of drink, and that of the 158 men serving life sentences, all except four or five committed the crimes for which they are being punished while under the influence of strong drink.

State W. C. T. U. Evangelist Superintendent Mrs. Annetta Nesbitt of Pawnee City, Nebraska, has been appointed deputy sheriff for Pawnee county.

The white ribboners of Idaho have adopted the following slogan: "State-wide prohibition for Idaho, and the W. C. T. U. in the fight 365 days in the year till we win."

At a recent Young People's Christian Union Convention of the Presbyterian church held in Pittsburgh, the point was brought out that one of the good things resulting from the Kansas prohibitory law was the scarcity of tramps in that state. These wanderers prefer to travel where liquor is sold. This is a fact worthy of careful thought and consideration.

Canyon county, Idaho, has voted to remain in the dry column by a majority of 2,400. Bannock county of the same state votes dry again by a vote of more than 700, in spite of the fact that the county seat, Pocatello, gave a wet majority.

"All physicians are agreed that the excessive use of alcohol is the most prolific cause of disease. All sociologists are agreed that it is the most prolific cause of poverty, and all penologists are agreed that it is the most prolific cause of crime; and that the only solution of the problem is the annihilation of the American saloon."—Union Signal.

HARNESS HORSE NEWS

Annual Home-Coming and Round-Up of Horses and Horsemen at Lexington, Kentucky

HORSE SHOWS' NEW RECORDS

(By Palmer L. Clark)

The thirty-ninth annual meeting under the auspices of the Kentucky Trotting Horse Breeders' Association, opens at Lexington, Tuesday, October 3rd, and at its close on Friday, October 13th, it will have distributed to horsemen in purses, stakes and premiums, since its inaugural meeting, close to \$2,000,000.

Long before the ebull rings for the first meeting of the season, horsemen in all sections begin to shape their plans to take in the great ten days' meeting; and, throughout the campaign, to win at Lexington is the height of every trainer's ambition, while horsemen who cannot attend their local or any certain meeting, console themselves with the resolution to attend the Kentucky trots in October and see the season's winners battle for final honors.

The event is the one big annual round-up or homecoming in the American light harness world and this year, under the personal supervision of the new president, Ed. A. Tipton, all indications point to success beyond any similar event in the past at this important racing center.

Just at this particular time the arrangement of the daily program is of most interest; for, while all who can are in attendance from start to finish, many unable to spare the full ten days from their business, select their favorite fixed events and arrange to attend at a time when they can witness the greatest number of races that appeal most to their choice of racing contests.

The number of horse shows for 1911 have already established new records both as regards quality and quantity, with the best of the season yet to be heard from and prospects the brightest. Trotting-bred animals have won high honors—in many cases the highest—and while the results were necessarily from accidental breeding, it only goes to show a high stepper of the proper type can be evolved from the trotting bred families through scientific breeding principles and by proper development that will carry off the blue ribbons in competition with all other breeds. There is an outlet in this rich and growing field for standard bred horses worthy the most careful consideration of the very best breeders. Every colt and filly with the necessary conformation, speed and action for the show ring should be developed to the limit and retained for breeding purposes, regardless of other inducements. Under the most favorable conditions it will take years to breed high steppers that can be produced with any degree of certainty and the gelding of desirable prospects is even now little short of a crime in view of the demand, the scarcity and the prevailing high prices.

The Herald has made arrangements whereby we give our subscribers the Nebraska Farm Journal, an interesting monthly paper, the price of which is 50 cents per year, at the very low price of 25 cents. This special offer is made only for a few weeks. If you wish to try this paper for a year at that price, in paying your subscription to The Herald just add 25 cents to cover subscription, and we will put your name on our list for the Nebraska Farm Journal.
