Are Anxiously Awaiting Their Return

Associated  
Doctors  
Specialists

Will be in Alliance at Drake Hotel

Monday, May 6

ONE DAY ONLY

These are the Doctors you no doubt have read about. While you may not know them personally, you may know them by reputation or through some of your neighbors they have treated.

The remarkable success of these talented physicians in the treatment of chronic diseases has aroused much enthusiasm in the Northwest.

This is said to be and no doubt is true, one of the most able specialists organization of its kind in this section of the country, and must be a successful one from the many good results they are getting.

The Associated Doctors, licensed by the state of Nebraska for the treatment of deformities and nervous and chronic diseases of men, women and children, offer to all who call on them consultation, examination and advise free.

It is specially requested that married ladies come with their husbands and minors with their parents.

The name Associated Doctors is what it implies, a union of specialists, twelve in number, that have gotten together for the treatment of chronic and nervous diseases. Not to be understood that they treat all diseases that the human body is heir to. They mean to be very careful in selecting and taking cases as they want good results, which means good returns in the way of their patients recommending them to others.

They estimate that over eighty per cent of the patients now coming to them come from recommendations of those they have treated.

THEY DO NOT treat any acute diseases whatever, their time and attention being devoted to such diseases as follows:

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, kidneys or bladder, rheumatism, sciatica, diabetes, bedwetting, leg ulcers, weak lungs and those afflicted with long standing, deep seated chronic diseases that have baffled the skill of the family physicians should not fail to call.

According to their system, no more operations for appendicitis, gall stones, tumors, or goiter. They were among the first in America to earn the name of "Bloodless Surgeons," by doing away with knife, with blood and with all pain in the successful treatment of these dangerous diseases.

## PUBLIC MARKET MOVE

Suggestion Concerning Public Market Place and Later Public Market House

### PROPOSITION LOOKS GOOD

Our esteemed and venerable friend, Mrs. M. J. Baumgardner, makes a suggestion to The Herald that we think would be well for the Commercial Club or the city officials to look into. It is in regard to a public market place where farmers can bring their produce and offer it for sale, at a specified time to be known by the people of the city.

Mrs. Baumgardner says that the south end of the courthouse grounds has been used for a good purpose and much good accomplished thereby. She thinks it might now be used for another good purpose as a public market place. She informs The Herald that the city in which she lived seventy years ago, Gettysburg, Pennsylvania, had a public market place on the court house grounds at that time. She has often thought of the need of a public market place in Alliance. Probably the remembrance of seventy years ago, coupled with the recent use of the court house grounds here, suggested to her that that would be a suitable place.

Whether it would be best to establish a market place on the court house grounds or not, we think the suggestion in regard to having such an institution here a good one, at least it is deserving of investigation. A place could be selected where wagons could back up to the sidewalk and wait on customers certain hours of the day, say from 9 o'clock a. m. to 2 or 3 o'clock p. m., and to begin with, on only one or two certain days of the week. This could be advertised so that the people of the city as well as in the surrounding country could know what days of the week were market days. Later, if this was found to be a success and considered worth continuing, a public market house could be built.

### THE FIGHT AGAINST BRYAN IN NEBRASKA

Crete Democrat: It is about time the democrats of the state had a look behind the curtain to see these political medicine mixers at work. There you would recognize the Taft supporters, the old Palmer and Buckner corporat ion tools and a lot of young unscrupulous pie hunters, busily engaged making dope that will catch 'em, unsuspecting democrats, as the nigger said "goen or comen." They are very active just now, but as some of them have openly declared, when cornered, that they will not vote for Wilson if nominated, it is safe to predict they will be just as active Taft supporters as their prototypes were for McKinley in 1896 or just the same, for Palmer and Buckner.

These fellows like to work under cover, till they are smoked out, then they become desperate; a la World-Herald at this time, and fan the air with their long arms shouting frantically at every move made by democrats who work in the open, as Mr. Bryan does and tells the people just where he stands on every question.

They have a big job on their hands revamping the old Grover remnants for delegates to the Baltimore convention to support one of Grover's cabinet for president, and they expect to fool you with these galvanized remnants, just as Teddy has been fooling the progressive republicans in order to sidetrack La Follette. Will you support such men any longer, is the question now up to you?

These corporation democrats were in power from 1892 to 1896 when the progressive democrats under the leadership of Bryan and others in this state and nation, met and vanquished them and now the fight is on again.

The remnants have become bold in their efforts to put forward a Cleveland democrat as candidate for president, because they think they have the breweries and booze fighters back of them. They are anxious to bring on a scrap over the liquor question, so they can work the prohibition racket at every election. They are even circulating the statement that Wilson is a prohibitionist.

These contemptible methods, resorted to by the bunch of cheap pie hunters and office seekers, to work upon the prejudices of men who take a glass occasionally have become so common that they will not fool any but bar-room loafers. The change has come and democrats who have been fighting for 20 years to put

their party on a good solid foundation will take care of the men seeking to engulf it in the old slough kept by corporations for Grover pollywogs to play in.

Stand up for democracy as enunciated by Jefferson, maintained by Jackson and so eloquently elucidated by Bryan. Shy at anything that savors of corporation control of the party as it was under Grover. These remnants have ever been a block in the path of true democrats and the party never could win till it passed over their prostrate forms, since 1892.

### "PLAIN DEMOCRACY"

From The Chancellor, Omaha: "Plain democracy" is all that The Chancellor stands for. But plain democracy does not mean "sidestepping" nor does it mean "standpatting." Plain democracy means a government of, by and for the people, and there must be something wrong with the democracy of the Valentine Democrat when it shies at the word "progressive." Some light is thrown upon the Valentine Democrat's aversion to the word progressive by several editorials in another column of the same issue in which reference to The Chancellor appears. In one editorial that paper throws a boquet in Judson Harmon's direction and a brickbat in the direction of the greatest democrat of them all, William J. Bryan. Bryan's democracy is good enough and "plain" enough for The Chancellor.

### FINE HAIR GOODS

Miss Present, of Chicago, is now showing an eastern importer's big line of fine hair goods at the New York Hat Shop. She can match the most difficult shades, such as drabs, blonds, greys and auburns, in the finest quality French hair, and demonstrates the latest styles in hair dressing. One week only.

On last Saturday, Fred Kauffold brought to The Herald office samples of Early Ohio and Red Triumph potatoes grown by him last summer. They are fine specimens of spuds. He informs The Herald that the Early Ohio yielded 125 bushels to the acre, while the Red Triumph yielded 80. The seed was dipped in corrosive sublimate and the potatoes growing from it were free from disease which sometimes infects potatoes.

Mrs. W. R. Desomber and three children came down from Edgemont last Friday for a few days' stay in this city. Mr. Desomber is engineer on the switch engine at that place. They went from Alliance a few months ago. They are doing well in their new home and like the town.
