MALARIA

headache, biliousness, indigestion, rheumatism, pimples, blotches, yellow complexion, etc., are all signs of poisons in your blood. These poisons should be driven out, or serious illness may result. To get rid of them, use

Theford's Black-Draught

the old, reliable, purely vegetable, liver medicine.

Mrs. J. H. Easler, of Spartanburg, S. C., says: "I had sick headache, for years. I felt bad most of the time. I tried Theford's Black-Draught, and now I feel better than when I was 16 years old." Your druggist sells it, in 25 cent packages.

Insist on Theford's

Crystal Ash

When the hands are smeared and stained with a greasy, grimy coat of oil, soot, dust and dirt rub on a little Crystal Ash and see how quickly they are cleaned and softened again. Pure, effectual and beneficial to the skin. Sold in handy revolving top cans.

PRICE, 25c

Dec. 25. Christmas day.

Dec. 30. On or before December 30 state superintendent makes ap-

portionment of state school funds, and state aid.

"Patient endurance attaineth to all things."—Longfellow.

Suggestions to School Officers To School Officers:

The future life of our nation depends on the character of the boys and girls of today, and more depends on the home life and school life in building this character than most people are ready to admit.

During the past forty-five years we have been building up a great state, financially. All this time we have done much to increase the efficiency of our schools through the building up of a great high school system, the establishment of four state normal schools, and one great university. These are the pride of our citizens and the wonder of neighboring states that are patterning after us. Great praise is due the men and women who have thus accomplished so much. In establishing these schools the rural schools have not been forgotten, but they have not progressed so rapidly. The course of study for the elementary schools has been the means of making a graded system for our rural schools second to none in the United States.

All this has been secured through the activities of the teachers and school officers who have so earnestly devoted a portion of their lives to the great work of laying a foundation for one of the greatest educational structures on the face of the earth. In visiting the country schools in different parts of the state I find excellent work being done, a great improvement in the preparation of the teaching force, in the equipment of the schools, and in the general sanitary conditions.

The old fashioned schoolhouse in many parts of the state has been replaced by a commodious modern building, well equipped, well ventilated, heated and lighted, set in grounds beautified with appropriate trees and shrubbery, with sufficient space devoted to playground purposes. This improvement may become more general by a united effort on the part of the teachers, school officers, county superintendent, each doing his part to raise the efficiency of our schools. There is another interest that is needed to accomplish the greatest good, and that is the hearty cooperation of the patrons of the schools.

In calling your attention to the above items, members of school boards, I am in hopes that you will be active during this spring and summer, up until the time of the annual meeting, in arousing public sentiment to such an extent that all the patrons of the school will be present to urge a school for the coming school year that will be spoken of as an "ideal school."

We do not wish a revolution of the schools, but we do desire better results for the money spent to maintain them.

The course of study is good—probably as good as has been published, but it is not yet well balanced. One-fourth of the time that is spent in the schools should be devoted to the vocational side of life, so that all boys and girls who could do a few things so well that they would be spoken of as boys and girls who could make a mark in the world in that particular line. The summer I was twelve years old I cultivated a ten-acre field of corn so thoroughly with an old "double shovel" plow and one horse, that my father told the neighbors that not a single weed could be found in the field. For seventeen summers after that it was my chief delight to have a clean field of corn. This became a part of my life. So, each pupil who learns to do some one thing exceptionally well will find in it deep satisfaction and an added incentive to greater effort.

School officers, feel free to advise with your county superintendent in regard to the needs of your district, attend the School Board Associations of your county, and become well informed in regard to the most progressive schools in your county. Cooperate with your county superintendent in urging your teacher to attend some one of the many excellent summer schools in the state. The teacher who is progressive and up-to-date keeps in touch with all facilities for continued and continual improvement. See that your teacher devotes thirty minutes each school month to the instruction of pupils in the subject of fire dangers, and in the methods of fire prevention. This she must do in order to comply with the law. She should also drill her pupils in the salute to the flag, to be given on the first Monday in each school month and on all flag days. Through the courtesy of the G. A. R. and W. R. C. instructions for the flag salute have been placed in the hands of every teacher in the state. The subject of school hygiene and

sanitation deserves special attention at the hands of every teacher and school officer, for good health is necessary to the right development of our children. Just now in nearly every country school one or more pupils are preparing for the eighth grade examinations, looking forward to entering an approved high school next fall under the provisions of the free high school law. Lend such pupils your interest and support. By your hearty co-operation in these and other school matters you will be an active factor in making your school stand out prominently in the state.

For any information that you cannot secure from your county superintendent directly, please feel free to write the state department, and we will be pleased to assist in every way possible. On points of law always consult your county superintendents first as they are near at hand and are well informed as to your needs, and are anxious to assist you in making your schools first-class.

Yours for the best possible school for our boys and girls,
JAS. E. DELZELL,
State Superintendent.

NEBRASKA STATE FAIR

List of Superintendents, with Post Office Addresses, Appointed for State Fair, 1912

A GOOD STRONG ORGANIZATION

- General, Wm. Foster, Lincoln.
- Guards, C. J. Tracy, Loup City.

- Class "S" Speed, Jos. Sheen, Lincoln.
- Class "S" Speed Clerk, H. V. Riessen, Beatrice.

CURE YOUR KIDNEYS

Alliance Sufferers Should Take No Further Risk

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor—why allow themselves to become chronic invalids, when a tested remedy is offered them?

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure yourself now, before gravel, dropsy or Bright's disease sets in. Can Alliance residents demand more convincing proof than the following?

James A. Kersey, S. Main St., Chadron, Nebr., says: "I have used Doan's Kidney Pills on several occasions and I am sure they are a remedy well worth recommending. I had slight symptoms of disordered kidneys for some time and as there has been a trace of Bright's disease in my family for several generations, I decided to try Doan's Kidney Pills. This remedy soon completely cured me. I believe Doan's Kidney Pills to be unequalled for kidney disorders."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Majestic

THE RANGE REPUTATION!

WITH A

In case of serious illness, you wouldn't call in any old doctor, but would get the best doctor you knew of, The Doctor with a Reputation, the doctor that has shown his worth by years of good honest service.

Then why buy any old range, when you can get The Great Majestic, The Range with a reputation—a reputation won by years of constant, honest and economical service.

The Majestic is made right—OF NON-BREAKABLE MALLEABLE IRON, and RUST-RESISTING CHARCOAL IRON. All parts of the Majestic are riveted together (not bolted) practically airtight—no cold enters range or hot air escapes, thus baking perfect with about half the fuel used in a range that is bolted and pasted together with stove putty.

The All-Copper Movable Reservoir on the Majestic is absolutely the only reservoir worthy of the name. It heats 15 gallons of water while breakfast is cooking, and when water boils it can be moved away from fire by simply shifting lever.

Call at our store and let us show you why the Majestic is absolutely the best range on the market.

Your neighbor has one—ask her. All styles and sizes.
