### SCHOOL OPENING AT ST. AGNES

Bright Prospects for Another Very Successful School Year at St. Agnes Academy

#### BECOMING MORE AND MORE WIDELY KNOWN AS EDUCATIONAL CENTER

Never have the prospects been brighter for a very successful school year at St. Agnes Academy than they are for the coming year. The excellent work accomplished in the past year has taken effect and has demonstrated to parents more forcibly than words the high standard of the teaching staff and the sound training and excellent education imparted to the children there. Thus, it has come about that the Academy is becoming more and more widely known, and the number of applications from those desiring to become boarders has exceeded the most sanguine expectations. It is no wonder that it should be so. It is difficult to find an educational center so well equipped and furnished as well as so thoroughly up-to-date in every respect as is the Academy at Alliance.

This year, the provision made for teaching music, the piano and violin especially, and also for the teaching of painting and artistic work, is all that can be desired. The Sisters

have been fortunate enough to have procured this year teachers who may well be called "specialists" in those branches.

Many of the school rooms have been more elaborately furnished, also, especially the science laboratory. There is no standing still with the Sisters, their aim being to improve their already high standard, and their motto being ever "Eccelsior."

Again, the block of land, recently purchased north of the Academy, is being fitted up as a playground so the children can have ample exercise in the fresh air. During the winter months, the gymnasium will be prepared for indoor games. These games will be so well equipped that they will suit all, from the youngest to the oldest, from the smallest to the largest. So the bodies being physically strong and active, the mental faculties will be in a fit and proper mood for active development also. Besides this, the child learns many very important and useful les-

sons on the playground, lessons that will stand to him or her in after life.

Parents are, therefore, asked to take advantage for their children of this high standard of education placed within easy reach. Girls can complete their course in the Academy, and also be trained in an excellent business course. Boys can complete the eighth grade there. All children are welcome; but Catholic parents are especially urged to send their children, as it was for those children that it was primarily intended. Children whose parents cannot afford to pay for them, are taken entirely free as day pupils. So that please excuse for a Catholic parent who does not send his children to the Academy.

Boarders return on Monday, so all will be in readiness to begin school on Tuesday, Sept. 3rd, at 9 o'clock sharp. All the children are requested to be in their respective halls by that time.

He and Mrs. Spencer arrived about the 15th of this month and have taken up their residence at 823 Big Horn Ave. Their telephone number, which has not been

printed in the directory yet, is 405 Green. In behalf of the hospitable people of this city The Herald is pleased to extend a cordial greeting to Dr. and Mrs. Spencer.

Last week we should have mentioned in our locals the over-Sunday visit at Alliance of J. Carl Thomas, linotype operator on the Gering Courier. Carl was formerly an employee of The Herald, but a few months ago we let him off to help the Courier out of a pinch, and now Brother Wood declines to let him come back except for a short visit occasionally.

The present low price of lumber that is being made by the Forest Lumber Company of Alliance cannot always last. If you are expecting to build, you had better hurry up a little if you want to get the benefit of the present low prices.

J. A. Wells of Berea was trading in Alliance Friday and informed The Herald that he finished harvesting that day on the place where he lived and would soon be done on the place he has rented out. He is very much pleased with the crops, this year's oats being fine, wheat fairly good although injured somewhat by rust on account of too much rain, and potatoes excellent. His corn he says will make a big crop if the frost does not get it.

Supt. and Mrs. W. R. Pate and family returned Monday morning from their outing at Andrews, Sioux county, at the head of the White river. A part of their recreation consisted in fishing, at which they were very successful, judging from

W. S. Barrett informs The Herald that his business starts out well at the Alliance cafe. Mr. Barrett is an experienced hotel man and has a large acquaintance in Alliance and among the traveling men. He will no doubt continue to have a good trade.

John Keinz, a breeder of pure bred Hereford cattle, whose ranch is in Sioux county northwest of Morrill, was in Alliance yesterday forenoon on his return from Denver where he had shipped a car load of hogs. He came up to Alliance in preference to spending the forenoon in Bridgeport.

Corkle. To a representative of The Herald he expressed himself as being wonderfully pleased with the crops and general conditions as he saw them here. Mr. and Mrs. Keithley returned to Superior this week.

Mrs. H. U. Beekman and Miss Eliza Beekman, the mother and sister of Mrs. J. B. Brown, are visiting at the home of Rev. J. B. Brown. Mrs. Beekman and daughter are from Ellwood, New Jersey, and will be in this city till the latter part of September.

He favored The Herald office with a call while in this city and expressed himself as being confident that Wilson and Marshall will carry Wyoming in the coming election.

Judge Westover's apples this year are fine and numerous, and we received a nice sample yesterday of the Duchess of Oldenburgh variety. The Judge reports the small boys pretty enterprising with sticks knocking down the tempting fruit. Another enemy in the form of insects or worms call for the use of the spray. It would be a good thing if those who have orchards would chip in and get a powerful spray that would reach the top of the fruit trees, and the writer will gladly be among the number. One good spray is all the town needs and it would pay. —Rushville Recorder, August 23.

Since returning from her western trip a week ago Sunday, Mrs. U. N. Hoskins has gone thru a spell of sickness that was quite severe, but we are pleased to learn that she has almost entirely recovered from the same. She had intended to make a trip to Honolulu, but decided to put that off till some other time. However, the Honolulu trip was not necessary to make the outing pleasant.

A. Gregory returned Wednesday morning of last week from a Florida trip after being gone about three weeks. He is well pleased with that country and bought more land, having previously invested in some Florida real estate. While in that state he met H. A. VanNice who formerly resided in Alliance having been salesman in the F. W. Irish clothing store. Mr. VanNice is so well pleased with that part of the south that he declares that he would not come back north if he could have his salary doubled by doing so.
