As will be seen by reading this issue of The Herald, a number of items are printed that were put into type for last week's issue, but crowded out. Quite an amount of interesting matter is being crowded out again this week on account of the demand of advertisers for space. We are very much pleased with the increasing business. If it continues, so that eight pages are not sufficient to meet the demand for news and advertising space, it will be met by enlarging the paper to twelve or sixteen pages.

Clarence E. Harman of Holdrege, candidate of the democratic and people independent parties for state railway commissioner, was in Alliance Tuesday forenoon getting acquainted as best he could in such a short stay. It is but fair to say that Mr. Harman made a very favorable impression upon voters whom he met here. He believes thoroughly in democratic principles and pledges himself to promote the same to the best of his ability. For many years he has been a traveling salesman, and like commercial travelers generally he is thoroughly posted on present day issues and is well qualified to fill the office for which he has been nominated, and to which he will in all probability be elected. There is a strong feeling that the western part of Nebraska should have more of a representation among the state officers than it has been having. This fact, coupled with Mr. Harman's popularity, his acknowledged qualifications for the position of state railway commissioner, and the further fact that this is a democratic year, insures him a large vote in this part of the state.

By order of the county commissioners, a notice is being published in The Herald, for an election to vote on the proposition to bond Box Butte county for \$75,000, for the "erection, construction and furnishing of a court house". A court house with more room than the present building affords and with better protection for the county records is badly needed, and in the opinion of The Herald should be built without unnecessary delay, but if bonds are voted for that purpose we hope it will be with the consent of a majority of the voters throughout the entire county. We do not feel disposed to rush thru any such proposition without due consideration by the voters concerned. Whether or not there shall be a new court house constructed within the next year is a question for them to decide, and we trust that they will give the matter careful consideration before election day. Our opinion is that practically the entire county favors a new court house, but whether the county shall be bonded for \$75,000 for that purpose is also a question for the voters to settle. We are willing to abide by the decision of the majority, but are sure it will be for the good of Alliance's business interests to have the co-operation and good will of the country precincts, whatever may be decided upon in the matter.

F., and is being given attention by this popular lodge. Mrs. Skala went to the farm today, expecting to return the last of the week. Mr. Skala's many friends hope that he will soon be well and out again.

There is more Catarrh in this section of the country than all other diseases; it together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 15 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. Take Hall's Family Pills for constipation. Advertisement
