COUNCIL HAS A LIVELY MEETING

ficial weighmaster was necessary. Police Judge Gregory Zurn was appointed some time ago to this position, receiving \$25 per month for acting as weighmaster and janitor at the police station.

City Printing

Lloyd C. Thomas, representing The Herald, then asked permission to speak regarding the printing of city ordinances and other legal advertising. He stated that he believed The Herald should be allowed to publish one-half of the city advertising, that The Herald did not want to be whole hog and ask for all but that if for no other reason than as a matter of news the legal advertising should be published in both papers. He offered to do this advertising at a rate to be decided on by the council, stating that he only wished to do what was right in the matter. J. H. Moist represented the Times. He stated that he believed that inasmuch as the Times was getting the printing now it would be a good plan to let well enough alone. After some discussion the matter was put to a vote, the council voted unanimously to publish all legal advertising in both papers, The Herald to receive one-half legal rate and the Times one-half legal rate.

This was one of the most exciting and interesting meetings of the council held for a long time.

CONTRIBUTED

Editor Alliance Herald, City.

Dear Sir: Just a few words in regard to the resolution adopted Tuesday night by the city council in regard to Sunday closing.

This motion as I understood it was that the matter of closing the picture shows on Sunday be left to the public to decide at the next city election.

At no time during the meeting of the council were the original petitions presented to that body, although the committee endeavored to have them presented. In place of this action, a motion was put and carried, narrowing the matter to the picture shows. These shows certainly would be closed on Sundays by the action of the ordinance requested, but at the same time, the ordinance would operate against all public amusements requiring city license if drawn as requested.

It was conceded from the start that all these public amusements should be incorporated in the petition which reads: "We, the under-

signed voters, respectfully request the mayor and city council to pass an ordinance providing for the closing on the Sabbath day, commonly called Sunday, of all public amusements requiring city license which are not already closed on that day by operation of state law."

There were three separate petitions embodied, one signed by voters, one by women and one by young people.

The committee in charge believes that their petition should be formally presented to the council for a vote.
