## DOUGLAS TO HELP DEEVER

Box Butte County Man Will Tell Eastern People about Agriculture in Western Nebraska

### RECEIVED TELEGRAM SATURDAY

When D. Clem Deaver, immigration agent of the C. B. & Q. railroad, wanted a man who is familiar with this country to assist him represent it in the east, he came to Box Butte county for him. Last Saturday George E. Douglas received a telegram asking him to come to Omaha. He left on 42 that night. He was to meet Deaver in Omaha the next afternoon, and from there they were going on to Chicago.

The Burlington people have a fine collection of specimens of agricultural products of this end of Nebraska. These are to be exhibited in Chicago and also placed in an exhibition car to be taken through the states east of Nebraska. They want a man who is familiar with the agricultural development and possibilities of this country, and such a man they find in George Douglas. Probably no other one man has experimented in growing various grains and grasses in western Nebraska as extensively as he. Some of these he has found to be not adapted to this soil and climate, while others have been found to do splendidly here. He has the faculty of telling in an interesting manner the results of his experiments and observations, and will give the railroad company good service in his present position, as he has done before in a similar capacity.

### DIERKS LUMBER AND COAL CO.

F. W. Hargarten, the genial manager of the Dierks Lumber and Coal Company's business at Alliance, has been with that company for the past twenty years. His efficiency is attested by the responsibility that is placed upon him by the company after his long service. This company carries a large stock in their Alliance yard, embracing everything in the building line necessary to meet the demands of their big trade. The manager recognizes the importance of having the business properly represented before the public in print, accordingly orders a quarter-page ad in this special issue of The Herald, in addition to running an advertisement in the paper.

## HARPER'S OPENING SATURDAY

W. R. Harper is a young man who came to Alliance several years ago and after getting thoroughly acquainted in the town and seeing the opportunity for a Ladies' Toggery he began business in November, 1911, in the west end of the First National Bank building. His business soon outgrew these quarters and he moved to his present location on Box Butte avenue. His business has grown very rapidly from the start and he has a good, established trade. He handles leading lines of millinery and ladies' furnishings.

On Saturday he will have his spring opening and a large stock of new spring hats, suits, etc., will be on display. An orchestra will furnish music in the evening and cut flowers will be presented to callers.

## H. S. STUDENTS DEBATE

Question, "Should American Cities Adopt the Commission Form of Government?"

### RUSHVILLE VERSUS ALLIANCE

The Alliance High school debating team will meet the Rushville High school debating team here Saturday night. The debate will be held in the High school auditorium at eight o'clock.

The question for debate is, "Resolved, That American cities should adopt a commission form of government." Alliance will support the affirmative, while Rushville will endeavor to prove that the present form of city government, the mayor and council system, is superior to the proposed commission form.

The Alliance speakers will appear in the following order: Leone Mallory, Max Wilcox and Michael Nolan. Each speaker will be allowed ten minutes for the main argument and five minutes for the rebuttal. The rebuttal speeches will occur in the same order.

Competent and impartial judges have been secured; the debaters have spent a great deal of time in preparing this debate, so the discussion of municipal government and city problems will be an interesting one.

Special musical numbers will form a feature of the evening's program. Admission, 25 cents.

LADIES. Be sure to attend Harper's opening Saturday.—Adv.
