One or two United States sena-tors and at least half a dozen governors will be the fruits of the prescut legislative session according to predictions of numerous admirers at this stage of the game. On the democratic side it is no secret that Potts of Pawnee, Norton of Polk, and Palmer of Clay are gubernatorial tim ber, with prospects of landing if induced to submit their names to the common people. Mr. Nichols of Madison on the republican side is frequently mentioned in this connection and scarcely anybody in the legislature would regret to see his ambition realized if he has any.

Potts is the chairman of the Fin-ance, Ways and Means committee and is a big, stalwart, sympathetic, broadminded business man with lots of hard sense and excellent judgment. Norton is the chairman of the Committee on Rules and in real-ity the majority leader of the House. He has streaks of brilliancy, a broad education, a splendid comprehension of public affairs and a deep and abiding sympathy with and for those measures which go to make for progress and reform. Judge Palmer is unquestionably a man of great ability and high character, and will share honors with the other gentlemen named as leaders in the House.

In the senate there are Senators Ollis of Valley, Placek of Saunders, and Talcott of Knox who bow and smile graciously when anybody menthat Lieutenant Governor McKelvie and President Pro Tem Kemp of "We had to Nance county are cherishing ambitions along these lines. As to congressional aspirants there

Senator Hoagland of Lincoln county is willing to delegate Brother Kinkaid to obscurity, and it is quite likely that "Johnnie" Maguire will have to reckon with Richardson or Quiggle of Lancaster county as his republican opponent in the next cam-

paign. If the Potts bill, House Roll No. 752, becomes a law as now seems to be a certainty, something over \$300,-000, in addition to our present revenue, will come into the state treasury. This bill provides for one-tenth of one per cent on paid-up capital actually invested by all Nebraska corporations, and although there are doubtless some objections to the bill it was unanimously recommended for passage by the House in committee of the whole.

The workmen's compensation bill is still up in the air. It has been much discussed pro and con and all sides have had a hearing but apparently only a few lawyers and the representatives of the big corporations know anything about it.
