## STOCK MOVEMENT ON RUN STARTING HEAVY

Already a heavy stock movement has begun. Indications are today that within a few days the Burlington will have handled through Alliance from fifteen to twenty heavy stock trains, mostly from the northwest. For several days the Burlington has been rushing empty cattle cars to the loading stations, but the supply has been none too plentiful for the expected, but more than ever sudden demand.

Reports from the cattle country indicate that a general cleanup of the ranges will be made during this season of shipments and that the sell-

ing will be close, making the traffic heavier than the usual run for several years.

August's handlings through Alliance were heavy. The following were handled to Omaha and Chicago: 658 cars of cattle, 330 of sheep, 24 of horses, four of mules and three of hogs.

D. M. Andrews of Alliance has gone to Denver on a business trip. Mr. Andrews recently moved to Alliance from Chicago and expects to invest in range land.

If your name is not on the subscription list of The Alliance Herald, the official organ of the Nebraska Stock Growers Association, NOW is the time to subscribe. Send us your name with \$1.50 and we will send the paper a year and guarantee that you will receive your money's worth. Or, better still, if you are a stock raiser or interested in the live stock business, fill out below the blank application for membership in the Nebraska Stock Growers Association, send it with check for membership dues to the secretary, and you will receive The Herald one year prepaid.

Application for Membership to

## University Train to Be in Alliance for Evening Meeting; Gives An Opportunity for All

One of the best opportunities ever afforded ranchers and farm owners of Box Butte county to gain reliable and detailed information on the dairy business will be afforded with the arrival of the University of Nebraska Dairy Train over the Burlington for an evening meeting in Alliance Monday, Sept. 22.

Recently there has been a great deal of interest aroused in the subject of better graded cattle for dairy farms and the Alliance Creamery company has been making every effort to create interest that will result in the growth of the dairy business in this section of Nebraska.

Carried with the dairy train will be "Katie Gerben," the world's record cow, together with other dairy animals. During the stop at Alliance a series of lectures will be given which will be of inestimable benefit to all persons contemplating entering into the dairy industry on either a large or small scale.

It is the belief of The Herald that the dairy business could be developed to the highest point of profit in this county, particularly as there is an immediate market here for butter fat and milk.

The following letter has been received:

Mr. John W. Thomas,  
Alliance, Nebr.

Dear Sir: It is planned to have the Dairy Train in Alliance at 7:00 p. m. for an evening meeting on Monday, September 22nd. I know the dairy exhibits, the world's rec-
