# REGAN'S

Opera House Block

# Horrible Murder Perpetrated

The house was searched shortly after the murder and a complete hop or opium joint was discovered. A supply of opium, together with the special pipes required, and other paraphernalia, was found in one of the rooms. Appearances indicated that they had had frequent use.

"Mrs." Archie Edwards, a comely negro woman, aged about thirty years, was instantly killed shortly after ten o'clock Wednesday night by a shot believed to have been fired by her "husband", in a revolver duel with Ben Jordan, a special colored policeman, on Niobrara avenue, midway between First and Second streets, within a block of the city hall and within half block of The Herald office.

The body of the woman was allowed to lie near the east side of the street until the coroner arrived, which was in a few minutes. The woman was dressed in a faded serge skirt and had on a man's coat. It was probably the coat belonging to her husband. The body lay in a twisted position, face upward, with staring eyes. In her right hand was tightly clenched a key ring on which there was a buttonhook, a door key and a suit case key. Her hair was combed back from the forehead and fastened at the back with a large back-comb.

The coat which the woman was wearing had apparently been grazed on the left arm by a bullet.

That it was a deliberate attempt of Edwards to murder the officer is plain, as Edwards shot without warning and within three or four feet of Jordan. That Jordan was not instantly killed is due to the poor marksmanship of the murderer.

### OFFICERS SEE FLAME

### AND HEAR SHOTS

Night policeman Dr. L. W. Curtis was standing across the street from The Herald office, near the Rodgers grocery corner, when he and a man with him heard the first two shots from Edward's revolver. They also saw the flames shoot from the gun. They started on the run for the place where the shooting was going on and arrived just as Jordan finished emptying his gun.

### WOMAN STILL BREATHING

The woman was unconscious but

still breathing when first seen. She lived probably four or five minutes. Streams of blood oozed from the corners of her mouth.

### LOCATION OF WOUNDS IN BODY

Two of the bullets from the small revolver, which was used by Edwards, entered the body of the woman. One of them had entered on the right side near the waist. This bullet went clear through the body and came out in the armpit on the left side. This was the bullet which caused her death. The other bullet entered on the right side just below the waist line and passed around the front part of the abdomen. The revolver used by Edwards was of 32 calibre and the one used by officer Jordan was of 42 calibre.

### JORDAN IS SPECIAL COLORED OFFICER

Ben Jordan was appointed a special deputy marshal about one month ago. His duties were to look after the colored people only. He has done good work, succeeding in forcing several undesirable colored characters to leave the city.

### JORDAN'S STATEMENT

Ben Jordan, the deputy, made the following statement to The Herald reporter while Jordan was lying on a cot in the ward at the hospital, half an hour after the shooting. He was suffering greatly but bravely answered all questions asked.

Jordan said, "The couple have been living together at 107 Niobrara for three weeks or a month. She has been walking the streets and soliciting her unlawful business night after night. I had told her several times to keep off the streets. This man whom she was living with and who was known as her husband was about thirty-four years of age, ginger-cake color, weighed about 135 pounds and was raw boned. He had smoky hair. I did not know their name but neither one has been doing any work since coming to that house.

"Sunday night the woman came to me and said, 'I understand that you are going to arrest me.' I told her to keep off the back streets.
