#### CHADRON NOTES

(By Herald Correspondent.)

Chadron, Neb., April 10.—A large steel engraving of the battle of Gettysburg has been placed in Professor Wilson's room.

H. F. Carson, state superintendent of the Anti-Saloon League, accompanied by Rev. Mr. Sterevant, visited the Normal Monday and gave an address at the chapel exercises.

Saturday, the Faculty Ladies Kensington spent a very pleasant afternoon as the guests of Miss Steckelberg at the home of Mrs. T. S. Smith. At the close of the social hour dainty refreshments were served.

The Verein Germania held their

regular meeting on Wednesday of last week. Several important matters were brought up, and decided upon, at the short business meeting. The club adopted the colors of the German flag—black, white and red—as their class colors. It was unanimously decided to adopt a pin for the club. After the business session the members of the organization enjoyed the novel experience of a ride in an "air-ship."

The Alice Freeman Palmer Society met in the music studio Friday afternoon at 3:45. As the program was to be in commemoration of Alice Freeman Palmer, several excellent talks were given about her life and work. Miss Harris, who had been invited to talk to the girls, gave an inspiring account of her life, her influ-

ence and her ideals. Hazel McClellan gave a talk based upon ideas taken from one of Mrs. Palmer's addresses entitled "The Education of Women." Many excellent ideas also were very clearly brought out in a paper read by Miss Kreizenbeck, also based upon one of Mrs. Palmer's lectures to mothers on "Why a Girl should go to college." During the interval before refreshments were served, music was provided by Miss Mary Wilson and Miss Viola Kleinke who played the duets: Melnote's arrangement of "Il Trovatore," the "Faust Waltz" and "Soldiers Chorus from Faust."

The "best yet" is the report given by the class of 1914 of the April Fool party given at the home of Geo. Harmony last Saturday evening. The

early part of the evening was spent playing progressive Double Somerset. The hand painted score cards, representing clowns in different costumes, were painted by Mrs. Blanchard. The first prize was carried off by Rex Coffee, and the consolation prize by Keith Lenington. About half past ten each was given the following menu from which to select his dinner: Baked meats, Murphys on the half-shell, sweet rolls, Lentil salad, wafers, brick ice cream, assorted cakes, Alaska tea. Shredded wheat biscuit with cream, batter cakes and bean soup were served with each order. When it was found that the bean soup was coffee, the baked meats animal cookies and the sweet rolls candy beans, there was much merriment. Never before did shredded wheat biscuit with cream, and batter cakes taste like brown coconut, maple ice cream, and delicious pastry. The social committee have certainly been successful in preparing interesting programs.

Last Saturday, April 4, the baseball team journeyed to Hay Springs in two automobiles where they won with the one-sided score of 11 to 4. The game was not very exciting, as the score shows. The Normal played a good game. Only one error was made in the infield and two in the outfield. Coffee pitched the first seven innings and McIntyre finished the game. Weymouth caught the entire game. Mote, Coffee, Beeler and Loewenthal did good work in the infield. Weymouth outdid himself behind the bat, and in keeping the ball in the outfield when at bat. Mote dropped a nice single back of the third baseman, bringing in two men. Weymouth knocked a home run with men on bases, which helped to raise the score. In the last inning McIntyre allowed the bases to become full with no outs. Of course the people on the side lines screeched and yelled mightily and thought they had won the game, but they did not know "Mac." He smiled at them, spat in his glove, and fanned two men. He then allowed the third man to hit the ball and assisted him out at first. Coffee fanned many men, and only left the box because of the difficulty in throwing against the high north-east wind. Coffee also batted well. The Hay Springs team is a good one. They have practically the same players they had last year, including the pitcher, Steele. They fielded well, but the Normal outclassed them in batting. The Normal will play them

here soon, when a good game is expected. The Normal team is fast improving under the guiding hand of Beeler. They are learning some signals, and also a good list of plays, which they can pull off to perfection.

#### CROWD FOR SUNDAY SHOW

Several Auto Loads of Hemingfordites Came Down Sunday to See Picture Shows

Several auto loads of Hemingfordites came down Sunday evening to see the picture shows, they having the idea that the Sunday shows were already in operation. Manager Dubuque stated this morning that the Sunday shows would probably be started May 1st and that after that time he would welcome all visitors from out of town.

## The Hinge Door Silo

The Silo That Gives Satisfaction

Because of the doors on hinges, always in place and always closed, helps keep silage perfect. Come in—see our model—look at the safe ladder, the steel frame, perfect anchoring system. Ask for our offer on a Lansing Silo or the famous Light Running Silbertahn Silage Cutter.

Threshers  
Grain Drills  
Feed Grinders  
Knife Grinders  
Binder Twines

STEEL frame on steel wheels—that is the lasting basis on which International manure spreaders are built. All parts, including box, beater, spreading mechanism, apron, are built by experts, using best materials, from careful designs based on field tests.

Every detail is strong and durable, built for long life and ease of draft. Among the features that will interest you are these: Simple protected beater driving mechanism, all of steel; load carried on rear axle, insuring traction; reversible gear and worm; low, easily loaded box, with ample clearance underneath; end gate, preventing clogging of beater while driving to the field; etc.

All styles are in the IHC spreader line, high and low, endless and reverse apron, and various sizes for small and large farms. Our catalogues will tell you more. Write for them and let us tell you also where you may see IHC manure spreaders.
