

Its Time to Brighten up Your Home

Housecleaning Time is Here

You'll find everything you need to make your house spick and span inside and out advertised by the progressive business men of Alliance, in the space below—*The Herald*.

Start Housecleaning on the Roof

It's spring renovating time. Your wife is laying plans for making things spick and span on the inside. Why not carry out the spirit of the good work on the outside? If the shingles have begun to curl up their toes, it's time to rip them off and put on a new roof. Or it may be that you have been talking of building a new porch or an additional room. Right now is the time to do the work before the hot weather comes. If you have anything like that in mind, call us up and let us give you an estimate on the cost of the lumber.

Dierks Lumber and Coal Co.

Paint Your House Inside and Out

It's economy to paint because it lengthens the life of your buildings. Then consider what it adds to the appearance. The time to have the work done is in the spring and the way to do it is to use only the best paints. Then you will have a job that will look right and will withstand the elements. Our stock of paints includes only the best quality for both inside and out. We also carry a complete line of wall paper of the latest patterns and designs. We have a large stock of paint brushes. Call us up and let us give you an estimate on the cost of painting and papering your house. Phone 6.
