

# NEW HOMESTEAD DESIGNATIONS

Secretary of Interior Franklin K. Lane Approves Designation of Much Homestead Land

Secretary Lane has recently approved the designation of approximately 42,500 acres of non-irrigable lands in Colorado, which will be open to entry under the enlarged homestead act within the next thirty days. The greater portion of the lands designated lie within Rout and Fremont counties.

A designation under the enlarged homestead act involving approximately 157,000 acres in New Mexico has been approved by Secretary Lane. The lands affected are situated in Guadalupe and Grant counties and have been determined to be non-irrigable in character as a result of field investigations by the Geological Survey.

## PERU NORMAL NOTES

Peru, Nebr., July 1—Mrs. E. L. Rouse led the joint meeting of the Y. M. C. A. and the Y. W. C. A. held in the high school room Sunday.

The third number of the lecture course was given Monday evening in the chapel. This was an illustrated lecture by Frank Harrison, a Nebraska man who has traveled extensively in Mexico, Central America, and South America.

Ex-State Superintendent J. L. McBrien, now of Washington, D. C., spoke at chapel Tuesday morning on "The Educational Outlook."

State Superintendent J. E. Delzell was in Peru a few days visiting friends and relatives.

Hazel Johnson and Gilberta Durand are attending the summer session of the Chicago Art school.

Miss Pearl Kelly of the training school is spending the summer at the Chicago university.

Miss Lou Hosmer of the kindergarten department left Friday for La Porte, Ind., where she will spend the summer.

## RAILROAD NOTES

The Grand Trunk has added a new fast train between Chicago, Montreal and Toronto.

The tax valuation of the Pennsylvania Railroad properties in Cuyahoga county, Ohio, has been increased from \$9,000,000 to \$14,000,000.

Stockholders of the Mississippi & St. Louis have approved plans for a merger of the two roads.

The American Museum of Safety has sent to one thousand railroads in this country the conditions for the completion of the Anthony N. Brady memorial medals. These medals are to be awarded to the electric railway company which for the year has done the most to conserve the safety and health of its employees and the public.

The railroad committee in Massachusetts legislation is divided on the bill to secure the divorce of the Boston & Maine. The federal authorities do not oppose the decision which provides that the state retain its claim on the stock.

The last of the costs in the Missouri rate litigation with the railroads which was begun in 1905 has been paid, the Burlington being taxed with more than \$20,000 of the total, which exceeded \$28,000, twelve roads having been involved in the fight.

The drastic economy which the railroads of the eastern part of the country are exercising is well illustrated by the Baltimore & Ohio. For the last two months the purchases of materials by this road have been limited to the barest necessities. It is understood that the company's purchasing agents have been forbidden to order any supplies above \$5 in the amount unless such purchase is first O.K'd by the president or one of the vice-presidents.

The Maryland Steel Company, a subsidiary of the Pennsylvania Steel Company, has received an order for 16,000 tons of steel rails from the Queensland Government Railway of Australia. This is a new business, and it is understood that the order was taken on favorable terms.

If interested roads approve a proposition agreed upon by transportation and accounting officers a new schedule of rates ranging from \$3 to \$8 for handling cars handled on other than mileage basis will become effective. Where owners participate in the business the rates will be from 3 to 5 cents a mile, according to the size and character of the car.

In the west there is a strong impression that the Chicago Great Western, the Chicago and Eastern Illinois, the Pere Marquette and the Detroit, Toledo and Ironstone are on the verge of changes in their operation and management which will work changes in their present close relations with their connections.

The first of the practical talks of the summer was given Wednesday on "Little Conventionalities of Life". Miss Esther Clark spoke to the girls and Prof. Stoddard to boys of the school.

State Superintendent J. E. Delzell was in Peru a few days visiting friends and relatives.

# SPORTING

Edited by "DOC" COPELAND

**Kid Alberts to Fight Al Dewey**  
Scranton, Pa., July 9—Kid Alberts, who stood off Mike Gibbons of St. Paul in a terrific battle at Syracuse lately, will fight Al Dewey, the Wilkes-Barre boxer, in this city tonight.

**SPORTING TALK**  
Now that Jack Johnson has testified his rest, he is beginning to talk seriously about a fight with Sam Langford. Jack has really surprised his admirers, although there are many who still criticize him for not having knocked out Moran before the twentieth round, claiming that he could have done so. The fighters are taking Moran's word for it that Jack is still a wonderful fighting machine and there is no doubt that the champion will be able to dictate any terms he desires in making matches for the next year or so.

Jimmy Kilroy, the boy manager, continues to scold the lightweights for ignoring his title aspirant, Jimmy Cassidy, of Chicago, and unless some of the alleged champs up and allow this Cassidy person to beat them down the boy manager is going to pack his plaited shirt and E. V. D., and take his battler out to Denver, or some other western point, where the opponents are not so scarce.

American League pitchers are getting so they fear Veach, the young outfielder of the Tigers, as much as they do Cobb or Crawford. The youngster is rather pleased at the compliment, too. The Tigers are proud of Veach and are keeping a watchful eye upon him.

Baseball is barred from the Olympic games of 1916 on the theory that the game is not played in six distinct countries. The Olympic committee has another guess coming. Baseball is played in the United States, Canada, Japan, Cuba, Australia and Brooklyn.

No gold harvest will be reaped in organized baseball this year. Salaries have gone up and receipts have come down. The Federal League is responsible for the first reason, even if not for the second. In spite of all the bad things that have been wished upon the Feds they seem still to be holding their own.

There is every reason to believe that the Resolute can be so improved upon that she will show the best front to Sir Thomas Lipton's challenger in the race for the American cup. In the races that have been held the Herreshoff cup has exhibited far more strong points than weak ones, and it is believed that she can be improved upon in many ways. There is likely to be some lively racing, however, before the final decision is made in favor of the Resolute.

If Cobb is really yasthamed of having slugged the butcher boy and is actually contemplating a Fed elopment, it might be well for Prexy Gilmore to send a squad around with the Tigers to twit Cobb about his prowess and making him ashamed to the jumping point.

Yale may not be quite back, but she is on the way. It has been some time since the Blue has fluttered as high as it has fluttered this spring. But Yale's situation next autumn is fraught with many complexities. Princeton, Notre Dame, Colgate and several of the smaller colleges are primed with some of the best material that they ever had, and as Yale is planning to meet them in various events, unusually careful preparation will be necessary.

**NOTICE**  
Sealed bids will be received by the city of Alliance, Nebraska, until 8 p. m., July 21, 1914, for  
1 Motor Combination Chemical and hose wagon with one forty (40) gallon Chemical tank on same, with hose body of twelve hundred (1200) feet capacity, with divisional body fully equipped.

**GLASS OF SALTS IF YOUR KIDNEYS HURT!**

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.  
To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

**Eat less meat if you feel Backachy or have Bladder trouble—Salts fine for Kidneys.**

**"TIZ" GLADDENS SORE, TIRED FEET**

"TIZ" makes sore, burning, tired feet fairly dance with delight. Away go the aches and pains, the corns, callouses, blisters and bunions.  
"TIZ" draws out the acids and poisons that puff up your feet. No matter how hard you work, how long you dance, how far you walk, or how long you remain on your feet, "TIZ" brings restful foot comfort.  
"TIZ" is wonderful for tired, aching, swollen, smarting feet. Your feet just tingle for joy; shoes never hurt or seem tight.  
Get a 25 cent box of "TIZ" now from any druggist or department store. End foot torture forever—wear smaller shoes, keep your feet fresh, sweet and happy.

## VOTE FOR

**Woodruff Ball**  
OF CHERRY COUNTY  
Republican Candidate for  
**State Senator**  
NOMINATION  
From 28th Senatorial District

Connected with the Live Stock Business in this district over 15 years. Made final proof on original homestead in August, 1903, under the 5-year act. This was the land involved in the "Boer Bottle Corner case."  
Made final proof on Kinkaid Additional in July, 1910.  
Member of the present State Forestation Commission.  
Has secured \$15,000.00 additional funds for forestation work in Nebraska from the general government.  
Has secured the permanent retention of the National Forest Reserves in this state for the benefit of the present and future generations.  
Has labored persistently to secure from the general government an appropriation with which to conduct experiments to increase the quality and quantity of grazing or forage grasses in the sand hills. This should enhance the value of all sandhill lands.  
Initiated the fight which wrote into the present State Live Stock Sanitary Board Law the requirement that the cattlemen thereon must reside in Western Nebraska.  
Conceived the idea of and promoted "The Northwest Round-Up" Association.  
From the above it will be seen that Mr. Ball is closely identified with the interests of the 28th Senatorial District, equipped with experience to know its needs and thoroughly capable of safeguarding and promoting its legislative requirements.  
You can make no mistake in supporting the candidacy of Mr. Ball.

Well located and doing a good business. Stock well selected, all new and bought to sell at reasonable rates.  
To much work for present owner is the only reason for selling.

## American Telephones Lead the World

If telephone rates are high and service poor, the use of the service is necessarily limited, but if the rates are reasonable and the service good, there will be liberal use of the telephone.

The European governments have had no incentive to maintain good service and reasonable rates, as have the private companies in America.

That is the reason Europe has only one telephone for every 150 persons, while in the United States there is one telephone for every ten persons.

Here are official telephone figures of the leading countries:

Country	Operated by	No. of Telephones	Telephones per 100 Population	Per cent of U. S. Development
United States	Private	8,975,074	9.1	100.0
	Priv. and Gov.	75,000	3.9	42.9
Sweden	Government	1,302,672	1.9	20.9
Germany	Government	738,738	1.6	17.6
France	Government	293,195	0.7	7.7
Austria	Government	161,230	0.5	5.5
Hungary	Government	75,738	0.4	4.4
