

# HUDSON Six-40 for 1915

NEW PRICE  
**\$1,550** F. O. B.  
 Detroit

## 31 Surprises

The HUDSON Six-40 for 1915 brings out 31 surprises. And every one will be of interest to you.

There are 31 new features. And there is a new price—by far the lowest price that has ever been quoted on any type of quality car.

### The Model Six

The HUDSON Six-40 came out last year to show Howard E. Coffin's ideal in a Six.

Mr. Coffin and his corps of 47 engineers had devoted three years to the model. By clever designing and proper materials they cut out 1,000 pounds of useless weight. By a new-type motor they saved about 30 per cent in operative cost under former cars of like capacity.

They created a car which was widely considered the handsomest car of the year. It was perfectly equipped. It had attractions which never before were found in

any car at any price. That car—then priced at \$1,750—made such an appeal that the factory output was 3,000 cars oversold.

### A Year's Refinements

Now these HUDSON engineers have spent another year on refinements. They have added comforts and conveniences. They have improved the car in 31 important ways.

Now the HUDSON factory—to meet the demand—has trebled its capacity. And the entire saving—\$200 per car—is taken from the price. The new Six-40—with all these new features—will next year sell at \$1,550, f.o.b. Detroit.

### Some 1915 Features

Distinguished streamline body.  
 Disappearing tonneau seats.  
 2-coat finish—invisible hinges.  
 "One-man" top with quick-adjusting curtains attached.  
 Extra tires carried ahead of front door.  
 Gasoline tank in dash.  
 Dimming searchlights.  
 Simplified Delco starting, lighting and ignition system.  
 Wiring in metal conduits.  
 Lock on ignition and lights.  
 Automatic spark advance.  
 Better carburetor.  
 Weight reduced to 2,890 lbs.

This type of car—light, handsome, economical—is the coming type of car. Nobody really doubts that. This price is all that such a car should cost.

We want you to see this car. This new model has arrived. Don't buy until you see it.

Scottsbluff, Nebr.

The Herald does strictly high-class job printing. Try it.

When you see the name of

# George Washington

you are reminded of the cherry tree and hatchet incident.

G. W. was once a surveyor. John P. Hazard is a surveyor. J. P. also sometimes tells the truth. In the pioneer days he told the people that the southeast corner of Box Butte county was at a point locally known as "badger hole." In 1898, some other surveyors and lawyers made the court believe said corner was located in a "pocket" about three-fourths of a mile away—and it was so ordered.

The government surveyors, after making a thorough examination and re-tracing of the old lines, have re-located said corner at the same old "badger hole" and say they have no doubt about its being correct.

This is an advertisement and the point is, if you have a surveying problem with a knot in it—better send for the old "ex" (and candidate for) county surveyor

OLD HICKORY CHIPS  
 "T. R." insists that what he did to Colombia is not worth \$25,000,000.

Mexican Constitutionalists seem to think that a city in the hand is worth two in the protocol.

Anyway it is proved that as a means of passing away the time, mediation beats war by many furlongs.

The "new constitution of commercial freedom" that's what we want to live under!

The Colonel promptly did what his doctor told him not to do, which shows that the Colonel is in his usual good form.

Eminent progressives are inclined to think that the question of getting people out of the party is not so important as that of bringing people in to it.

The doctors say Mr. Roosevelt needs four months of rest. Certainly the country does.

The trouble seems to be that Pinchot and Perkins lack propinquity.

A strong argument in favor of rigid "movie" censorship is the presentation of Jack Johnson as a favorite film actor.

Throwing as sick a man as Theodore Roosevelt into the Pennsylvania campaign does not suggest a rigid observance of the principles of conservation.

It is awful to think of the vast hordes of unhappy bachelors who have been unable to secure June brides.

Notwithstanding their devotion to the place, not many congressmen will recommend Washington as a summer resort.

In his remark to the women, Speaker Clark split an infinitive from end to end, thus proving his absolute democracy.

Decrease in the meat supply is not worrying the truck gardeners, who see prosperity boldly snuggling up to them.

Although the jury system ranks as one of the bulwarks of our free institutions, jury fixers have not found it impregnable.

When a woman has a long talk with a man it means that he's a good listener.

Instead of being angry at us for proposing to sell two battle ships to Greece, Turkey should hang around the bargain counter.

Sometime this country will save on its fire insurance bills just as it is now learning to save its fingers by having a sane Fourth.

That Parisian caricaturist who complains that now there are no more ugly women had evidently just been resorted to normal vision.

If Mr. Sullivan wishes to attract attention and—possibly—votes, he might try making some of his celebrated biscuits in full view of the spectators.

It is presumed that Mr. Morgan's call on the president was purely for psychological reasons.

All that prosperity needed was a little rain to make wheat, cotton and corn bob up fresh and vigorous.

A New York woman was recently able to deposit \$20,000 that her husband didn't know about. There are women that can keep a secret.

New Haven stockholders are anxiously waiting the I. C. C.'s report on the rift in the lotting.

What will the I. W. W. "down-with-the-courts" agitators now say since one of their number—a bad one too—has been acquitted by a Paterson (N. J.) court after a fair trial?

The difference between theory and practice is shown when the whole family goes off to attend a humane congress and leaves the cat to starve in the cellar.

Messrs. Cowdray and Pierce are kept busy pouring oil on the Mexican waters.

Mr. Sherman seems never to have read that pathetic little ballad entitled "The Moth and the Flame".

The American Eagle is still the gayest and greatest bird in the whole creation.

Nobody loves a lover in a breach of promise suit.

Public opinion as to the slit skirt is still divided.

Ulster leaders know better than to attempt a hunger strike.

Some men talk to themselves. And others write letters to the newspapers.

Why not be happy? Jack Johnson and Evelyn Thaw are both in Europe.

Few statesmen are as wise as their pictures in the newspapers make them look.

The official who rides in a government automobile is getting his annual scolding.

Many people are wondering if there is any Mexican sufficiently civilized to be at the head of a civil government.

You have noticed of course that icebergs always melt before they get anywhere near the ship that Col. Roosevelt is on.

The prediction of Republican success this fall would have been more cheering to the G. O. P. if it had not come from Mr. Hilles.

An English militant says a woman "should blush to show a baby that she has the right to vote". Some of them probably would.

We can't help but fear that the Philadelphia man who committed suicide to escape the heat jumped from the frying pan into the fire.

Senator Williams, who boasts that congress will remain in session until it passes the anti-trust bills, is not the first man to make a virtue of necessity.

If Whitman should be elected governor of New York he would be a likely candidate for the presidency in 1916. But of course that is not why Col. Roosevelt is opposing him.

Now the Colonel has six weeks in which to do more thinking than talking.

This country uses about 45,000,000,000 feet of lumber every year, and the record will be something to be proud of when we grow as much timber annually as we cut down.

Senator Gallinger's complaint that under the new tariff certain classes of shoes can be bought cheaper in England shows that he holds no brief for the ultimate consumer.

## U. S. and European Telephone Service

With only 6% of the world's population, the United States has more telephone wire in use than all the rest of the world.

Here are some interesting figures regarding the telephone wire in use in some of the leading countries:

Country	Population	Miles of Telephone Wire	% of Total Telephone Wire in World.
United States ..	96,299,000	20,248,266	60.88
Germany .....	67,840,000	4,175,762	12.56
Great Britain ...	46,132,000	2,860,000	7.09
France .....	39,602,000	1,040,082	3.19
Austria .....	29,056,000	251,648	.97
Sweden .....	5,804,000	279,312	.84

Efficient service and the lowest rates in the world are the reasons why America, with only 6% of the population, has more than 60% of all the world's telephones.

NEBRASKA TELEPHONE COMPANY

# Announcement

Business men of western Nebraska will be pleased to learn that

## The Kenyon Company

of Des Moines, Iowa, the largest manufacturers in the world of exclusive calendars, maps and specialties for advertising use, will be represented in the counties of Box Butte, Cheyenne, Garden, McPherson, Grant, Hooker, Morrill and the south half of Sheridan, by the

## Herald Publishing Co.

who will be pleased to show samples of Art Calendars and Hangers, Wall Poekets, Fans, Home Scene Calendars, Map Calendars, Twelve-sheet Calendars, Waterproof Signs, Lead Pencils, Leather Goods, Blotters, Pocket Maps and Novelties, at any time on request. Do not give your order for these goods to solicitors but see that they are purchased through The Herald Publishing Company.
