300 LICE Or More on One Hen. Is by no means uncommon. No one would expect to fatten a steer with that number of "ticks" sucking his blood, but many expect the old hen to go about strolling out eggs while lice and mites are sapping her very life. We have counted over 2000 dead lice under a row of ten hens, on a roost. Recent studies have shown that lice and mites are the most potent pests before with Law's Lice Killer. This great killer does double duty—contact kills mites, lice, bedbugs, etc. about the rooster. The vapor kills lice on the chickens sitting over it. Put up only in straight cases.
