

## HORSE SALE AT ALLIANCE

Sioux City Horse Men Will Manage  
Big Horse Sale in Alliance on  
September 2nd and 3rd

On September 2nd and 3rd a big horse sale is to be held at the Alliance stock yards. S. A. Clatterbuck and W. J. Murphy of Sioux City will manage the sale. They are well known horsemen and there will be buyers for every class of horses at the sale. List of horses offered for sale can be left at The Herald office or sent direct to K. L. Pierce of Hemingford.

### SHEEHAN OPERA COMPANY

The Butte, Mont., Miner, of August 1, publishes the following in support of the Sheehan English Opera company:

In his latest offering, Mr. Sheehan scores more decisively and with greater effect than in anything he has previously been seen in here. He is splendidly supported by Mirth Carmen, Nelson R. Shanley and Laura Baer. His splendid voice was never heard to better advantage than in scenes from "Il Trovatore," "The Bohemian Girl" and "Martha." He was at his best in "Then You'll Remember Me" from the Bohemian Girl. Time has robbed his voice of some of its volume, sweetness of tone or its clarity. Miss Carmen's beautiful voice was one of the real

delights of the evening of opera. She charmed her audience with "a Minnie," "I Dreamt I Dwell in Marble Halls," and the "Last Rose of Summer." Miss Shanley and Miss Baer were effective in their numbers in "The Spinning Wheel Quartet" from "Martha."

The offering of the company provides an operatic novelty. One hears the best of three operas in a single evening, the numbers that are best known and most popular.

Alliance people should not pass up this great attraction.

Seats on sale at Holsten's Wednesday morning at 9 o'clock.

## RAINY WEATHER IS THE RULE

Hot and Dry Spell Which Caused  
Some Anxiety for Crops Followed by Much Rain

The hot-dry spell which was felt in this section of the state has been followed by an extended spell of rainy weather which is retarding the putting up of hay by ranchmen and farmers.

Box Butte county crops this season will be good. Figures showing the yield of different crops have not yet been compiled but they will show an excellent crop yield for the year.

Miss Renswold Entertains  
Miss Hattie Renswold entertained the "P. C.'s" Tuesday evening at a

theatre party. After the show the girls were taken to Miss Renswold's home, where a dainty three-course luncheon was served. The guests were Misses Cynthia Davenport, Leone Mallery, Hazel Bennett, Thressa O'Donnell, Julia Frankle, Hannah Keane, Pauline Montgomery, Irene Rice, Charlotte Molling, and Miss Safford of Denver.

## CATTLEMEN ATTENTION

When you ship your cattle this fall insure yourself of a good sale by shipping them to

## CATTLE SALE

Having decided to reduce my stock to what I could keep on the home place, I will sell at public sale at my residence, Two miles east and one-half mile north of Alliance, on

THURSDAY, SEPTEMBER 10TH,

70 HEAD OF CATTLE,  
consisting of thirty-five cows and heifers and the same number of calves.

All of this stock is high grade and thoroughbred shorthorn, bred up for a combination of milk and beef. The sires have both been purchased from noted eastern breeders. The one now in use, "Blossoms Sultan," is out of the famous bull, "Sultan Mine," who took second premium in his class at the fat stock shows in Chicago and Kansas City in 1911. Ten of his best bull calves, six and seven months old, are offered in this sale.

Will also sell some household furniture. Free lunch at noon. Terms, six months time on bankable paper at ten per cent interest.

H. P. COURSEY, Auctioneer  
F. W. HARRIS, Clerk

Infection and Insect Bites Dangerous  
Mosquitoes, flies and other insects, which breed quickly in garbage pails, ponds of stagnant water, barns

musty places, etc., are carriers of disease. Every time they bite you they inject poison into your system from which some dread disease may result. Get a bottle of Sloan's Liniment. It is antiseptic and a few drops will neutralize the infection caused by insect bites or rusty nails. Sloan's Liniment disinfects Cuts, Bruises and sores. You cannot afford to be without it in your home. Money back if not satisfied. Only 25c at your Druggist.

## "Quantity Production of Quality Cars"

Today—or tomorrow—go to the Studebaker store and see the new Studebaker models, FOUR and SIX.

Two types of each—five-passenger SIX and seven-passenger SIX; FOUR Touring Car and Four Roadster.

You will find them competing with cars that sell at prices \$500 higher; and you will also find them showing higher quality throughout.

Studebaker prices are lower because these cars are completely manufactured in Studebaker plants, carry but one profit, and impose no middleman's tax on the buyer.

We make our springs in our own spring plant.

We make our bodies and tops in our own body and top factories.

In short, we make a greater proportion of the parts for Studebaker cars than other producers make for their cars.

And being complete manufacturers, we can and do make the parts of Studebaker cars of better, stronger, longer-wearing materials; and put better value into the cars at a stated price.

Ride in the new Studebaker and you will see the result of Studebaker complete manufacturing.

If you are not expert enough to appreciate this value, ask the advice of some man who is expert.

He will tell you that the way the Studebaker sticks to the road is due to its perfect balance, and that, in turn, is due to scientific design—complete manufacturing.

He will tell you the lack of vibration is due to perfect fit and alignment of parts—again the result of complete manufacturing.

There is only one way by which Studebaker quality can be put into a "Four" or a "Six" to sell at Studebaker prices.

But we do not want or ask you to consider Studebaker Cars solely on price.

If you ask why they are better—why they give and always have given thorough satisfaction—consider the aims, ideals and honesty of purpose behind them; the quality of Studebaker materials; the vast extent and extensiveness of Studebaker manufacturing methods; the excellence of their engineering design; and the fact that in each and every important or vital particular these cars welcome comparison with the highest priced.

That is the Studebaker way, which means complete manufacturing and the elimination of the parts middlemen and their extra profit; not the assembled of semi-manufactured way.

Complete manufacturing, its economies and the excess value it puts into cars represent the Studebaker ideal.

In the case of the Studebaker, millions of dollars are invested in plants, machinery and special equipment.

Our huge production and sales turn our investments into manufacturing economies—we can well afford equipment the cost of which must be prohibitive to any producer whose output is smaller than Studebaker.

For example, we maintain the largest and most completely equipped laboratories in the automobile industry, which not only work out the special formulae for Studebaker steels, but test and analyze the steels to be certain they are up to specifications.

We maintain huge heat-treating plants for the heat-treatment of vital parts, like gears, axle shafts, front axles, etc.

We make drop forgings in our own forge shops.  
We cast and machine and build complete every Studebaker motor.
