CANDIDATE FOR STATE SENATOR

Stand up for Northwestern Nebraska
by Voting for Man Who Will
Do Something if Elected

TO THE VOTERS OF THE 28TH SENATORIAL DISTRICT IN THE STATE OF NEBRASKA: As it has required many years of long and consistent fighting to successfully combat the foes of good government, here are a few good reasons why you should support GEORGE M. ADAMS for state senator at the coming election and show your approval of his record in the 1907 session of the Nebraska legislature, which legislature enacted some of the best and most wholesome legislation that had ever been enacted in this state up to that time. And today the people of Nebraska are enjoying the benefits from same.

He was recognized at that session as one of the Democratic leaders.

He supported and voted for all these important measures:

He was in the fight that gave you the 2 cent passenger rate law, which the railway companies have since admitted they are making money under. He was in the fight that gave you the anti-pass law, which put all parties on equal terms with the railroad companies, and made the party who was able to pay his fare do so, just the same as any other individual.

He was in the fight that gave you the 15 per cent freight rate reduction on all car loads of CATTLE, POTATOES, GRAIN, FLOUR and BUILDING MATERIAL of all kinds, which has saved the people of Nebraska many thousands of dollars in the last seven years.

He was in the fight that gave you the 25 per cent express rate reduction. And the express companies admit they were making money under same as they have since reduced the rates much lower on their own initiative to compete with the parcels post rates.

He was in the fight that gave you the railway commission bill which has saved the people of Nebraska hundreds of thousands of dollars in freight charges, and forced the various companies to give the people of Nebraska better service and improvements at all railway stations.

He was in the fight for the law known as the tax levy appeal which forces the large tax payers and corporations to pay their taxes just the same as any other individual as certified upon the tax list and not allowed them to hold hundreds of thousands of dollars in their treasuries for years and finally make a compromise with the various county commissioners in the state for about 50 cents on the dollar in order to avoid a long drawn out expensive law suit, when the common people were obliged to pay their taxes in full with interest and penalty added.

He was in the legislature that gave you the child labor law.

He was in the legislature that gave you the PURE FOOD LAW and if elected believes that it should be amended to conform to the present day needs.

He was in the legislature that gave you the primary election law which enables every voter of the state to have a voice in saying whom he wants as a public servant, to act in a public capacity, and is now convinced that there is room for some beneficial amendments to same.

He was in the legislature when the first joint resolution was passed making application to the congress of the United States for the calling of a convention for the proposing of amendments to the constitution of the United States, that our senators should be elected by a direct vote of the people and not by a legislature.

He was in the legislature that gave you the employers liability law or what was commonly called the fellow servant act.

On all these important laws the name of Mr. Adams was first to be called in the house, and he never made it a business to be some other place at voting time but in his seat, and not wait until the second call of his name in order to dodge an issue and see if it was popular with the majority or not to see which way he should vote.

So for the coming legislature if the voters of this district feel so disposed at the election to elect Mr. Adams to the senate, look for constructive, effective, wise and beneficial laws. For instance, such as the

proposed BONDED PUBLIC WAREHOUSE LAW for GRAIN, HAY and all other kinds of farm products. You can never expect this law from a republican legislature as that party at their state convention this year at Lincoln refused to endorse that plank, and the leaders of that party would not submit to its passage or work for same. This is a reform that will mean more to the people of Nebraska in dollars and cents, than any other law enacted in this state. He will also work hard to secure an adequate appropriation for the state of Nebraska for the purpose of sending agricultural experts into the sand hills of this state to experiment in the selection and propagation of new forage grasses, that will grow and thrive in our sandy soil. A successful effort of this kind will enhance the value of every acre of land in this district whether owned by ranchman, farmer, or homestead-

er. Also, if you approve of the administration of President Woodrow Wilson, you should say so by your vote, and send a democrat this year to the senate.—Adv. 44-21-2838

ANNOUNCEMENT

Having nominated for county commissioner of Box Butte county from the 2nd district, I invite voters to look up my former record as county commissioner. If elected, I shall endeavor to give all parts of the county fair and impartial treatment in the discharge of my duties as county commissioner. I will protect the tax payers by seeing that the county gets value received for every dollar of public money expended. Your vote will be appreciated.

PULLMAN POINTERS

Pullman, Nebr., Oct. 17—The sale at G. W. Huff's Oct. 7 was poorly attended, probably on account of bad weather. Some of the stuff offered sold at a good figure, but the horses and a few other things were withdrawn on account of low bids.

We understand that Forbes & Minor have sold their ranch (the old Yaryan ranch) to Mr. Koble of Hyannis.

Martin Gregor has built a granary to accommodate the oat crop raised this year.

The school in district 153 is preparing a program and propose to have a box social on Hallowe'en, Friday evening, Oct. 30.

Mrs. Jack Hawley went to Thedford, Sunday, Oct. 11, with their little daughter Jessie, who was suffering with what appeared to be cholera infantum. While she was absent their son Marion was taken with a severe cold, which settled in the throat. The local "doctor" Mrs. Baker was called in the latter case, and last reports have it that "Mike" and Jessie are both much improved.

Many of the dance goers are preparing to attend the dance to be given at Charlie Hoyt Jr.'s, Oct. 19.

D. W. Miles has the lumber on the ground for the erection of a new barn to take the place of the one destroyed by lightning a few weeks ago. It seems hard to keep a thrifty man down even when he has been struck by lightning.

Amund Grinden is trying to "kin-kaid" a little these days but his neighbors are calling on him for help

so much that he finds it hard to do so.

Potatoes are about all dug in this vicinity and a good crop has been harvested.

H. V. Baker (the onion man) has harvested his onion crop and has about 100 bushels of as fine onions as you would find any where. He is selling them at \$1.25 per bushel and they seem to be in good demand.

Sickening headaches, indigestion, constipation, indicate unhealthy condition of the bowels. Hollister's Rocky Mountain Tea makes the bowels work naturally and restores your system to perfect health and strength. Begin tonight. H. F. THIELE.

Already it is clear that there is no entente cordiale among republicans, democrats and progressives.
