### WILL TAX MAIL ORDER HOUSES

#### Omaha Trade Exhibit Prints Article

Telling of Bill Introduced to Curb the Big Houses

Someone has discovered that, all unknown to most people affected, a congressman from the south has introduced a bill into congress by which he hopes, once and for all, to put the finish on the mail order houses. Briefly stated, the remedy is to tax them 1 per cent on their volume of business and apportion the tax among the several states where the mail order business is done, in the ratio of its volume. The bill reads in part as follows, but appears to have attracted little attention:

Be it enacted by the senate and house of representatives of the United States of America in congress assembled, That all persons, firms or corporations in the United States which are now conducting or which may hereafter conduct, a mail order business interstate for the purpose of selling goods, wares and merchandise direct to the consumer, shall pay a tax of 1 per centum upon the total cash value of all goods, wares and merchandise sold within any state.

Sec. 2. That every person, firm or corporation conducting a mail order business as defined in Section 1 of this act shall keep in proper books to be provided by the secretary of the treasury of the United States, an accurate and complete account of all goods, wares and merchandise of every character and description so sold, together with the actual selling price of the same.

Sec. 3. That on the 31st day of December, after the passage of this act, and on the 31st day of December of each year thereafter, every person, firm or corporation engaged in such business shall render a full and complete statement to the secretary of the treasury, upon blanks to be furnished by him, of the total cash value of all goods, wares and merchandise sold during the year in the various states of the United States.

Sec. 4. That the secretary of the treasury shall determine the amount of the tax to be paid by each person, firm or corporation (at the rate of 1 per centum upon the total cash value of all goods, wares and merchandise sold within any state) engaged in such mail order business, and shall give notice of the amount of said tax due and payable, pursuant to the terms of this act in such manner as in his judgment is most practicable.

To other horrors of peace should be added the man who brings with him to the restaurant table his dead and decomposing cigar.
