WANTED! MEN TO FILL GOOD POSITIONS

Trained men are wanted everywhere; in fact, they are always wanted, for the demand is greater than the supply. This demand is not for the man who is able to earn only two or three dollars a day at hard manual labor and who can work only under the direction of some one else, but for the man who is able to plan and direct the work of others—the man whose training has qualified him to competently hold positions of responsibility.

The INTERNATIONAL CORRESPONDENCE SCHOOLS, that great institution that has done so much in the past and is doing so much every minute for working men and women, offers you an easy way to become a trained man—to secure a good position in the trade or profession that best suits your taste and ambition.

The I. C. S. plan enables you to help yourself right where you are without losing an hour of work or a dollar of pay; without changing positions until you are ready to step into the one you desire; without obligating you to pay more than your present salary will afford, no matter how small it is. Thousands of men have secured life-long betterment through this great plan. Every month an average of 300 voluntarily tell us of such advancement. You can do the same as these men have done.

If you really want a good position, a larger salary, and a successful life, find out how you can secure it in the surest and most practical way in the world by marking and mailing this coupon. This puts you under no obligation. It is simply a request for further information. Clip, mark, and mail it NOW.

INTERNATIONAL CORRESPONDENCE SCHOOLS Box 888, Scranton, Pa.

Please explain, without further obligation on my part, how I can qualify for the position, trade, or profession before which I have marked X.

A CONFIRMED STATEMENT

Evidence Alliance Readers Will Appreciate

Doan's Kidney Pills have done splendid work in this locality. Have merited the unstinted praise they have received.

Here's evidence of their value that none can doubt.

It's testimony from this locality twice-told and well confirmed.

Such endorsements are unique in the annals of medicine.

Should convince the most skeptical Alliance reader.

George Busick, Gordon, Nebr., says: "I had a great deal of trouble from irregular passages of the kidney secretions and I also suffered from attacks of lumbago. Often the pain and lameness in my back was so acute that I was unable to stoop or do any kind of work. Doan's Kidney Pills cured me in a short time and the cure has lasted. I am glad to confirm the endorsement one of my family gave Doan's Kidney Pills in my behalf some time ago."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Busick had. Foster-Milburn Co., Props., Buffalo, N. Y.

Where to Grow Durum Wheat

Durum wheat can be recommended as a spring crop for points in Nebraska west of Niobrara, Holdrege and Broken Bow, according to reports from growers and the results of the state experiment stations at Lincoln and North Platte. In 1902 the average yield secured from numerous points in the state was 12 bushels an acre for ordinary spring wheat and 18.3 bushels an acre for durum. Durum wheat at Lincoln and other points in the eastern parts of the state, however, rusts very

badly, is very scabby, frequently lodges, and produces grain of poor quality. At the North Platte substation the average yield of durum for five years (1904-1909) was 21 bushels and for the common spring wheat, 13.5 bushels. In 1909 and 1910, on the other hand, durum yielded but 16.2 bushels and common spring wheat 16.5 at the same station.

The North Platte substation from its experiments has found (1) that durum wheat matures earlier than common spring wheat, (2) that it not only gives higher yields but is also much more rust resistant than common varieties, (3) that Kubanka, Black Don and Velvet Don are good varieties for western Nebraska, and (4) that the best yields of durum are secured in years of normal rainfall.

Announces New Railroad

The Bridgeport News-Blade in its issue of February 26 announces that railroad officials have announced that definite arrangements are being made for the building of the long expected river road and that the plans will be given out this week. It is stated that the road will run from Bridgeport to Newark on the south side of the river instead of to Kearney, and will cross the river twice. It is stated that blue prints have already been prepared and maps will be ready for distribution next week.

Advertising

If there is one enterprise on earth that a quitter should leave entirely alone, it is advertising. To make a success of advertising one must be prepared to stick like a barnacle on a boat's bottom. He should know, before he begins it, that he must spend money—lots of it. Somebody must tell him that he cannot hope to reap results commensurate with his expenditure, early in the game.
