

1916 Maxwell \$655

Including Electric Starter and Electric Lights

The "Wonder Car"

4-cylinder Unit Power Plant with enclosed fly-wheel and clutch.

All Low "First-Cost" Records Broken

The new 1916 Maxwell shatters all low "first-cost" records for a real automobile. Think of it—a full 5-passenger car—an absolutely complete car, with electric starter, electric lights, high-tension magneto, and every refinement—a luxurious car—a beautiful car—a powerful 50-mile-an-hour-car,—yet a light-weight real economy car—for \$655.

Speedometer, fuse box, ignition, lights, battery regulator, all mounted flush on instrument board.

All Low "After-Cost" Records Broken

The "first cost" of an automobile is a big consideration to any sane man, but the "after cost" is an even bigger consideration to any man who wants to remain sane in his automobile investment.

The "after cost" or upkeep is what a car costs you to maintain, run, and enjoy, after you have bought it, and it is mighty hard to enjoy an automobile if it costs you too much to run.

The Maxwell has lowered all economy records for:

- 1st—Miles per set of tires
- 2nd—Miles per gallon of gasoline
- 3rd—Miles per quart of lubricating oil
- 4th—Miles lowest year-in-and-out repair bills

Demountable Rims are regular equipment of the 1916 Maxwell.

Note the compact arrangement of spare tire carrier, tail light and license bracket.

1916 Maxwell High-Priced-Car Features, all included for \$655

| | | |
|---|---|--|
| Electric Starter and Electric Lights | Wider Front and Rear Seats | Heat-treated, Tested Steel Throughout |
