KILLS SELF WITH A .38 REVOLVER

MAN NAMED GEORGE RICHTER COMMITTED SUICIDE AT 12:55 THIS AFTERNOON IN ALLEY—TAKEN TO HOSPITAL SOON AFTERWARD—PLACE OF RESIDENCE NOT KNOWN

A man who is supposed to be George Richter committed suicide at 12:55 this afternoon in the alley behind the city hall, the method of self-destruction being a .38 calibre revolver. The fatal shot was heard by many people, and it was at first thought that an automobile tire had blown out on the street. Pete Large was the first on the scene, he and Leonard Pilkington being in front of the hall when the shot was fired. Large started an investigation, and upon seeing the prostrate man about fifty feet away decided it was an intoxicated man. A slightly closer examination showed that blood was coming out of the top of his head, and it was then that the alarm was sounded.

Dr. Hershman appeared shortly afterward and made a brief examination, but stated that the shot had proven fatal. Richter was breathing but his breath was coming in short gasps. He was moved into the city hall and his pockets examined to determine if possible his name and address. Besides \$59.55 in money, and the revolver, which was pearl handled and hammerless blue steel, there was found a box of .38 cartridges, the corner being broken open and only enough being taken to fill the chambers in the gun. In one pocket was found a laundry slip bearing the name of a Great Falls, Mont., laundry, and this would lead to the conclusion that he came from that town.

Richter came to Alliance on No. 42 this morning, and registered at the Burlington hotel under the name given, but did not fill out the address line on the register. When he arrived he carried two suit cases, one of which appeared to be a calendar sample case. Late in the morning he appeared at the hotel and informed Guy Lockwood that he had secured another room, and departed with his possessions.

The bullet entered his head about an inch above the right ear. It was at first thought that it had passed out, but examination at the hospital revealed that it was embedded in the left side of the skull. No motive can be assigned for the suicide. Richter was not lacking in money, seemingly, but it is thought that he was a dope fiend. It may be that he was out of "dope" and becoming crazed by the long abstinence, took his life in a fit of despondency such as accompanies such cases. He is a man about 45 years old, 5 feet 6 inches in height, and weighs about 165 pounds. He is slightly bald, and his hair is tinged with gray. The destruction of the brain on the right side of his head caused complete paralysis of the left side of his body, and the shot fractured the entire right wall of his skull. On the right side of his head is a natural deformity which was not noticed until the examination was made. Portions of the brain came out of the wound. Powder burns on the right side of his face, near the ear, showed that the gun had been fired at close range.

An ambulance was called and the dying man was removed to the hospital, and last reports are that he cannot live more than a few hours. An effort is being made to locate his grips, which he has left either at

some rooming house or at a business house, and these will probably furnish some means of identification and give the whereabouts of his relatives or friends.

LIVE STOCK PRICES AT SOUTH OMAHA

Cattle Market Steady, but Trade Is Very Slow.

SLIGHT UPLIFT IN HOG VALUES

Big Receipts of Sheep and Lambs and All Bring Fully Steady Prices. Trade Active When Once Started. Good Lambs Bring \$2.90.

Union Stock Yards, South Omaha, Aug. 2.—A rather moderate run of cattle arrived yesterday, about 3,700 head. Good to choice beef steers were in good demand and prices were firmly held with the latter part of last week, but it was a rather slow and uncertain trade on the common to fair warmed up and more or less grassy cattle. Nothing new developed in the market for cows and heifers and for the most part prices were in practically the same notches as toward the latter part of last week. Veal calves were in active demand and firmly held at \$7.00@10.00, and there was about a steady deal in bulls, stags, etc. The wet weather was an unfavorable feature of the stocker and feeder trade, and while good to choice grades sold at just about recent figures, the medium and common grades were slow sale, at steady to a shade lower prices.

The auto has been almost completely remodeled since they decided to take the trip. In this way they are prepared to stop and camp at any place the night finds them, and continue the journey on short notice in the morning. It will surely be a pleasant trip. They expect to be away about six weeks.
