THE GREAT HEALTH SHOE FOR WOMEN

They have full rubber heels; not just a life such as your cobbler puts on, but a full heel made from live rubber—springy and resilient.

Treadeasy shoes have the regular leather insole, the same as any other shoe, but between this insole and the outsole, is inserted a soft filling or cushion of cork, which gives under the pressure of the foot allowing the insole to adjust itself to the exact shape of the bottom of the foot, giving a soft, even pressure on every part of the sole, and preventing undue pressure on any part, which is the cause of corns and hard callouses. Cork, being an absolute non-conductor of both heat and cold, the feet are kept as an even and natural temperature at all times and neither perspire in summer or are cold in

This illustration shows how the Treadeasy shoe made on the Treadeasy hygienic last, straightens and supports the ankle, and how the heel, being large and properly placed, brings the weight of the body squarely over the heel where Nature intended, giving you better balance and preventing the twisting strain on the ankle and arch of the foot. The sole hows how the last is made straight from heel to toe, the ame as the natural foot.

FARMERS'

Held at the Home of Guy Rust Tues-day—Farmers Have Decided to Name Their Farms

About twenty-five farmers were present at the regular monthly meeting of the club, which was held at the home of Guy Rust, four miles north of Alliance, Tuesday.

Probably the most interesting part of the program came when the farmers united in a decision to name their farms. Now instead of hearing of Mr. So-and-So's farm, you will hear of it as the Fairview or Sunnyview farm. In some of the older states this idea has gained such proportions that one seldom hears of a farm in the owner's name-instead, it is designated under its official title, which is generally registered with the county officials to avoid duplication. This plan will be followed here, that is, all farm owners will register the names of their places with County Agent Seidell so that no two farms will have the same names. Just to show how quickly the farmers responded to the plna, the names of those already registered are here printed.

'Purry Home" farm—D. W. Reiman. 'Sunnyside" farm—Guy Rust. "Hill Crest" farm.—A. L. Davis,
"Ash Grove" farm.—D. E. Purinton.
"Pleasant Hill" farm.—F. M. Russell.
"Shady Nook" farm.—N. M. Hays.
"Meadow Brook" farm.—W. D. Grif-

Wayside" farm-H. E. Lee. Among the other business matters September 13 to 17. discussed at this meeting was the one of statewide hall insurance, in which every farmer is interested.

twenty-five who named their farms, of Alliance will be well represented and from present indications he will by the above delegates. have a big bunch of sign painting on his hands. Should two farmers decide on the name names for the places, the one who registers his name first with County Agent Seidell will have exclusive right to the name.

The usual excellent dinner was served, and the meeting adjourned to meet at Purinton's grove five and one-half miles north of Alliance, on September 21.

Christians Win Another

Yesterday afternoon the Christian Sunday school team took another game from the Baptists by the score of 14 to 8. The Christians are playing like a house afire and seem determined to win that pennant, and it looks like it is going to be a pretty hard job for some team to keep them from doing it. The pennant is not cinched yet, however, as Hemingford is a close contender for it. The latter team has more games to play than the Christians and will probably win the most of them, so it is likely that the last game which is between Hemingford and the Christians will decide the championship. Arrangements have been made to have this game played at the fair grounds on Labor Day and it will be one of the interesting events of the
