John Marshall, who has been staying at the Blundell home for the past week or so, left for Alliance Saturday.

Ed Schumacher and Jim Blundell were callers at the Iversen ranch Thursday.

Jim Blundell arrived home last Monday from his week's visit with his parents, at Chadron. Jim is rapidly recovering from an operation for appendicitis, but is unable to do any work yet.

Charles Hilbert and wife of Chadron have been visiting friends in this vicinity the past two weeks.

Simon Iversen and Charles Hilbert and wife autoed to Marsland Thursday to attend the agricultural lecture.

OLDER BUT STRONGER

To be healthy at seventy, prepare at forty, is sound advice, because in the strength of middle life we too often forget that neglected colds, or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years.

To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-nourishing properties of Scott's Emulsion which is a food, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. No alcohol in Scott's.

BIG DENVER SHOW

January Event Will Be First Big Exposition in Two Years

It is expected now that the Denver Stock Show in January will celebrate the end of the foot and mouth outbreak and will be the big show of the country for this season. All of the other shows have been abandoned or held only in part, and the big breeders of the country are looking forward to the Denver show as the first opportunity in two years to get together in competition. All the big herds of the country are planning to come to Denver, and as the foot and mouth contagion is practically ended, there will be nothing in the way of the biggest show the West has ever seen. The show management is making preparations for the biggest event in its history, and there is no question but that all the facilities will be taxed to their utmost. Plans are being made for additional buildings to take care of the increased exhibits.

The passing of the show at Denver last winter was a big disappointment to stockmen all over the West, and there has been constant fear that the disease conditions might compel it to be abandoned again, but the outlook now is that the show can be held with perfect safety. The only contagion spot left in the country is in Illinois, and the infected area is growing smaller every day. It is believed that by the first of December all the quarantines will have been raised and the contagion will be a matter of history. In the meantime arrangements for the big Denver show are being pushed vigorously.

Poison Prairie Dogs

The most effective method of exterminating prairie dogs is by poisoning, according to the Agricultural Experiment Station. For the beginning of operations, late fall or early winter is usually the best time.

The most practical formula suggested by the Experiment Station is one composed of one ounce of powdered strychnia sulphate or strychnine alkaloid, one-half teacup of laundry or gloss starch, one teaspoonful of saccharine, in one quart of boiling water. Dissolve the strychnine, starch and saccharine in the boiling water. Pour the solution over twelve quarts of grain (preferably wheat) which is held in a tight vessel, such as a galvanized iron tub, which should be subsequently scrubbed clean. Stir the mixture very thoroughly until every grain receives a thorough coating, then spread the grain out to dry. Sprinkle a tablespoonful near the mouth of each occupied burrow.

The cost of such treatment is approximately five to eight cents an acre.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Grandma's recipe of Sage Tea and Sulphur darkens so naturally that nobody can tell.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy.

Exchange Gossip

Bridgeport News-Blade—Ev. Reek of Alliance was in the city the first of the week looking after business interests. * * * Tom Spencer of Alliance was in the city the first of the week in his car on business. * * * A rancher by the name of Miller, living south of Alliance was taken to the insane asylum Wednesday by C. B. Millett. * * * Miss Katherine Hagerty of Alliance has been in the city this week visiting with her sister, Miss Mayme Hagerty. * * * Walter Voight of Alliance was in the city Thursday on matters in the district court. * * * Miss Della Strong returned to the city Sunday from Alliance where she had been visiting for a few days with her parents.

Scottsbluff Republican—Judge J. H. Hewett, Mr. and Mrs. Link Lowry and Miss Lowry, Miss Jane Taylor, instructor in the schools, and Jack Hewett, of the Times, all of Alliance, made up a motor party that paid a visit to Scottsbluff last Sunday. While here, they visited the sugar factory and the Republican office. They chose the wrong day, however, to see Scottsbluff stirring. Sunday is a day of "rest and quiet" here, but not so on week days.

Omaha Trade Exhibit—Most of the stores of Alliance trimmed their windows in honor of their big Market Week. It is safe to say that this one feature of real mercantile co-operation will be enough to make the Market Week a success, as there is nothing that can give a city or a town a better appearance of "something doing" than to have all the show windows in town well decorated after a concerted plan.

Marsland Tribune—Mrs. McCray of Alliance came up in her car Monday and spent the day with her friend Mrs. E. T. Gregg.

Hemingford Ledger—The county road grading outfit, in charge of Messrs. Bicknell and McKinney, have finished the work on the main road between here and Alliance, and passed through here Tuesday, to work on some of the roads west of town. * * * Mrs. W. M. Cory was an incoming passenger on 43 last Friday, having spent a few days at Alliance with her sister, Miss Jessie Clayton, who is recovering from a recent operation in the hospital there. * * * James Hunter of Alliance was attending to business matters up in this end of the country one day the first of this week. * * * Sheriff Cox and party autoed up from Alliance Tuesday evening, spending a short time in town.

The district court at Harrison last week acquitted T. K. Evans of the charge of incendiarism, basing the evidence insufficient for conviction. Mr. Evans was arrested about two months ago and held in connection with a series of fires that had been in Harrison during the past year. While there is no doubt that these fires were of incendiary origin, it has been impossible thus far to identify the guilty parties.

Rushville Recorder—Up to Tuesday night 168 cars of potatoes were shipped from Rushville and 43 from Clinton. * * * John F. Strong came up from Alliance in his Studebaker car Wednesday on business, and left a renewal to the Recorder before he returned.

Hyannis Tribune—Mrs. Earl Gilliard visited with her sisters, Misses Bessie and Hazel Meeker, in Alliance, Sunday and Monday of this week. * * * Mrs. Lee Glass and son, Donald, spent the greater part of last week visiting with relatives in Alliance, returning home Sunday afternoon. * * * Mrs. Charles Preston, who recently suffered a surgical operation at the hospital in Alliance, returned home last Saturday and is rapidly recovering her strength. * * * Village Marshal Parks spent several days last week in Alliance in order to see how they did things there during "market week". During his absence from home Earl Gilliard "woe de stah", but was unable to negotiate any business under its influence.

Ashby Argus—We were misinformed concerning the Alliance fire last week and instead of the Burlington hotel being burned it was only a small building close to it. * * * Mr. and Mrs. Irving Thurston were passengers to Alliance Sunday where they visited with friends until the following day.

Chadron Journal—A deal was made early this week whereby the new bank purchased 50 by 75 feet on the corner north of the First National Bank, of Pope and Ormesher. Ormesher has 50 by 75 feet where his shop stands and 50 by 75 feet next the alley has been sold to some party whose name we did not learn. Mr. Pope retains no interest in the property. The deal was made through Chas. Britton of Broken Bow. It is reported now that the new bank expects to begin business about January the first next. [This is the bank of which W. J. Root, H. A. Copey and F. W. Hargarten, of Alliance, are the incorporators.]

Moisture the Controlling Factor
Moisture conditions are so powerful in controlling yields that tillage methods, rotations, crop sequences, and soil fertility are all thrown into the background. The changes in weather conditions from season to season and from day to day of each season are so radical and so various that one system of tillage may succeed one year and another system succeed the next year. However, there are a few rather broad principles that apply to a wide range of conditions covering the medium and also many of the extreme conditions. All of these principles are subject to modification, as there are no set and fast rules. It has been rather clearly established that moisture is the chief factor controlling crop production in this region. There seems to be an excess of fertility ov-

er available moisture at the present time. Therefore, any expense incurred for the purpose of maintaining or increasing the fertility is largely a loss so far as the yields of the succeeding crops indicate.—Bulletin of the Agricultural Experiment Station.

Alliance People Get Instant Action

Those who have used it in Alliance are astonished at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-Ika. Because it acts on BOTH lower and upper bowel, ONE SPOONFUL Adler-Ika relieves almost ANY CASE constipation, sour stomach or gas. It moves such surprising foul matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. Harry Thiele, Druggist.

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pale or muddy complexions; instead of the multitudes of "nervous wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of hot red water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

OLD-TIME COLD CURE—DRINK HOT TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hammer Brust Tee" at any pharmacy. Take a teaspoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF, ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs' Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia. Limber up! Get a 25 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.
