It will pay persons who need work of this kind to have it done by workmen who are known to be experienced in that kind of work and competent. Jobs Help Grocers
In order to meet the competition of the mail-order houses, grocers of Mandan, N. D., have announced that in the future they will fill any order for goods required by farmers at the mail-order catalog prices, the only consideration being that the customer must pay cash for the supplies.

It is understood that wholesale grocers of that section are standing behind the retailers in their fight to keep the money at home. In case a grocer is unable to fill any order at the prices quoted in the catalog, the jobber will see that it is filled, allowing the dealer a reasonable profit. This plan is in line with the new idea of jobbers co-operating with their customers in combating the mail-order houses.—Interstate Grocer.

The characters showed more than the ordinary amount of training, and also showed some natural talent. DISTRICT COURT IS IN SESSION

Many Cases to Be Heard This Term—May Require Three or Four Weeks to Finish

FORGERS GET STIFF SENTENCES

From present indications this term of the district court may last several weeks. While the cases are being disposed of as rapidly as possible, there are many of them that must be "long drawn out", and there is little chance to hurry them. Forgers are coming in for their just deserts, receiving sentences of from one to twenty years. It is thought that hereafter this class of criminals will find other fields for their operations.

Charles Vaughan, who passed a spurious check for \$10.50 on Col. Willard M. Evans, was given a sentence of from one to twenty years. A. A. McCoy, the groom of a week, who married a girl near Angola and then came to Alliance and passed a large check on a Sterling bank, was given from one to five years, together with a fine of \$100. Just before he was brought into court McCoy said his real name is Verdie P. Lewis.

In the case of the State of Nebraska vs. Manewal and Dunbar, the two young men who broke into Newberry's warehouse and extracted several cases of ammunition, Dunbar plead guilty, but Manewal stood firm and maintained his innocence. Dunbar was sentenced to a term in the reformatory, but Manewal's trial will come before the jury. If the latter young man is found guilty, and it is improbable that he will not be, the least sentence he can receive is not less than one year in the penitentiary. By good behavior he could be out of the reformatory in less time than that. Dunbar but recently returned from that institution.

The following divorcees have been granted thus far: Nellie Peterson from Peter Petersen; Helen Sietek from Joseph Sietek; Bertha Marsh from Benjamin R. Marsh; Carrie A. Kennedy from Jesse W. Kennedy, and Meryl McCoy from A. A. McCoy, alias Verdie P. Lewis. McCoy, or Lewis, is the young man referred to above, who was given a sentence of one to twenty years in the penitentiary for forgery.

In the cases of the property owners along Box Butte avenue vs. the City of Alliance, the motion to make the petitions more specific was overruled. The city is to answer within fifteen days.

The case of Hall & Graham vs. the C. B. & Q. railroad was dismissed. The case of Chas. A. Posvar vs. County of Box Butte, being an appeal from the board of county commissioners, was dismissed, as was the case of H. M. Wilson vs. I. L. Acheson.

George Watkins, colored, was sentenced to the penitentiary for a term of from one to ten years for stealing a suit of clothes from Jimmy Washington, also colored. Immediately after the theft, Watkins went to Crawford, where he was apprehended and returned.

PRISONER RETURNED

Wm. Dunbar, Sentenced to Reform School, Free for Short Time—Wants to Shield Manewal

William Dunbar, who with George Manewal was arrested for breaking into the Newberry warehouse and stealing shells, was sentenced to a term in the reformatory, from which place he recently came to Alliance, by Judge Westover Monday. Dunbar had been out on appearance bond, and as he had always answered when the sheriff had summoned him, it was thought he would continue to do so. But when the sheriff allowed him the liberty of going home and getting his clothes before starting for the reform school, he did not show up. A search was immediately started, and for a time it looked as though the prisoner had made a successful getaway, and that the court was holding the bag, as Dunbar had followed the terms of his bond. But the arm of the law is long, and Tuesday night Sheriff Cox received a message from a trainman that Dunbar was on board. A quick communication with the officers at Ravenna—and when Dunbar reached that place he was "nabbed" immediately. As Dunbar plead guilty and Manewal professed innocence of the crime, Dunbar was the necessary witness to convict his pal, and the supposition is that friends of Manewal induced him to skip out. Until Manewal is tried, Dunbar will be kept in a place where there is little danger of his getting out of town.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.
