## AVAILABILITY IN DEMAND FOR WESTERN LANDS

Western Nebraska, Colorado, Wyoming, Montana and South Dakota lands are steadily increasing in value. Their 1915 heavy yields of grain and the profit from the livestock and dairy business are now known and advertised in the Middle and Eastern States. Indications all point towards another and early strong movement of land buyers and homesteaders into the West.

We shall be glad to send, entirely free, to established land agents along the Burlington a large list of the names and addresses of inquirers about Western lands. They live in the Middle West. Many of these inquiries are for deeded lands, others for homestead lands, others for irrigated lands. This is then to remind commercial clubs, county organizations and others to anticipate in some effective way this coming movement of land seekers and settlers. I will do my part in co-operating with any locality served by the Burlington.

Seaside Reflections  
He (poetically inclined): "What do you suppose the wild waves really are saying, over and over, so many times?"  
She (more practical): "Can't even guess—some chestnut, likely as not."

More Groaning  
Ladd: "They've a fine table where I eat now—literally a groaning board."  
Sadd: "At our place we've nothing better than groaning boarders."

Yes, we went to California.  
"Did your wife enjoy the scenery in her trip across the continent?"  
"I don't think she looked at much scenery. But she enjoyed herself, all right. She looked at hats in eleven different states."

"Was that operation you performed successful, doctor?"  
"I can't tell yet. The patient's widow won't pay my fee, and my lawyer advises suing the estate."

First Boy—What is this big-brother movement?  
Second Boy—Well, as I understand it, never lick any boy who has a big brother.

The following amusing examples of how not to write English are supposed to have been gleaned from advertisements in the public prints and elsewhere:

"For sale, \$5 suits; they won't last long."

"aBthing suits reduced to almost nothing."

"Don't go elsewhere to be cheated; come in here."

"Bulldog for sale; will eat anything; very fond of children."

"For rent, a room; suitable for gentleman 12 by 15 feet."

"Wanted, a boy to deliver oysters that can ride a bicycle."

"Shirts laundered in the rear."

"Wanted, 10 girls to sew buttons on the sixth floor."

"Every article in this window reduced 120 per cent."

"Shoes half-soleoed on the inside while you wait for 35c."

"Your baby, if you have one, can be enlarged, tinted and framed for \$8.79 per dozen."

"Of course you are in favor of peace."

"Certainly. But I don't want to be equipped with nothing but arguments in case I meet the kind of man whose one idea of peace is to have all his enemies stowed away in a graveyard."

"What's the honeymoon, pa?"

"The honeymoon, my son, is the only period in a man's life during which he considers it funny to come home and find that his dear little wife hasn't dinner ready on time."

He—In the present wars they say the surgeons are positively giving wounded men new faces.

She—What a pity that more people don't go to the wars!

"Your age, please," said the insurance solicitor.

"Nine hundred ninety-nine next birthday," replied Melchizedek.

"Pretty high rate, I'm afraid," said the insurance man. "Why didn't you come to me a couple of hundred years ago, and not put it off till you're middle aged?"

Miss Sycamore (of Terre Haute)—Waiter, you may bring me some devilled crabs.

Miss Emerson (of Boston)—I'll have some atanzled crustaceans, also.

### LEARN SCIENTIFIC FARMING

More money is wasted by not knowing HOW to farm than is lost by the ravages of fires and floods. EXPERIENCE is a GOOD TEACHER, but he charges a mighty stiff tuition fee.

If you are farming or thinking of farming, why not learn the farming game as you would any other business game? If you have not the time or think you are too old to spend two or three years in an agricultural college, take a course in the Campbell Correspondence School of Soil Culture and learn the principles and practices of SCIENTIFIC FARMING. You don't have to leave home—just use your SPARE TIME that otherwise would be frittered away.

The West is full of opportunities for the man who knows the farming game for a scientific standpoint.

You know all about BURBANK, and you have heard of CAMPBELL, the great soil wizard. You can learn what he has learned and in much less time.

Send for our CATALOG NUMBER FOUR and a copy of CAMPBELL'S SCIENTIFIC FARMER. If you are looking for AGRICULTURAL INFORMATION you will find what you want.

Who makes them?  
Are they poisonous or non-poisonous?  
Are the sticks long and strong or short and weak?  
Do the heads fly off or do they stay on?  
Do they burn evenly or explosively?

If people knew as much about matches as they should, they would use Safe Home Matches made by the Diamond Match Company.

## Always Moving Ahead

Thousands of the brightest minds in this country are devoted to the development and improvement of Bell Telephone service.

Steadily and constantly some fault is eliminated, some method improved, or some obstacle overcome.

To realize the steady progress that has been made one only has to compare the quality and quantity of the service today with what it was ten years ago.

Even in the last five years the number of telephones in use has been practically doubled and the distance of telephone transmission multiplied many times.

Our rates are the lowest possible and yet afford sufficient revenue to pay a reasonable return on the money invested, after paying fair wages and after providing sufficiently to rebuild or restore parts of the plant when destroyed by fires or storms, or when it is worn out or becomes obsolete.

It is our constant endeavor to give the best service at the lowest rates at which it can be furnished, so we shall be able to connect everyone who will add to the service to others.
