#### OFFICIAL PROCEEDINGS OF COUNTY COMMISSIONERS

Alliance, Nebr., Feb. 21, 1916. The Board of County Commissioners met pursuant to adjournment. Officers present: George W. Duncan, chairman, and C. L. Hashman.

The plans submitted by county engineer for two bridges over the Niobrara river south of Marsland were inspected by the board and details of same considered under the advice of a representative of a bridge firm who was present.

The report by J. W. Guthrie of the audit of accounts of the county judge and county clerk were examined and approved by the board.

Whereupon the board adjourned until Tuesday morning, February 22, 1916, at 9 o'clock.

Alliance, Nebr., Feb. 22, 1916. The Board of County Commissioners met pursuant to adjournment. Officers present: George W. Duncan, chairman, and C. L. Hashman.

The day was spent by the board inspecting road reported as impassable and arranging to have same repaired temporary.

Whereupon the board adjourned until Wednesday morning, February 23, 1916, at 9 o'clock.

Alliance, Nebr., Feb. 23, 1916. The Board of County Commissioners met pursuant to adjournment. Officers present: George W. Duncan, chairman, and C. L. Hashman.

The day was spent by the board viewing and directing road work.

Whereupon the board adjourned until Thursday morning, February 24, 1916, at 9 o'clock.

Alliance, Nebr., Feb. 24, 1916. The Board of County Commissioners met pursuant to adjournment. Officers present: George W. Duncan, chairman, and C. L. Hashman.

The day was spent by the board with the county and precinct assessors, relative to the 1916 assessment.

Whereupon the board adjourned until Friday morning, February 25, 1916, at 9 o'clock.

Alliance, Nebr., Feb. 25, 1916. The Board of County Commissioners met pursuant to adjournment. Officers present: George W. Duncan, chairman, and C. L. Hashman.

## Guaranteed Trees

I wish to announce to all persons who are going to plant trees this spring that, if they want the benefit of having their trees GUARANTEED FOR ONE YEAR, it is very important to submit your order AT ONCE, so that they will come on the very first shipment.

Any trees that I plant that come on the second shipment will not be guaranteed, as early shipments is one of the means of success, where we have to ship in stock from other places.

Now, if you want to receive all of the benefits connected with success, get your order to me not later than

# March 20, 1916

Then leave the rest to me. You will then have done everything that is needed or could be done on your part for a perfect stand of trees.

If you neglect to do as above suggested, you are adding risks to the business that no one cares to carry, so I will have to decline to guarantee anything that is not ordered by the above date. The reason for this is that trees that commence to leaf out in another climate then brought here, lose the leaves and new ones must start, but if brought here before the leaves start and heeled in, the leaves do not fall off when transplanted, and can then be safely planted up to the first of June.

Why not get busy, and let's commence to fill this country with trees. If you do not see me, just drop me a card to Alliance, Nebr., for your wants, or phone No. 386.

This guarantee applies only to trees which I furnish and plant myself.

# J. P. BARGER

#### OLD-TIME COLD CURE— DRINK HOT TEA!

Get a small package of Hamburg Bread Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

#### RUB RHEUMATISM FROM STIFF, ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops swelling, lumbago, backache, neuralgia, lameness and Get a 25 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

#### 57,000 AUTO LICEMSES

Records of Secretary of State Show That There Are Nearly 60,000 Autos in Nebraska

(By Special Correspondents) Lincoln, Nebr., March 8—Nearly 57,000 new automobile licenses have been issued by Secretary of State Charles W. Pool during the months

good work continues.

At a meeting of the state insurance board last Thursday, Charles Q. DeFrance, who has been holding the position of expert accountant in the state auditor's office, was appointed actuary of the insurance department. Horace E. Wiggins, who has held the position of actuary for a number of years past, resigned last week to take up other work. Mr. DeFrance is one of the ablest accountants in the state, and the insurance department will not lose any of its efficiency in the change.

The young men's democratic association has lately been organized in Lincoln, and is composed of the young democratic voters, all under thirty-six years of age. At the initial meeting held a few evenings since, officers were elected, a constitution adopted, and on April 4 a rousing meeting is to be held. The new organization promises much for democratic success in Nebraska.

That the progressive or Bull Moosers will put a full ticket in the field in Nebraska this year is evidenced from the filings already made for state offices and presidential electors. This course was decided on a short time ago at a meeting of the progressive party leaders, and while the standpatpers and those filing for office on the republican ticket made light of this meeting, and poked fun at the action taken thereat, it seems to have had a more far reaching effect than was at first anticipated by the standpat element of the republican party. Progressives are up in arms and by March 18, the last day for filing for the primary election, a full progressive ticket will be in the field, for both state officers and delegates to the national convention. The names already filed are as follows:

For governor, John F. Hanson, Fremont; state treasurer, Wm. C. Crooks, Lincoln. Presidential electors at large, Eric Morrill, Oakland; John Lewis, Omaha; Nelson T. Thorsen, 2d district; Frank Vedder, Franklin, 5th district.

bridge building and co-operation of county boards with the state in the construction of county bridges resulted in a saving of over a half million dollars in 1915, according to a report made by State Engineer Johnson to the State Board of Irrigation and Highways. The saving on state aid bridge work was principally the result of more efficient design while the saving in county work was accomplished by better co-operation between the county boards and the engineer's office, which furnished 7000 bridge plans to the counties of the state and advised with them in regard to the proper size and kind of bridges to be used, as well as in the matter of letting contracts. This co-operation between county boards and the state engineer's office was brought about by the passage of the uniform bridge plans law by the 1913 session of the legislature, which measure was introduced by State Auditor Wm. H. Smith, who was then a member of the state senate. Prior to the passage of this law, bridge plans were invariably furnished by some bridge contractor who was thus given a decided advantage in bidding on the proposed work, while there was no supervision over the construction of bridges by the state engineer.

Here is an account of how Dr. Boyd of the Live Stock Sanitary Board conducted his professional and other business affairs for several months with a partly dislocated neck. Dr. Boyd, while in the performance of his duties last October at Hecla, was thrown down and trampled on by wild broncos. He seemingly soon recovered from the accident with the exception that he frequently suffered severe headaches, and during the latter period of his suffering he would lapse into unconsciousness, and remain in that state for some hours. He consulted several specialists, and finally it was learned that the atlas of the neck and a vertebra was out of place. He is now taking treatment and rapidly recovering.

Funeral designs made on short notice.
