National Defense and International Peace

What the Engineers are Doing

THIRTY thousand American engineers are making a card index survey of American industry so that it may be prepared for its vital part in defending the Country, if need comes. The past eighteen months have taught us here in America what lack of industrial preparedness has meant to some of the countries now at war. These nations had the ships and they had the men; but when the hour struck, their factories were not able to furnish the colors with arms and shells and powder. Their factories were not prepared. And our factories are not prepared.

But it is not enough to draw a moral. In the United States five great Engineering Societies—Civil, Mining, Mechanical, Electrical and Chemical—have pledged their services to the Government of the United States, and are already working hand in hand with the Government to prepare industry for the national defense. They receive no pay and will accept no pay. All they seek is opportunity to serve their country, that she may have her industries mobilized for defense.

All elements of the nation's life—the manufacturers, the business men, and the workmen—should support this patriotic and democratic work of the engineers, and assist them cheerfully when asked. There can be no better national insurance against war.

The Associated Advertising Clubs of the World, representing all advertising interests have offered their free and hearty service to the President of the United States, in close co-operation with these five Engineering Societies, to the end that the Country may know what the Engineers are doing. The President has accepted the offer. The Engineers have welcomed the co-operation.

This advertisement, published without cost to the United States, is the first in a nation-wide series to call the country to the duty of co-operating promptly and fully with the Engineers.

England Leads the List of the War Nations—Norway Tops Neutrals with 81 Losses

Washington, May 2—British estimates of the European war's toll of merchant ships, given in figures today by the department of commerce, put the number at 736 with a tonnage of more than 2,000,000. Allied vessels lost 583 and neutral 198.

The estimates made by a British admiral, give British losses as 410 ships, French 53, Russian 35, Italian 27, Belgian 10 and Japanese 3. This does not include the loss of 237 trawlers by the British, seven by the French, and two by the Belgians.

Norway, with eighty-one vessels destroyed, leads the neutral nations in losses. Sweden with forty is second, and Denmark with twenty-eight is third. Holland has lost twenty-four, and the United States seven.

British losses amount to 4 per cent of the total number in service, and 6 per cent of the tonnage; French losses are 4 per cent in number and 7 per cent in tonnage. Despite these losses, it is declared, the aggregate of ships owned by the allies is being steadily increased through building.

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers you—Drink more water.

If you must have your meat every day, but flush your kidneys with Salts occasionally, says a noted authority, it tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. It becomes sluggish and weakens, then suffers with a dull misery in the kidney region, sharp pains in the back or headache, dizziness, your stomach and tongue is coated and when the weather is bad you have rheumatic twinges. Urine gets cloudy, full of sediment, channels often get sore and irritate, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids—cleanse the kidneys and flush off the body's urinous waste get four ounces of Salts from any pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. Famous Salts is made from the acid grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys also to neutralize the acids in urine so it no longer irritates, thus ending bladder weakness.

Famous Salts is inexpensive; cannot cure, and makes a delightful uric-acid-water drink.

Immanuel's Lutheran Church Services for Sunday, May 9:

There will be special English services at Immanuel's Lutheran church next Sunday, in which several young people will be confirmed and will partake of the Lord's Supper for the first time. This service will commence at 10 o'clock a. m.

An important business meeting of the congregation will be held at 2 o'clock p. m. All members of the congregation and all our friends are cordially invited to attend this service.

TITUS LANG, Pastor.

W. J. McClement, assistant special agent for the Union Pacific, was in Alliance on business Saturday. McClement is the company representative who received a letter from the bandit Carlisle, immediately after the hold-up of the 21st near Lara. He is asking when and where the company wanted him (the bandit) to attempt the next hold-up.

HAIRN GRAY HAIR, LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens So Naturally that Nobody can tell.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking the small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

ONE HOG NETS OVER \$78.20, WEIGHED 1,000

Big Fellow Stops Machinery at Armour Plant Where He Went

World-Herald.—It will be admitted on the start that this is some hog story. Here is just one instance where the true thing is a little stranger than dream stuff. Because this pig, the history of which is about to be related, was so big that he stopped the machinery at the Armour plant.

A regular fiction writer with an eye for the unusual would have the entire hog killing force at the Armour plant quit work inside and get out into the hog pens to kill this monster, which would not go in through the doors. But since this is to be a true story it must be said that the hog really did go in through the doors of the killing floor, but that was about all.

This porker weighed 1,000 pounds, was six feet in length and brought his owner \$78.20. Yes, indeed, some stout!

The pig was shipped in, not on a flat car, but in a regular stock car, by M. Benedict of Hoskins, Nebr. As has been stated, the porker weighed a round 1,000 pounds and sold for \$8.50 per hundredweight. When freight and other charges were deducted, Mr. Benedict found himself richer by \$78.20.

As far as is known, this is the largest hog shipped to this market in some years. The former owner said that at least 100 pounds more weight could have been put on the hog by a longer period of feeding.

The animal was purchased by Armour & Co., and after it was killed it was found that it would not go through the hair-removing machinery and had to be scraped by hand.

The hog was handled here by the Clay-Robinson Commission Co.

Rev. Chas. H. Burleigh, publisher of the Hemingford Ledger, went to Saratoga Springs, N. Y., last week to attend a conference of Methodist ministers from all over the United States, as a delegate from this district. He expects to be gone five or six weeks. W. Browne Church is in charge of the paper during Mr. Burleigh's absence.

The careful man puts his money in the bank if he dies he won't leave helpless children

Are you a daddy?

You love your family; perhaps you waste a lot of money in "drips and drabs" that if put into the bank now would grow to a big sum.

If you live "you" can enjoy your money—if you don't, it will protect your children.

You are setting your boys a good example when you put money in the bank.
