Found Indian Skeleton
A tragedy centuries old was unearthed here Tuesday when a gang of men while excavating on the canal at the Cornell dam uncovered the skeleton of an Indian warrior who no doubt roamed the plains hundreds of years before Columbus made his debut in America. The bones were found ten feet beneath the surface of the ground and were covered with several strata of dirt, sand, gravel, shale and rock, indicating that the man had been dead for centuries. The find would have been overlooked had not the chief engineer, George W. Steinmeyer, been present to identify the bones as that of a man.

The Indian's teeth were in perfect condition, as were also a few of the larger bones. The supposition is that the Indian while being on the bank of the Niobrara was killed by his adversary, a flint arrow head was found among the chest bones. Beneath the skull a string of hand-made stone beads were found which were thrown into the river by a Sioux Indian, Peter Lone Bear, who was working on the dam, with the remark that "they were not pretty." The action of Lone Bear bears out the old Indian superstition as regards ancestral relics. The material covering the skeleton through the entire number of strata was not disturbed, which proves him to be one of the oldest finds ever unearthed in this country of the early Indian.—Valentine Democrat.

Scottsbluff City of First Class
Governor John H. Morehead issued the proclamation Saturday by which Scottsbluff entered the list of cities of the first class. The city council has been considering the proposition of making the change for several months. A special census was taken under the direction of the mayor and city attorney, and a return made showing that the population was 5,168. This change will give the city many advantages and is one which is favored by most of the taxpayers. The Lincoln Journal in its issue of Saturday, June 10th, reports the occurrence in the following manner: "The valiant city of Scottsbluff entered the first class today. It was not graduation—although it was a June day proceeding—for the city is going to keep on growing until some day it will be one of the metropolises of the west."—Scottsbluff Star-Herald.

New Secretary at Chadron
Mr. Jackson's parental home is in Nelson, Nebraska, but for the last four years he has been at Lincoln attending school at the State University, from which institution he graduated with honor, last week. He specialized upon the Commercial course and comes to us fully equipped for Commercial Club work. We are glad to welcome such men into our city and shall be glad to "lend a hand" in any worthy enterprise favored by the club. Yet every member of the club be ready to do his part and we may expect live club work.

There is nothing so marks a live city as a commercial organization that does things. The Chadron Club has done many good deeds and is capable of doing many more. We have reason to believe that Mr. Jackson will prove a "Columbus of industry" and that he will be able to impress the idea of a long, strong, all pull together town, upon the minds of our business men.

We hope to see all factions united upon a level of community interests and predict a great future for Chadron.—Chadron Journal.

Most of the school gardens of the city have been divided into local clubs, each with a local leader, as follows: Mrs. J. B. Schroek, Mrs. C. H. Rose and Mrs. C. M. Matney. The boys and girls are out selling their products and the leaders in the garden work hope that they will receive the proper patronage. They would be glad to hear from all who have complaint to make as to the quality of the products sold, so that they may adjust and remedy the fault.—Scottsbluff Star-Herald.

The Ard ore commercial club is planning on having two great days of sport and entertainment at Ardmore, S. D., on the 4th and 5th of July. If everything turns out as expected, there will not be a single dull moment on either one of the morning days from 10 o'clock in the morning until after midnight. The forenoon of each day, from 10 to 12 o'clock, will be taken up with a program of interest to all, the details of which will be announced later. T. B. Ball game will take place at 1 o'clock each day for a purse of \$50.—Crawford Courier.

Purchase Tractor at North Platte
The board of county commissioners has just closed the deal for the purchase of a Twin City tractor for road building in Lincoln county. The machine purchased from a Denver firm is of 40 horse power and capable of drawing two 8-foot blade grading machines. With this tractor a mile a day can be laid at a cost of from a \$21 to \$25 per mile, while under the old horse power system it requires days to build a mile of road and costs \$75 per mile.—North Platte Telegraph.

ford, were thrown clear of the car, but Miss Hungerford was not so fortunate, being pinned underneath. As soon as Mr. Allen realized the situation, he found himself lying in the mud close by the car, which was still chugging away. His first impulse was to shut off the engine, but as he could not reach the throw off owing to the position of the car, he had to do so by disconnecting a wire. Then he assured himself of the safety of the girls, Miss Hungerford saying she was unhurt but could not get from underneath the car till the door was opened, when she was able to crawl out unassisted and all walked back to town.—Crawford Courier.

Swimming Pool Next for Crawford
Monday noon about thirty men met at the Cafe Royal for the bi-monthly luncheon given by the Crawford Chamber of Commerce. The main topic for discussion was regarding a Field or Sport Day for the benefit of the Crawford City Park.

After listening to the plans made by Messrs. Cooper and Morison who gave much credit to the young men of this city for their arduous labors in beautifying the park, they said they wanted to make a swimming pool for the use of the Crawford citizens. Bath houses are also contemplated. To obtain finances to aid in doing this work it was agreed to make Saturday, July 1st, Crawford Park Day and suitable buttons are to be ordered for the purpose, and they are to bear an inscription relative to this Field or Sport Day. They will be sold for 25c each and every citizen wearing a button will be admitted free into the park grounds that afternoon to witness the horse racing, baseball game and a multitude of sporting events. All taking part in these events will donate their services so as not to cause committee to spend any money for events. Many have offered teams and services to help make the new swimming pool so the committee are hopeful for enough money to defray the cost of the erection of contemplated bath houses.—Crawford Courier.

Booster Trip
Booster hats, whistles and roosters will be furnished all good boosters, and to show them we're not slow Let the whole creation go. It is Sunday, you'll not work, But you can't from boosting shirk, And perhaps sometime this fall Hot Springs will return the call. Make arrangements, oil the car So that next the trip can mar. Get up early in the morn And begin to blow your horn, Let us make that city feel Chadron has a bunch that's real. Boost for Chadron and Hot Springs. Show them that we're doing things. Hot Springs people are all right And they will enjoy the sight When we roll into their city, If you miss it 'tis a pity. —Chadron Journal.

Human Fly
A "human fly" fared rather badly Saturday afternoon when he attempted to scale the wall of the Tucker and Farnsworth store at the intersection of Third and Locust streets, during the height of the afternoon rush. His "spell" to the crowd sounded well, and it was only a few moments until he had a large audience. He made the start in excellent shape, but when near the top, made a mist-step, lost his large grip, crashed into one of the awnings and from thence fell to the sidewalk. He was unhurt, save in his feelings, and at once immediately fell into the hands of the police, who booked him as being drunk and "crazy," this being their estimation of any man who would endeavor to climb a sheer wall and expect to "get by" with it. The "human fly" was unhurt by his rather exciting experience.—Grand Island Independent.

Strange, But True
An unusual accident happened to Will Wolcott, mail carrier on a route near Reynolds recently. While on his route about five miles west of Reynolds, lightning struck his car and killed his engine. The shock made the car jump to one side an inch or two and the engine gave one or two gasps and died. Wolcott was not hurt or shocked. An examination showed that the lightning had run through the electrical system and burned out the fire box.—Havelock Times.

Grasshoppers
For the past several weeks grasshoppers have been quite numerous in various parts of Sheridan county. It is a pity to see the destruction they have wrought at several places. Some farmers have lost from 20 to 30 acres of alfalfa, wheat and other crops.—Hot Springs News.

Terrific Rain and Hail Storm
Tuesday evening the heaviest rain and hail storm that ever visited this part, passed over Harrison and vicinity. About six o'clock it began to rain, with occasional hail falling, and kept getting heavier until it just poured down. The rain continued until 10 o'clock or later, and the hail lasted until nearly 9 o'clock. During the time 4 1/2 inches of water fell.

Wednesday morning the effects of the hail was plainly visible. Gardens and crops in the territory covered by the storm were completely ruined, but the area covered by the hail was comparatively small, considering the length of time it lasted. There was no damage by hail in the valley north of Harrison, nor did it extend as far east as Andrews, nor west as the state line.—Harrison Sun.

A Requiem
Breathes there a man with soul so dead, Who never to himself hath said: "My trade of late is getting bad, I'll try another eight-inch ad." If such there be, go mark him well: For him no bank account shall swell. No angels watch the golden stair To welcome home the millionaire. The man who never asks for trade By local line or ad displayed, Cares more for rest than worldly gain, And patronage but gives him pain, Tread lightly friends: let no rude sound Disturb his solitude profound.

Here let him live in calm repose, Unsought except by men he owes, And when he dies, so plant him deep. That naught may break his dreamless sleep: Where no rude clamor may dispel The quiet that he loved so well. And that the world may know its loss. Place on his grave a wreath of moss, And on the stone above, "Here lies A man who would not advertise." —Exchange.

Mother of Billy Sunday Dies
Word was received in Omaha last night, announcing the death of Mrs. Sunday, mother of William A. Sunday, at Winona Lake, Ind., where she had resided with her son for a number of years.

Mrs. Sunday was 84 years of age and had been in poor health for a long time. For many years she lived in Ames, Ia. The body will be taken to Ames for burial and there the funeral will be held Wednesday.—Omaha Daily Bee.

New York, June 22.—The Carranza government has withdrawn practically all of the \$4,000,000 which it has on deposit here for financing of the ordinary business of the de facto government, it became known here today.—York Daily News-Times.

Vera Cruz, June 23.—Five first-class coaches full of Americans arrived here last night. They will go aboard the battleship Nebraska today and afterwards be transferred to a transport. A special coach also arrived with the American employes of the Agulla Oil company. The refugees report that their trip down was uneventful.—Omaha Daily Bee.

Bishop Beecher Arrives
Captain George Beecher, known in civil life as bishop of the Episcopal church, arrived with the Hastings company. It was he who declined to stick around on his job in Nebraska while his boys were at the front. "I'll go with 'em," he said tersely to Colonel Paul yesterday—and he was here today, a sweet briar pipe stuck between his lips and exuding sunshine every way he turned.—Morning World-Herald.

Coyote Round-up
The big coyote round-up at Hope schoolhouse occurs next Thursday as has been announced heretofore. The drive starts at each of the four lines at eight o'clock in the morning, and will converge to the schoolhouse where a program and speaking will be had, together with a big dinner for all.—Gering Courier.

Our Exchanges
The Chadron Commercial Club met Monday night for the first time with the new secretary, Earl Jackson. About fifty were present to see that the new secretary got a proper initiation. The members of the executive committee, however, were not present. The club passed a motion inviting the members of the executive committee to attend the general meetings.—Chadron Journal.

Indians to War
Sioux Falls, S. D., June 25.—Three battalions of infantry and one troop of cavalry, composed of Sioux Indians, will be available if the president wants them for service in Mexico.

F. L. Brandon of Crow Creek agency, and Elmer Hunt of Pine Ridge and Rosebud reservations, are in Pierre today consulting the governor. Sioux Indian horsemen from the Standing Rock and Cheyenne river reservations will be drawn for the proposed cavalry troops. The Indians are eager to go into the service.—Omaha Daily Bee.

HEAR WITHOUT EARS

Deaf and Dumb are Using Lip-Reading in Place of the Dialectograph

Thousands of deaf people are today browsing away all bearing devices and enjoying all conversation. This method is easily and quickly acquired by our system. Absolutely the only thing of its kind in the country. Our proposition is entirely original. We guarantee results, it will amaze you just is trifling. See what New International Encyclopaedia says on Lip-Reading. Hundreds of people with normal hearing are taking up Lip-Reading for the many additional benefits gained. You can understand what the actors are saying in the moving pictures. You can understand what people are saying just as far away as you can see them. The eye understands beyond the range of hearing. Send no money, but men this paper and state whether or not you are deaf. All particulars will be sent you absolutely free and with no expense to you. Address School of Lip Language, Kansas City Missouri.

Claude McDonald Back Again
A. C. McDonald, who went from Alliance to Sheridan about a year ago to accept the position of night foreman at the Burlington yards at that point, returned Friday noon to Alliance to make his home here again. Mrs. McDonald arrived Wednesday of last week. Mr. McDonald will be employed by the Burlington here.

WHAT CATARRH IS
It has been said that every third person has catarrh in some form. Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good. To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building-tonic, free from alcohol or any harmful drugs. Try it. Scott & Bowne, Bloomfield, N. J.

Chadron Normal Notes.
The registration had reached two hundred thirty-seven on Tuesday evening of this week. This does not include model school pupils nor piano students. The latter added quite a number to the enrollment last summer. The students in attendance are remarkably earnest and enthusiastic, many of them returning to us from previous summer's attendance. A number of graduate students are registered for advance courses. One promising feature of the registration of the young teachers is that most of them who are preparing for examinations for state certificates make opportunities to register in courses which give them advanced credit toward normal graduation. New subjects thus add new life and interest to their work and will be sure to benefit the schools in which the student teachers will work the coming year. Many good reports of methods and subject matter acquired are brought back to instructors, and we are assured by the many evidences of promotion and appreciation that our students have had from their patrons that the strenuous work of the faculty of the normal is bringing its reward.

By way of making the students acquainted and arousing enthusiasm, a series of "hikes" has been arranged by Prof. Philpott and Mrs. McLane. One of them took place last week and another was scheduled for this week. Others will occur from time to time. They give students an opportunity to enjoy some of the pretty scenery near Chadron, as well as to have a good time.

The party given by the faculty to the summer school students last Friday was a very enjoyable affair. As usual, the large number in attendance was divided into groups, ten in all, each of which was entertained in various rooms by "stunts" put on by members of the faculty, refreshments included. A very interesting program of musical numbers was given in the assembly room at the beginning. Frances and Holden Smith, Miss Winnie Deitzell, Miss Vlasta Cerny and Miss Edna Brewer furnished some delightful numbers.

Preparations are made for the annual picnic on Friday of this week at the Atwater grove east of town on the Bordeaux. The grouping of students for the convenience of dinner arrangements was affected through a committee of faculty members and students. Students who have been enrolled in the normal at any time as well as other friends have been included in groups where the committee have had notice of their desire to join us. All friends of the school

have a cordial invitation extended to attend the picnic.—Chadron Journal.

Ostenberg Visited Alliance
W. H. Ostenberg, Omaha capitalist and one of the large owners of stock in the Potash Products Company, of Huffland, spent Saturday night in Alliance, visiting the potash plant Sunday morning, before taking the noon train for the east. Mr. Ostenberg also has interests at Scottsbluff, which he visited before coming to Alliance.

Well Children Are Active
If your child is dull, pale, fretful and wants to lie around, the chances are it is suffering from worms. Kick-apoo Worm Killer, a pleasant candy confection, killed by all children, is what your child needs. You only give one-half to one lozenge at a time and you get immediate results. Every mother should have a box on hand. 25c at all druggists. Adv.—No 1
