Greatest Joys Are Simple.

The joys that are bought with money are worth nothing compared with the joys that, though sweet and gay and unassuming, are yet deep, enduring and quieting; the joys that enlarge the heart instead of diminishing it, and which we too often pass by—somewhat in the manner of those peasants whom one sees in an ecstasy over the fireworks at some fete, and who pay not the smallest attention to the splendor of a summer night.—Sabatier.

CHADRON TO HAVE A NEW FIRE TRUCK

The Chadron volunteer fire department is to have a fine automobile chemical fire truck, to be built for them by the White Motor Company at a cost of \$2,700. The following article from the Chadron Journal tells of the purchase:

A number of the fire department were present and considerable discussion with reference to new fire engine and apparatus, Mr. Hamilton, agent for the White Motor Co., of Kenosha, Wisconsin, was also present, after explaining the various makes of fire trucks, etc., Mr. Hamilton stated that he had a comparatively new Chassis automobile which could be made over into a good serviceable truck, this finished complete with the White guarantee would cost about \$2,700 at the factory, after the council had looked over the various trucks, it was moved and carried that the proposition of the White Motor Co. to put one of their fire department equipment trucks upon a 60 h. p. Chassis car for \$2,700 payable in one year be accepted and that the city attorney be directed to prepare a contract and guarantee.

One of the special features for the coming celebration in Scottsbluff will be a Fireman's Tournament, in which it is planned to have Bridgeport, Minatare, Mitchell, Morrill, Gering and Scottsbluff participate. A cash prize of \$50 and a silver loving cup will be the prizes. The loving cup will pass into the possession of this year's winner who can keep it unmoiled for a year, but in order to own it permanently it will be necessary to win it at three tournaments. Good Japanese Custom.

Polite Japanese never have the grip because they commit "iki wo hiki," that is drawing in their breath sharply, a salutary custom which one doctor has declared incomparable as means of grip prevention, the idea being that Japanese are careful as to where and on whom they breathe and so keep the percentage of germ distribution at a rather respectable low figure.

Age Not Always a Remedy for Squint.

It is a popular superstition that a child will grow out of a squint. This is true in some cases—those of the temporary squint of infants, for instance, but even then, according to the British Journal of Children's Diseases, it should be a warning that the brain's control over the eyes is weak and that when the child goes to school or has a serious illness the squint may become permanent. Even if the eye be straightened it will have lost its power of vision.
