COMMITTEE IN CHARGE OF ROAD IMPROVEMENT

Highway to East of Alliance Will Be Reconstructed—Work to Start Soon

The road east of the city leading to Hoffland, Antioch and Lakeide will be greatly improved when the work contemplated is completed.

Five hundred dollars have been raised already to pay the expense of improving the highway and another \$100 is expected by those in charge of the enterprise.

Secretary Bushnell of the Alliance Commercial club has been active in getting funds and has had the support of the members of the organization and the citizens generally.

The idea is to improve the road as much as possible with the funds available. Several sandhills will have to be cut down and it will be necessary to put a different surfacing on a portion of the road and then have the whole highway dragged.

George Darling and C. A. Newberry are the members of the committee in charge of the work and they will see that the money is spent to the greatest advantage.

COUNTIES MUST PAY FOR CARE OF THEIR INSANE

State Auditor William H. Smith was in the city and met with the county board of equalization. Box Butte county owes the state \$2003.36 for the care of county insane by the state. The board allowed \$500, to be paid at the next meeting, which is in October.

Gage and Stanton counties refused to pay and the state brought suit, the state winning, getting the principal and the interest, which amounted to more than double. In several cases where the county has refused to pay, the state has won. The state passed a law whereby the auditor could waive the interest if the counties would settle.

INDIAN IS CHAMPION

Jackson Sundown, a full-blood Nez Perce Indian and nephew of the famous Chief Joseph, won the title of world's champion bucking horse rider at the roundup at Pendleton, Oregon, last Saturday. Rufus Rollen of Clarence, Okla., won second place and Bob Hall of Pocatello, Idaho, 3rd. Other champions made today were George Weir, Monument, N. M., steer roping; Allen Drumseller, Walla Walla, Wash., cowboy relay; Frank McCarrill, Pendleton, bulldogging; Katie Wilkes, Miles City, Mont., cowgirl's bucking; Floyd Irwin, Cheyenne, Wyoming, pony express; Mabel LeLong, Wallula, Ore., cow girls' relay.

SALES FROM CAR DOORS

As the fall of the year approaches inquiries grow more numerous as to the rules to be enforced on "peddling from cars," which practice of long standing was prohibited by the Union Pacific and the Burlington railroads last fall, and followed by all other roads operating in the state except the Northwestern and the Chicago, St. Paul, Minneapolis & Omaha. On order of the commission, after several conferences between shippers and carriers had not brought results, the prohibition is to be removed from the tariffs of the roads using it within the state. This has the effect of again permitting the sales from cars. The mistake must not be made of interpreting this change to mean that the bars are all down. The roads still have an interstate prohibition in force, and vegetables and fruit cannot be shipped from other states into Nebraska and be sold from the car door. The shipments must originate within the state and terminate within its boundaries.

Telephone Equipment Costs Have Doubled in Two Years

Material used in the manufacture of telephone equipment that could have been purchased for \$50 two years ago cannot be bought for less than \$100 today.

The following figures show the per cent increase during the last 20 months in the market price of several of the more important items used in the manufacture of telephone equipment:

Material.	Increase.	Material.	Increase.
Aluminum	108%	Lead	94%
Batteries	68%	Lumber	20%
Brass	174%	Platinum	98%
Copper	126%	Rubber	39%
Crossarm bolts	175%	Tin	66%
Crossarm braces	274%	Wire (iron)	20%

These advanced prices are caused principally by the European demand for war materials and to the curtailment of foreign imports into this country.

Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a rosy, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere. An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach. Those subject to sick headaches, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.
