Superintendent Pate of the Alliance public schools reports the total enrollment of the schools at present is 874, or 85 better than the corresponding month of last year. This shows a steady growth for Alliance, as the school population is a good criterion to follow in estimating the city's advancement. There are many pupils of school age enrolled in the St. Agnes academy, making the total educational enrollment of the city one of which the citizens of the community well may be proud.
