The president's train was an all steel train made up of baggage car, business car, diner, Pullman for the newspaper men and other members of the party and the president's private car, "Superb," for the president and Mrs. Wilson, Secretary Tunnulty and other members of the immediate party.

Several railroad officials accompanied the train. Emergency engines president. were placed along the line between Chicago and here and all freight trains were required to stop while the special passed, so that there could be no possible danger of accident.

President Wilson made his first address of the day to Commercial club members at the luncheon at noon, when 600 crowded the limited capacity of the house, and some 500 more stood in the corridors and in the aisles between the rows of tables after the luncheon had been served.

Mrs. Wilson was with the president, directly across the table from him. Mrs. H. H. Baldrige sat at her right and Mrs. James C. Dahlman at her left.

J. A. Sunderland introduced the president. Governor Morehead was at the president's right during the Iuncheon.

'America has been in itating other peoples too long," said the president, whereas America has a store of native genius that is amply adequate to all her needs.

He spoke of the newer American ideals, and said, "I venture most of the business men at first spoke of the anti-trust law with curses under their breath. There was much talk of big business getting no sympathy. The fact is, big business had plenty of sympathy, but bad business ought not to have had any sympathy.

"Some of the days when the tide of business runs free, you'll look back and say, that is when the channels were dug for this tide."

GENTLEMAN FROM KAN. CHAMPIONS WET ISSUE

Hon. Vernon J. Rose of Kansa City, Kansas, spoke at the opera. house Monday night in opposition to the proposed constitutional amendment. He came to Alliance under the auspices of the Nebraska Prosperity League.

Mr. Rose is a good talker but the crowd was small. Because of a theatrical performance the hour was set early in order to get through before time for the show to begin. Mr. Rose quoted figures to prove his contention that prohibition did not prohibit in Kansas and that the cause of temperance was not promoted by the
