COMFORT WITHOUT EXTRAVAGANCE

NO CUT RATES ON LIQUOR LICENSES

Alliance Licenses Expire May 1, 1917 so Local Dealers Will Not be Out as Omaha Dealers

Owners of saloons in Alliance are more fortunate than saloon men in some of the other "wet" towns in the state. The fiscal year for Alliance ends May 1, 1917, at the same time the state becomes "dry." Saloon licenses in Alliance expire May 1, so that owners will experience no inconveniences in that respect.

In Omaha, where the fiscal year starts January 1, 1917, and licenses must be renewed on January 1, saloon men will be compelled to take out licenses for the whole year of 1917 in order to operate during the four months until the saloons must be closed. The license in Alliance is \$1,400 per year, the six saloons paying a total of \$8,400 a year. The Omaha license fee is but \$1,000. The highest license now being paid in the state is at Lincoln, where the tax is \$2,000 for the year. The Omaha tax for running a saloon will be \$1,000 for four months or \$250 a month, which is practically \$10 for each day the saloon is open.

Some liquor dealers paid their license fee supposing that they had the authorization to operate until midnight, but the 8 o'clock closing law was passed cutting off a third of their business hours, but no rebate or allowance is allowed on the license money. The lawyers agree that in those cities where the fiscal year starts on January 1 no new license can be granted after the first

of the year for less than the full year's fee, although the license can serve its purpose for but four months.

Section 3869 of the statutes governs the issue of licenses to sell liquor in cities of the metropolitan class and provides that they shall be granted for the municipal year, which "in cities of the metropolitan class, from January 1 of one year to January 1 of the following year," and that the amount to be paid for the license shall be "not less than \$1,000 in metropolitan cities." The courts have also repeatedly held that the full license fee must be paid in before a valid license can be issued, that the license money belongs to the school fund, and that there is no way of recovering any part of it back when the license lapses or is revoked.

Only outside of incorporated cities of the first and metropolitan classes, is the minimum license fee \$500, and therefore the \$500 exaction will apply only to liquor dealers doing business in a county beyond the city limits.

Cattle Market Steady & Strong; Fair Receipts

HOGS ARE ABOUT 5c LOWER

Fat Lambs Active at Steady Figures
—Light Supply. Smallest Run for a Monday in a Month. Old Sheep Stronger—Ewes Set Fall Record, \$7.60—Very Few Feeders Here—Feeding Yearlings at \$8.00.

Union Stock Yards, South Omaha, Nebraska, November 14, 1916. The week opened with a fair run of cattle for a Monday, some 273 loads, about 7,200 head being reported in. Receipts included a very good percentage of corn fed stock, but the ripe well-fatted stock was rather scarce. Dressed beef men all wanted cattle, and as the offerings were limited they paid steady figures to get them. In fact, the good to choice beefs selling around \$9.70@10.25 looked a little stronger. The fair to good 1,100 to 1,500 pound beefs selling around \$8.75@9.50 were largely quoted as steady, and the trade was somewhat slow and irregular on the warmed up and only partly fatted steers. Between twenty-five and thirty cars of cows and heifers showed up Monday.

Quotations on cattle: Good to choice yearlings, \$10.00@11.10; good to choice beefs, \$9.75@10.50; fair to good beefs, \$8.50@9.75; common to fair beefs, \$6.50@8.25; good to choice heifers, \$6.50@7.25; good to choice cows, \$6.50@7.00; fair to good cows, \$5.75@6.50; canners and cutters, \$4.25@5.50; veal calves, \$8.00@10.00; bologna bulls, \$5.00@5.50; beef bulls, \$5.50@6.50.

Estimates placed the hog run at 112 cars or 7,900 head, it being a little larger than for any Monday in a long time. The market opened fairly active, and around 5c lower than at the close of last week. The shipping and packers' orders were filled at a nickel reduction.

A small run of sheep and lambs showed up for Monday, only about fifty-five cars, or 13,200 head being reported in. Supplies of lambs were hardly up to packing requirements, and movement started early at good steady prices. Bulk of the good lambs sold upwards from \$11.40, with several loads as high as \$11.60, the new fall record established at the close of last week. Fat sheep were scarce, and like the lambs, moved early. Prices were strong and looked somewhat higher. Some of the best ewes brought \$7.50@7.60, the latter price being a record breaker for the season and for this time of the year.

Quotations on sheep and lambs: Lambs, good to choice, \$11.35@11.60; lambs, fair to good, \$10.75@11.35; lambs, feeders, \$8.75@10.10; yearlings, good to choice, \$8.50@9.25; yearlings, fair to good, \$7.50@8.50; yearlings, feeders, \$7.00@8.00; wethers, fair to choice, \$7.00@8.25; ewes, good to choice, \$7.25@7.60; ewes, fair to good, \$6.25@7.10; ewes, plain to culls, \$4.00@5.75; ewes, feeding, \$4.50@5.75; ewes, breeders, all ages, \$6.00@8.50.

JUMP FROM BED IN MORNING AND DRINK HOT WATER

Open sluices of system each morning and wash away the poisonous, stagnant matter, says authority.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank each morning before breakfast, keeps us looking and feeling fit.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost but little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.
