

FOR
SECURITY,
USE
BUFFUM
PATENT
**GATE & DOOR
HOOKS**

Trade  Mark
Reg. U.S. Pat Off.

THIS is the best
and simplest gate hook ever
made. No springs to get weak, break,
or lose out. Cannot freeze up so it will not work. Made of
malleable iron, which makes it unbreakable. Cannot be opened
from outside with a stick. Especially valuable on gates, barn doors,
grain bins, chicken houses, cellar doors and box stalls, as stock cannot unlock it by
pushing up with their noses, or by rubbing on the gate or door.
Always use this patent gate hook. It may save you a valuable horse or cow. Every farmer
can use to good advantage one or more boxes on his farm. Sold by all jobbers and carried in
stock by all retail hardware dealers.

Small Size (**Four-inch**) **10c each**
Catalogue No. 3953
Large Size (**Seven-inch**) **15c each**
Catalogue No. 3954

PACKED COMPLETE WITH STAPLES—ONE DOZEN IN A BOX
