OUT NOW TO MAKE ALLIANCE A DISTRIBUTING POINT

The Alliance Commercial Club is calling attention to the fact that taking the new freight rates now in effect into consideration it is highly advisable for all distributing houses to branch out and thereby gain a freight rate which they could not enjoy as they have formerly when shipping from central distributing points. Attention is called to the fact that Alliance's location in the railway field makes this city a desirable distributing point. The Commercial Club hopes, by pointing out these facts, to interest distributing houses of various kinds to establish distributing agencies or depots here, or encourage new concerns to establish businesses here.

If you are paying high interest rates in the Building & Loan call on the Nebraska Land Company and get the money at reduced interest rates.
