As yet, the railroad companies have not signified whether or not

The Commercial Club of Alliance is interesteing itself in this proposition and is working in behalf of the M. Said defendant is required to shippers and receivers of freight. In the new order of the Inter-state Commerce Commission which surplants the Nebraska Rallway Commissioners, class rate schedule generally known as order No. 19 from a surface investigation shows that the rates which became effective October 25 are an increase over which prevail under order No. 19 of from twenty to fifty per cent.

It seems that the effect of this rate upon Alliance is about the same as on other shipping points in the state, says Secretary Bushnell of the Commercial Club, with the possible exception that there may be a slight discrimination favoring competitive points. The rates under the new order for first, second, third and fourth class freight to Alliance from Lincoln and Omaha is as follows: Omaha 95 80.7 66.5 57

Lincoln . . . 89 75.6 62.3 53.4 A comparison between the rates from Lincoln and Omaha under the new order to Alliance as against Scottsbluff and Crawford shows that the latter towns have an approximate average higher rate than Alliance of about five cents under the four classifications. From the surface it seems that there is no discrimination against Alliance but when the intricacies of freight schedules are known it is very possible and most reasonable to assume that Alliance does not receive a rate proportionally equal to that accorded to other town

in the state. The Commercial Club will, according to Secretary Bushnell, make an investigation upon the matter and attempt to reileve and eradicate any injustice that might exist and to obtain concessions whenever and wherever possible. Secretary Bushnell says. "Since the elgality of the new schedule of the Inter-state Com- Pills. merce Commission is being questioned by the state railway commission and the case will be appealed to the United States supreme court, which will take a year or more to determine it in all probability, it is advised that all retain their freight bills so that in the event that the new order i declared illegal, the excess payments made under it during the interim may be gained back by the proper
