### AN ENDORSEMENT FOR WILSON AND BRYAN

The Roswell Daily Record, of Roswell, New Mexico, contained the following interesting editorials in a recent issue:

There is one thought about the results of the election just passed that keeps coming up before us. If the Mexican policy of President Wilson was all wrong, as our Republican friends told us, why was it that President Wilson carried every state along the border; and still more than that, Mr. Hughes would have to travel fifteen hundred miles from the border before he would reach a state he carried? Why?

A Republican friend tells us that he voted for Wilson in 1912 and at the last election. He says he regards Wilson as the greatest American since Abraham Lincoln, adding that he hoped some time to have the opportunity to vote for Bryan, something he has never done. There are lots of other Republicans just like him.

### A CHANCE TO DO EFFECTIVE WORK

Box Butte county, at the recent general election, placed one of our citizens in an office in which he will have an opportunity to do effective work. The office of county assessor has been filled in a capable manner in this county in the past and with credit to the men who held it. But changing conditions in the county have shown the necessity for a general revision of the tax schedule and we believe that the newly elected assessor, J. A. Keegan, will find plenty to keep him busy during his term of office.

Numerous instances have come to the attention of The Herald where tax schedules have been turned in by the precinct assessors which need some strong revision. Very rarely do schedules come in which have been assessed too high, but frequently, as all who have to do with the collecting of taxes know, that many have the "nerve" to put in schedules which are much too low. This is manifestly not fair or just to the other taxpayers. There are instances in Box Butte

**MUST BURN DEAD HOGS**  
Lee Basye, county attorney of Box Butte county, has called the attention of The Herald to the fact that a number of people of the county have violated the law by burying hogs which have died from hog cholera. The law states that hogs dying from this disease shall be burned and provides a fine of ten dollars for each offense in violation of the same. Parties having hogs which have died from cholera should burn the carcasses promptly and avoid trouble.

Never in the history of Alliance was there such an opportunity to save money on groceries as you now have if you take advantage of The Standard Grocery Company's Anniversary Sale.

county where adjoining land is assessed at valuations which seem almost ridiculous—one tract will be almost double that of the other with practically the same amount of improvements.

The question of the abolishment of the office of county assessor was voted on at the election. Many people voted for the abolishment of the office under the mistaken belief that in so doing they would do away with expense, not realizing that the work must be done and if not done by an elected officer it would have to be done by a person appointed for this purpose.

The Herald assures Mr. Keegan that in accepting the office of assessor he will find plenty of work to keep him busy. We also believe that he will have the active co-operation and assistance of the other officials of the county in his work and that by the end of his term he will have accomplished a much-needed revision of the schedules of the county. Tax dodging should not be tolerated or allowed, especially on personal property. The publication of the personal tax schedules of the county would make interesting reading.
