DRINK HOT WATER BEFORE BREAKFAST EVERY MORNING

Hopes every man and woman here will adopt this splendid health habit.

Says a glass of hot water with a teaspoonful of limestone phosphate in it washes poisons from system, and makes one feel clean, sweet and fresh.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by ill-

If we all would practice the drinking of phosphated hot water before breakfast, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosycheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons in the bowels which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, sick headaches, rheumatism, lumbago, nervous days and sleepless nights have become real cranks about the morning-inside bath. quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing sweetening and freshening effect upon the system.

CONDUCTORS DON'T LIKE WAITE SYSTEM

Brotherhoods Not Asking For New Laws, But May Have Program Later-Are On Guard

No extensive list of new laws affecting railroad operation and management, so far as revealed, is being asked for this year by the "big four" brotherhoods, although it is under-stood that a legislative committee is on the ground in Lincoln to safeguard the orders against legislation that might be proposed.

In discussing this matter one railroad man is reported to have said that if th orders ask for anything it will be a law that will protect conductors against the White system of train auditing, which is regarded as exceedingly objectionable by the order men. This system, in use on the Burlington and other roads, uses train auditors who may get a train at any station on the line and demand immediately of the conductor in charge of the train his collections from passengers. The conductor gives up his cash fares, tickets and transportation slips, and the auditor then checks the train to see that the report of the conductor is correct and omplete. Some conductors hold this is taking an unfair advantage of the conductor in that the demand is made perhaps before the conductor has had a chance or time to check his receipts, and that it places him publicly in a bad light with the patrons of the road.

Raolway managers have main-tained, however, that it is much fairer to ask a conductor to explain his report when the transactions are all fresh in his mind than to wait for discrepancy or ninety days and then call a conductor in to explain some discrepancy and office auditor has found after a conductor has forgotten all about transactions on tha particular trip. Further it is pointed oout that a state law cannot place auditing of interstate business.

It is further said that very little if any legislation will be sought by the railroads. What they most desire right now, with all their troubles on hand, is to be let alone. They are busy planning for an increase of transportation facilities to handle a rapidly growing traffic, a tonnage bulge that came so unexpectedly that t swamped them.

LLOYD PAID ALLIANCE SHORT VISIT

Lloyd Thomas, state representative from this district and business nanager of the Herald, spent Saturday Sunday at home visiting with friends and attending to business matters. The legislature adjoudned Thursday afternoon but Lloyd is a member of the Democratic committee on committeees, which did not finish its business until Friday afternoon. He reports everything going satisfactorily so far and that he has been placed on two important committeees which will give him plenty of work to do during the session, which convened and got down to work again on Tuesday afternoon. Mrs. Thomas accompanied him on his return.
