

# Fewer Eggs are required with ROYAL BAKING POWDER

In many recipes the number of eggs may be reduced with excellent results by using an additional quantity of Royal Baking Powder, about a teaspoon, for each egg omitted. The following recipe is a practical example:

## Chocolate Sponge Roll

1/4 cups flour	2 tablespoons melted shortening
1/2 teaspoon salt	1/4 cup hot water
1 cup sugar	1 teaspoon vanilla
2 eggs	2 teaspoons Royal Baking Powder
2 squares melted chocolate	

The old method called for 4 eggs and no baking powder

**DIRECTIONS**—Sift flour, baking powder and salt together three times. Beat whole eggs. Add slowly sugar, then boiling water slowly; add next vanilla, melted chocolate and melted shortening, without beating. Sift in dry ingredients, and fold in as lightly as possible. Pour into large baking pan lined with oiled paper, and bake in slow oven twenty minutes. When done, turn out on a damp, hot cloth, spread with white icing and roll.

Booklet of recipes which economize in eggs and other expensive ingredients mailed free.
