EALY MORNING FIRE AT GORDON DOES DAMAGE

Gordon Journal: Sunday morning about 4 o'clock the people of Gordon were aroused from their peaceful slumbers by the clanging of the fire bell.

When the fire company arrived the front of the Connor cafe was all ablaze, as well as the north side of the Central building.

The front of the cafe was completely ruined, although not a great deal of damage was done to the inside except furniture and fixtures which were right at the door, and broken windows.

The window and door of the Ruddy Land Co. was ruined as was the door of Central office. The damage here was not severe enough to put any phones out of commission although some were rather faint.

Chadron Chronicle: Ray Haskell and Chas. Thompson were given a trial before County Judge Slattery last Monday afternoon, both pleading guilty to having burned railway property of less value than \$35.

Two weeks ago we mentioned in these columns the circumstances leading up to this trial, the boys having attempted to burn an old outhouse near the roundhouse. Public opinion has been divided on the case and there are two sides to the matter.

GRASSHOPPERS DAMAGING CROPS IN THE VALLEY

Gering Courier: During the past two or three weeks grasshoppers have become so abundant in Scotts Bluff and Morrill counties that they are injuring crops severely.

At the request of Superintendent James A. Holden of the Scotts Bluff Experimental Station, Clarence E. Mickel and Earl Yates of the office of state entomologist are spending several days in Scotts Bluff and Morrill counties to aid in the work of combatting the grasshopper pest.

ELEVEN CARS OF OIL DESTROYED BY FIRE

Crawford Tribune: Early Tuesday morning a terrific explosion aroused a large portion of the population of this city and soon volumes of black smoke were noticed ascending to the sky on the military reservation.

the oil and cars possible, Captain Leedom, of Company I, F. N. G., and Captain Nickerson, commander at Fort Robinson, being on the ground with men under their commands. YOUNG CYCLONE RAISED BUILDING ABOUT SIX FEET

Crawford Tribune: On Saturday afternoon a strong wind resembling the antics of a cyclone visited this city, doing damage to a number of out-buildings and sheds on the school house hill in the southeast part of the city.

"The garage and tool shop were raised in the air at least six feet never striking the ground again for fifty or sixty feet, from where it scattered the building over two blocks to the school house, not leaving a side, end or part of the roof whole. The car that was in the garage was left standing without any damage excepting a punctured tire."

MANY MORTGAGES FILED IN SCOTTS BLUFF COUNTY

Scottsbluff Star-Herald: For some reason, the exact cause of which is merely a matter of conjecture, the office of County Clerk Kirkham has experienced an unprecedented run of chattel mortgages for the month of July just closed, the record eclipsing anything heretofore recorded for that month.

On July 20 alone, seventy-four mortgages were filed, and the month up to the 30th alone showed that a total of 711 had been filed with two days yet to record. The mortgages while many in number are apparently individually small as to amount, the total up to date cited above amounting to the sum of \$132,268.47.

This would indicate that while there has been an extraordinary amount of business done in the way of filing and releasing, the balance is heavily in favor of the side of liquidation, an indication of prosperity.

The Herald buys old newspapers, magazines, catalogs, and scrap paper of all kinds in good condition. We pay twenty cents per hundred pounds—four dollars per ton. Lots of one hundred pounds or more called for if within the city limits of Alliance, Phone 340.

Wait Until the Telephone Bell Stops Ringing

Party line telephone subscribers occasionally report that as they begin talking another person on the line will interrupt, as though he too had been called.

This trouble occurs because the party called removes his receiver from the hook before the bell stops ringing.

If the receiver is lifted before the bell stops ringing on a party line the ringing current will flow through the bell of the other party on the line, causing it to ring.

Party line subscribers should not lift the receiver from the hook until the bell stops ringing. Otherwise the other party on the line will be annoyed.
