800,000 MEN TO BE DRAFTED DURING 1918.

According to General Crowder about 800,000 men will be drafted during 1918. There will be a few men drafted prior to June 1. But no large number will be called until after the spring work is finished. The draft delay also hinges on the uncertainty as to the quotas to be assigned the different states.

NOTICE—M. P. KINKAID
Congressman Kinkaid asks us to announce that, as the quota of free garden seeds is inadequate to supply more than one-third of the heads of families in this Congressional District he will this year send allotments only to those who write for them. As garden seeds are not desired by a large proportion of his constituents he wishes to supply them to those who will utilize them. By this means of distribution waste will be prevented and larger allotments assured to all who will plant the seeds forwarded to them. Address Mr. Kinkaid, House of Representatives, Washington D. C. 12-2t-8-9053

War-Savings Stamps

What They are. Where to Buy Them

War-Savings Stamps are "Baby" bonds issued by the Government of the United States, and are made in the form of stamps or stickers. The 25-cent stamp is slightly larger than a postage stamp, and the \$5 stamp 2 1/4 inches high and 1 1/2 inches wide. The 25-cent stamps are known as "Thrift Stamps" and the \$5 ones as "War Savings Stamps."

When one buys the first 25-cent stamp he is given a card with room for fifteen more stamps of this size. These stamps do not bear interest, but when the card is full it can be traded in on a \$5 stamp that does.

When you get the first \$5 stamp you are given a certificate card with your name written on it. It has space for twenty stamps of this size, and when filled has a maturity value, Jan 1, 1923, of \$100. If you get it only partly filled, it is worth \$5 for each stamp it contains.

You can either trade in 25-cent "Thrift Stamps" for "War Savings Stamps" or you can buy them outright. The War Savings Stamps cost \$4.14 and in five years they will be worth \$5 each. The difference of 86 cents represents the interest the Government pays on the \$4.14 for five years which is about 4 1/2 per cent. If you do not wish to keep the stamps until the date of maturity, which is January 1, 1923, you can get the cash for them from any postmaster, plus whatever interest they have earned, by giving him ten days' notice.

No person may own more than \$1,000 worth of War Savings Stamps. They can be bought one at a time several at a time, or the whole thousand dollars' worth at once, as you please.

If you register at the postoffice the certificate card to which your War-Savings Stamps are attached you can lose or burn the stamps and still get your money back.

Both kinds of stamps are sold at the post-office at all banks, and at nearly every store.

This is the size of a 25c U. S. THRIFT STAMP. They do not bear interest.

Save 16 and trade them in on a War-Savings Stamp.

We Are Urging Everyone to Buy War Savings Stamps

As a nation we have staked all on the outcome of the war. As individuals we should do the same—for if the nation loses, everyone in America loses.

To win the war, we must give the Government every opportunity to get all the money necessary.

War Savings Stamps raise money quickly for the Government and give to the purchaser the liberal interest of nearly 4 1/2 per cent.

War Savings Stamps are an investment that everyone can buy, because they are sold in quantities to meet every purse.

The Government of the United States is asking no favor in offering these Stamps for sale, but rather giving everyone an opportunity to buy gilt-edge security at a splendid rate of interest.

We are urging everyone to buy War Savings Stamps to the limit of their ability.

This is the size of a U. S. WAR-SAVINGS STAMP. For each stamp you own, the U. S. Government will on Jan. 1st, 1923 pay you \$5.00. COST DURING 1918. Jan. \$4.12 July 4.18 Feb. 4.13 Aug. 4.19 Mar. 4.14 Sept. 4.20 April 4.15 Oct. 4.21 May 4.16 Nov. 4.22 June 4.17 Dec. 4.23 The difference between these prices and 5.00 is your interest, which is equivalent to about 4 1/2 per cent.
