GORDON MAN SHOT IN HIS HOME

On last Monday evening Mr. N. C. Sherman, who lives about twelve miles south east of Gordon had an experience which he does not care to repeat.

The story as told to us by Mr. Sherman is about as follows.

Mr. Sherman lives entirely alone and at about 6.30 o'clock he was seated at the table eating his supper when the door flew open. Supposing the wind had caused the door to open he got up and went to close it and when in the act of closing the door a man appeared, presented a gun and fired a shot. The ball took effect in the right breast, struck a rib and followed the rib around to the back where it passed out, went through the back of a willow chair and into the wall.

He tried to close the door but before he could accomplish this another shot was fired, which entered his arm and lodged against the bone. He then closed the door and a little later started to the home of Mr. Maddox and saw the lights of an auto going west. When he reached the Maddox home, Dr. Dwyer was called to dress his wounds, making him as comfortable as possible.

On Tuesday Mr. Sherman was taken to Gordon and is now at the home of Sam Pergrin. He is up and around but can give no idea as to who the person was who attempted to take his life, or what motive could have prompted the act.

ANOTHER ROBBERY

Sometime Tuesday night thieves entered the store of W. B. Thompson and rifled the cash register and took a good supply of lemon extract and other small items.

He did not get away with a great deal however as Mr. Hunt, the clerk, had taken the days receipts home with him leaving only two or three dollars in the till, so the thief had to be content with that, but was no doubt somewhat peeved.

Some day this gentleman's foot is going to slip and a nice little vacation at Lancaster will be his without the asking.

There seems to be no clue to the identity of the culprit, but it was evidently some one very well acquainted with his surroundings.—Gordon Journal.

DEVICE FOR MAKING STARCH

S. S. Benson of York has invented a mill for removing the starch from potatoes. He says the entire outfit can be erected for \$500. He has no patent on it and says any one is welcome to the usocit.

The machine is about eighty feet long and can be built of boards. The only machine work or mill work necessary is the fluted rolls that crush the potatoes.

The potatoes are fed in at one end where they are cleaned by a series of brushes. After they are cleaned they are crushed by the rollers and the pulp falls into a vat of water. Paddles operate in the vat to submerge the pulp so that the starch may be completely dissolved. The starch is heavier than the pulp and sinks to the bottom while the pulp may be skimmed from the top and disposed of.

A machine of this size, according to Mr. Benson, will use a thousand bushels of potatoes a day. This starch he says tastes just as good and can't be told from corn starch.

There are at present no Potato Starch factories in the U. S. If there were such a factory in Hemingford there would be no need for so many spoiled Spuds.—Hemingford Journal

PEOPLE TO VOTE ON

SUNDAY SHOWS

The matter of whether or not Scottsbluff is to have Sunday shows was brought up at the council meeting on Wednesday evening by Messrs W. E. Calhoun and Harry Rodell, managers of the two show houses of this city. The gentlemen stated that with the other towns surrounding Scottsbluff allowing Sunday shows of motion pictures, the public of this city have in the past been denied, and for that reason a goodly number leave this city every Sunday. They asked that they be allowed the privilege of putting on a Sunday afternoon matinee between the hours of 2 and 5 o'clock, only. This they stated, would in no manner interfere with church services or church goers who attend forenoon and evening services.

The mayor and council stated that they were for from hidebound or puritanical and so far as they were concerned the shows would neither make nor mar them, but as was the case in the matter of Sunday baseball they judge it would better be left to a referendum vote of the people of the city themselves.

In consequence a petition will be prepared under the statute relating to such matters and the proposition

COMB SAGE TEA IN FADED OR GRAY HAIR

If Mixed with Sulphur it Darkens so Naturally Nobody can Tell.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

will be placed upon the ballots to be voted at the city election on April 2. The law specifies that such petitions shall be signed by 15 per cent of the voters of the city, and after its presentation to the council an ordinance embodying the proposition asked is prepared, placed on the ballot and submitted to the people of the city themselves to decide at the polls.—Star Herald

BANK ROBBERY WAS

A FALSE ALARM

Four men reported to be sugar factory employees at Bayard were overhauled yesterday near this city by Sheriff Koenig on their way from Pine Bluffs to the former city. They were hunted down upon the supposition that they were bank robbers who had tapped the new bank at Harrisburg the night before, but that report was the outgrowth of the fact that they had broken into the building and spent the night there, it not yet being opened for business Sheriff Pat O'Grady of Banner county saw their car standing by the building, without a number and approached them to find out why it was not displayed. They questioned his authority and when he went back to get his badge, they hit the road. The sheriff called up over here and in the telephone confusion it was supposed they were guilty of robbery. Poses went out, including quite a number of the Home Guards, but the sheriff was the one who finally landed them. The final charge against them, after two previous possibilities, is on liquor charges, as twenty-seven bottles of liquor were found in their possession. They give their names as C. Hendricks, J. Colbert, John Speaker and George Stanning. They were assessed fines, of \$200 each this morning which they are arranging to pay.

W. D. Fisher, Secretary of the Alliance Commercial Club and Potash Highway, was in Rushville last Friday and called in to meet the editor, who happened to be out. We are sorry of this as we have heard so much about Mr. Fisher that we have been anxious to meet him—Rushville Standard.
